# INTRODUCTORY NOTE

*In collaboration with the Member States, the European Commission has established the "EXCISE DUTY TABLES" showing rates in force in the Member States of the European Union.*

*As from 1 January 2007 this publication:*

*\* covers all EU Member States;*

*\* has been divided into three different sections:*

- I        Alcoholic Beverages*
- II       Energy products and Electricity*
- III      Manufactured Tobacco.*

*This publication aims to provide up-to-date information on Member States main excise duty rates as they apply to typical products. The information is supplied by the respective Member States. The Commission cannot be held responsible for its accuracy or completeness, neither does its publication imply an endorsement by the Commission of those Member States' legal provisions.*

*It is intended that Member States will regularly communicate to the Commission all modifications of the rates covered by this publication and that revised editions of the tables will be published twice a year.*

*To this end, it is vital that all changes to duty structures or rates are advised by Member States to the Commission as soon as possible so that they may be incorporated in the tables with the least possible delay. All details should be sent to:*

*e-mail TAXUD-C2-TABLES@ec.europa.eu*

*This document together with general information about the Taxation and Customs Union can be found at:*

- AT: The AT standard rate is € 2 / hectolitre / degrees Plato. A reduction in Austria will only be granted to independent breweries with a maximum annual production volume of 50 000 hl and the tax difference may be reimbursed at the request of the person who has paid the tax (standard rate) in Austria. The production quantities, as well as the taxation on the standard tax rate in Austria must be proven in order to receive a refund.
- DE: VAT and import turnover tax will be reduced for a six-month period from 1 July to 31 December 2020.  
The standard VAT rate will be cut from 19% to 16%, and the reduced VAT rate will be cut from 7% to 5%.
- DK: The reduction depends on the brewery's annual production of beer.  
1) < 3,700 hl - reduce the excise duty by 50 percent.  
2) >= 3,700 and < 20,000 - reduce the excise duty in percent that equals to 168,607 divided by the produced amount in hl + 4.43 dkk.  
3) > 20,000 hl - reduce the excise duty in percent that equals to 14.29 reduced by dividing the produced amount in hl by 14,003.
- LU: An additional duty is imposed on products containing a mixture of beer and non-alcoholic drinks.  
Rates: 600€ / HL of finished product
- LV: Planned standard tax rate from 01.03.2021. - 8.2 EUR per hl per °Alc, minimum level 15.2 EUR per hl.  
Reduced rate from 01.03.2021. for independent small breweries - 4.1 EUR per hl per °Alc, minimum level 15.2 EUR per hl.
- SI: Small breweries (yearly production <= 20,000 hl).  
Exemption is for natural person use of beer if yearly production is less than 500 l.
- UK: For breweries producing less than 5,000hl, 50% of the standard beer duty rate is applied.  
For breweries producing between 5,000hl and 30,000hl the following formula is used: (annual production - 2,500)/annual production x standard rate.  
For breweries producing between 30,000hl and 60,000hl the following formula is used:  
(annual production - (2,500hl - 8.33% of annual production in excess of 30,000hl))/annual production x standard rate.  
With effect from 1st October 2011 an additional duty, High Strength Beer Duty, is charged on beers exceeding 7.5% alcohol by volume at £5.48 per hectolitre.
