Articolo 73

Clausola di emergenza per i prodotti agricoli e per i prodotti agricoli trasformati

1. Fatti salvi l'articolo 92 del presente accordo e l'articolo 5 dell'accordo OMC sull'agricoltura, qualora, considerata la natura particolarmente sensibile dei mercati agricoli, un prodotto originario di una Parte sia importato nell'altra Parte in quantità maggiorate e in condizioni tali da provocare o minacciare di provocare un grave pregiudizio o gravi perturbazioni sui mercati di prodotti simili o direttamente concorrenziali dell'altra Parte, quest'ultima può adottare le misure del caso secondo le modalità e le procedure di cui al presente articolo.

2. Qualora sussistano le condizioni di cui al paragrafo 1, la Parte importatrice può:

a) sospendere l'ulteriore riduzione di tutti i dazi doganali sui prodotti in questione di cui al presente titolo oppure

b) portare il dazio doganale sul prodotto a un livello non superiore:

   i) al dazio doganale della nazione più favorita oppure, se inferiore,

   ii) al dazio doganale di base di cui all'articolo 60, paragrafo 3.

3. Prima di applicare la misura di cui al paragrafo 2, la Parte interessata sottopone la questione al Comitato di associazione affinché proceda ad un

▼B

esame della situazione onde trovare una soluzione reciprocamente accettabile. Se l'altra Parte lo chiede, si tengono consultazioni tra le Parti in sede di Comitato di associazione. Qualora non si trovi una soluzione entro trenta giorni dalla richiesta di consultazioni, possono essere applicate le misure di salvaguardia.

4. Qualora circostanze eccezionali richiedano un intervento immediato, la Parte importatrice può applicare in via transitoria per un periodo non superiore a centoventi giorni le misure di cui al paragrafo 2 senza conformarsi ai requisiti di cui al paragrafo 3. La portata di tali misure non supera quanto necessario per limitare o eliminare il pregiudizio o la perturbazione. La Parte importatrice informa immediatamente l'altra Parte.

5. La portata delle misure adottate a norma del presente articolo è limitata a quanto necessario per ovviare alle difficoltà insorte. La Parte che adotta la misura mantiene il livello preferenziale globale concesso per il settore agricolo. A tal fine, le Parti possono concordare una compensazione per gli effetti pregiudizievoli della misure sui loro scambi commerciali, anche nel periodo di applicazione di eventuali misure transitorie a norma del paragrafo 4. Le Parti avviano quindi consultazioni per concordare una soluzione. Qualora non si raggiunga un accordo entro trenta giorni, la Parte esportatrice lesa può sospendere, previa notifica al Consiglio di associazione, l'applicazione di concessioni sostanzialmente equivalenti ai sensi del presente titolo.

6. Ai fini del presente articolo valgono le seguenti definizioni:

a) «grave pregiudizio»: notevole deterioramento globale della posizione dell'insieme dei produttori di prodotti simili o direttamente concorrenziali che operano in una Parte;

b) «minaccia di grave pregiudizio»: un grave pregiudizio palesemente imminente, basato su elementi concreti e non su semplici affermazioni, congetture o possibilità remote.

Articolo 74

Clausola evolutiva

Nel terzo anno successivo all'entrata in vigore del presente accordo, le Parti valutano la situazione, tenendo conto della struttura dei loro scambi di prodotti agricoli e di prodotti agricoli trasformati, della loro appartenenza a settori particolarmente sensibili e dell'evoluzione della politica agraria di entrambe. Esse esaminano in sede di Comitato di associazione, prodotto per prodotto e in modo ordinato e reciproco, le possibilità di riconoscersi a vicenda ulteriori concessioni onde migliorare la liberalizzazione del commercio di prodotti agricoli e di prodotti agricoli trasformati.

CAPITOLO II

MISURE NON TARIFFARIE

Sezione 1

Disposizioni comuni

Articolo 75

Ambito di applicazione

Le disposizioni del presente capitolo si applicano agli scambi di merci tra le Parti.

Articolo 76

Divieto di applicare restrizioni quantitative

All'entrata in vigore del presente accordo vengono aboliti tutti i divieti e le restrizioni all'importazione e all'esportazione negli scambi tra le Parti, esclusi i dazi doganali e le imposte, siano essi applicati mediante contingenti, licenze d'importazione e di esportazione o altre misure. Non vengono inoltre introdotte altre misure di questo tipo.

Articolo 77

Trattamento nazionale per quanto riguarda l'imposizione e la normativa interne ([1])

1. Ai prodotti importati dal territorio dell'altra Parte non si applicano, né direttamente né indirettamente, imposte o altri oneri interni superiori a quelli applicati, direttamente o indirettamente, ai prodotti nazionali simili. Le Parti evitano inoltre di applicare imposte o altri oneri interni volti a proteggere la produzione nazionale ([2]).

2. I prodotti importati dal territorio dell'altra Parte beneficiano di un trattamento non meno favorevole di quello riservato ai prodotti simili di origine nazionale per quanto riguarda tutte le disposizioni legislative, regolamentari e condizioni inerenti alla vendita interna, all'offerta per la vendita, all'acquisto, al trasporto, alla distribuzione o all'uso. Le disposizioni del presente paragrafo non ostano all'applicazione di oneri differenziati di trasporto interno basati esclusivamente sul funzionamento economico del mezzo di trasporto e non sulla nazionalità del prodotto.

([1]) Tutte le imposte interne, tutti gli altri oneri interni e tutte le disposizioni legislative o regolamentari o tutti i requisiti del tipo di cui al paragrafo 2 che si applicano a un prodotto importato e al prodotto nazionale simile e vengono riscossi o applicati, nel caso del prodotto importato, al momento o nel punto di importazione, vanno comunque considerati imposte interne, altri oneri interni, disposizioni legislative o regolamentari o requisiti del tipo di cui al paragrafo 2, e sono quindi soggetti alle disposizioni del presente articolo.

([2]) Un'imposta conforme ai requisiti della prima frase viene considerata incompatibile con la seconda frase solo in caso di concorrenza tra un prodotto tassato e un prodotto direttamente concorrente o sostituibile che non sia tassato nello stesso modo.

▼B

3. Le Parti evitano di adottare o di mantenere in vigore eventuali regolamenti quantitativi interni riguardanti la miscela, la trasformazione o l'uso di prodotti in quantità o proporzioni specificate che impongano, direttamente o indirettamente, di utilizzare fonti nazionali per la fornitura di tutte le quantità o proporzioni specificate dei prodotti soggetti al regolamento. Le Parti evitano inoltre di applicare regolamenti quantitativi interni tali da proteggere la produzione nazionale ([1]).

4. Le disposizioni del presente articolo non ostano al pagamento di sovvenzioni riservate esclusivamente ai produttori nazionali, compresi i pagamenti ai produttori nazionali derivanti dagli introiti delle imposte o degli oneri interni applicati a norma del presente articolo e le sovvenzioni erogate attraverso l'acquisto di prodotti nazionali da parte dello Stato.

5. Le disposizioni del presente articolo non si applicano alle disposizioni legislative e regolamentari, alle procedure o alle prassi che disciplinano gli appalti pubblici, cui si applicano esclusivamente le disposizioni del titolo IV della presente parte.

Sezione 2

Dazi antidumping e compensativi

Articolo 78

Dazi antidumping e compensativi

Se una Parte accerta l'esistenza di dumping e/o di sovvenzioni compensabili nei suoi scambi con l'altra Parte, può adottare le misure del caso ai sensi dell'accordo OMC sull'applicazione dell'articolo VI del GATT 1994 e all'accordo OMC sulle sovvenzioni e sulle misure compensative.

Sezione 3

Dogane e questioni connesse

Articolo 79

Dogane e questioni commerciali connesse

1. Per garantire la conformità delle disposizioni del presente titolo, che riguardano le dogane e le questioni commerciali, e agevolare gli scambi, fatta salva la necessità di controlli efficaci, le Parti si impegnano a:

a) collaborare e scambiare informazioni sulla legislazione e sulle procedure doganali;

([1]) I regolamenti in linea con la prima frase non vanno considerati incompatibili con la seconda frase quando tutti i prodotti a cui si applicano sono ottenuti sul territorio nazionale in quantitativi sostanziali. Non si può dimostrare la conformità di un regolamento con la seconda frase adducendo che la proporzione o la quantità assegnata a ciascuno dei prodotti oggetto del regolamento costituisce un equo rapporto tra prodotti importati e prodotti nazionali.

▼B

b) applicare le norme e le procedure doganali concordate tra di esse a livello bilaterale o multilaterale;

c) semplificare i requisiti e le formalità per lo svincolo e lo sdoganamento delle merci collaborando, per quanto possibile, anche per definire procedure che consentano di comunicare ad un'unica agenzia i dati relativi alle importazioni e alle esportazioni; assicurare un coordinamento tra le dogane e gli altri organismi di controllo affinché i controlli ufficiali delle importazioni e delle esportazioni possano essere svolti, per quanto possibile, da un'unica agenzia;

d) collaborare in merito a tutte le questioni riguardanti le norme di origine e le procedure doganali connesse;

e) collaborare per tutti gli aspetti della valutazione in dogana, ai sensi dell'articolo VII del GATT 1994, in particolare al fine di raggiungere una posizione comune sull'applicazione dei criteri di valutazione, sull'uso dei parametri indicativi o di riferimento, sugli aspetti operativi e sui metodi di lavoro.

2. Per migliorare i metodi di lavoro garantendo al tempo stesso la trasparenza e l'efficienza delle operazioni doganali, le Parti:

a) assicurano il mantenimento dei massimi standard di integrità attraverso misure imperniate sui principi delle convenzioni internazionali pertinenti e sugli strumenti esistenti in questo campo, conformemente alla legislazione di ciascuna Parte;

b) proseguire, per quanto possibile, la riduzione, la semplificazione e la standardizzazione dei dati contenuti nella documentazione richiesta dalle dogane, utilizzando fra l'altro un documento unico per la dichiarazione doganale, per l'uscita delle merci e per i messaggi contenenti i dati, secondo le norme internazionali e basandosi, per quanto possibile, sulle informazioni commerciali disponibili;

c) collaborare, per quanto possibile, al fine di attuare iniziative di carattere legislativo o operativo connesse alle procedure d'importazione, di esportazione e doganali, nonché per migliorare i servizi offerti agli operatori commerciali;

d) collaborare per fornire la necessaria assistenza tecnica, anche organizzando seminari e tirocini;

e) collaborare per informatizzare le procedure doganali nonché, nei limiti del possibile, per istituire standard comuni;

f) applicare le norme e gli standard internazionali nel settore doganale compresi, per quanto possibile, gli elementi sostanziali della convenzione di Kyoto riveduta sulla semplificazione e sull'armonizzazione delle procedure doganali;

▼B

g) definire, per quanto possibile, posizioni comuni nelle organizzazioni internazionali che si occupano di dogane quali l'OMC, l'Organizzazione mondiale delle dogane (OMD), l'Organizzazione delle Nazioni Unite (ONU) e la Conferenza delle Nazioni Unite per il commercio e lo sviluppo (UNCTAD);

h) instaurare procedure rapide ed efficaci per i ricorsi contro i provvedimenti, le sentenze e le decisioni delle dogane e degli altri organismi applicabili alle importazioni o alle esportazioni di merci, ai sensi dell'articolo X del GATT 1994; e

i) collaborare, nella misura del possibile, per agevolare le operazioni di trasbordo e il transito attraverso i rispettivi territori.

3. Le Parti decidono di basare le rispettive disposizioni commerciali e doganali:

a) su una legislazione tale da evitare inutili complicazioni per gli operatori economici, che non ostacoli la lotta contro le frodi e agevoli ulteriormente l'attività degli operatori con un alto livello di conformità;

b) sulla tutela del commercio legittimo attraverso l'effettiva applicazione dei requisiti legislativi;

c) sull'applicazione di tecniche doganali moderne, tra cui la valutazione dei rischi, le procedure semplificate di vincolo e di svincolo delle merci, i controlli successivi allo svincolo e i metodi di verifica finanziaria delle società, rispettando la natura riservata dei dati commerciali secondo le disposizioni applicabili in ciascuna Parte. Ciascuna Parte adotta le misure necessarie per garantire l'efficacia dei metodi di valutazione dei rischi;

d) su procedure trasparenti, efficaci e, se del caso, semplificate, onde ridurre i costi e migliorare la prevedibilità a vantaggio degli operatori economici;

e) su sistemi imperniati sulle tecnologie dell'informazione per le operazioni di esportazione e di importazione tra operatori economici e amministrazioni doganali, nonché tra queste ultime e gli altri organismi. Tali sistemi possono consentire eventualmente anche il pagamento dei dazi, delle imposte e degli altri diritti mediante trasferimento elettronico;

f) su norme e procedure che consentano di prendere anticipatamente decisioni vincolanti sulla classificazione tariffaria e sulle norme di origine. Le decisioni possono essere modificate o revocate in qualsiasi momento, ma solo previa notifica all'operatore interessato e senza effetto retroattivo, a meno che non siano state prese in base ad informazioni inesatte o incomplete;

g) su disposizioni atte ad agevolare, in linea di massima, l'importazione delle merci mediante procedure e processi doganali semplificati o prearrivo;

▼B

h) su disposizioni in materia di importazioni che non impongano ispezioni preimbarco ai sensi dell'accordo OMC corrispondente; e

i) su norme atte a garantire la proporzionalità delle sanzioni imposte per le violazioni meno gravi delle normative doganali o dei requisiti procedurali e ad evitare che la loro applicazione ritardi indebitamente lo sdoganamento, ai sensi dell'articolo VIII del GATT 1994.

4. Le Parti decidono:

a) di creare meccanismi di consultazione appropriati tra amministrazioni e operatori economici vista la necessità di consultare tempestivamente questi ultimi in merito alle questioni sostanziali riguardanti i disegni di legge e le procedure generali nel settore delle dogane;

b) di pubblicare, possibilmente per via elettronica, e di divulgare le nuove leggi e le procedure generali connesse alle dogane, comprese le relative modifiche, entro la loro entrata in vigore. Saranno inoltre disponibili le informazioni generali che possono interessare gli operatori economici, quali le ore di apertura degli uffici doganali, anche nei porti e presso i valichi doganali, e i punti di contatto per chiedere informazioni;

c) di incentivare la cooperazione tra operatori e amministrazioni doganali attraverso memorandum d'intesa obiettivi e accessibili a tutti, basati su quelli promulgati dall'OMD; e

d) di assicurarsi che i rispettivi requisiti e le rispettive procedure doganali e connessi continuino a soddisfare le esigenze degli operatori commerciali e siano conformi alle pratiche migliori.

5. Fatti salvi i paragrafi 1-4, le amministrazioni di entrambe le Parti si prestano reciprocamente assistenza amministrativa in materia doganale ai sensi del protocollo del 13 giugno 2001 sull'assistenza amministrativa reciproca nel settore doganale dell'accordo quadro di cooperazione.

Articolo 80

Valutazione in dogana

Le norme per la valutazione in dogana applicate negli scambi tra le Parti sono disciplinate dall'accordo OMC sull'applicazione dell'articolo VII del GATT 1994, senza le riserve e le opzioni di cui all'articolo 20 e ai paragrafi 2, 3 e 4 dell'allegato III di detto accordo.

▼B

Articolo 81

Comitato speciale per la cooperazione doganale e le norme di origine

1. Le Parti istituiscono un comitato speciale per la cooperazione doganale e le norme di origine, composto da loro rappresentanti. La data e l'ordine del giorno delle riunioni del comitato vengono concordati in precedenza tra le Parti, che esercitano a turno la presidenza. Il comitato riferisce al Comitato di associazione.

2. Il comitato è incaricato di:

a) sorvegliare l'applicazione e la gestione degli articoli 79 e 80, dell'allegato III e di tutte le altre questioni doganali connesse all'accesso al mercato;

b) costituire una sede di consultazione e di discussione su tutte le questioni inerenti alle dogane, tra cui le norme di origine e le procedure doganali connesse, le procedure doganali generali, la valutazione in dogana, i regimi tariffari, la nomenclatura doganale, la cooperazione doganale e l'assistenza amministrativa reciproca nel settore doganale;

c) intensificare la cooperazione per la definizione e l'applicazione delle norme di origine e delle procedure doganali connesse, delle procedure doganali generali e dell'assistenza amministrativa reciproca nel settore doganale;

d) esaminare tutte le altre questioni concordate tra le Parti.

3. Le Parti possono decidere di indire riunioni ad hoc per svolgere i compiti di cui al presente articolo.

Articolo 82

Applicazione del trattamento preferenziale

1. Riconoscendo che la cooperazione amministrativa è indispensabile per l'applicazione e il controllo delle preferenze concesse a norma del presente titolo, le Parti ribadiscono l'impegno di combattere le irregolarità e le frodi connesse all'origine, anche per quanto riguarda la classificazione doganale e la valutazione in dogana.

2. A tale riguardo, una Parte può sospendere temporaneamente il trattamento preferenziale concesso a norma del presente titolo per il prodotto o i prodotti per i quali accerti, a norma del presente articolo, una mancanza sistematica di collaborazione amministrativa o l'esistenza di frodi ascrivibili all'altra Parte.

3. Ai fini del presente articolo, per «mancanza sistematica di collaborazione amministrativa» s'intende:

▼B

a) l'assenza di cooperazione amministrativa, ad esempio la mancata comunicazione dei nomi e degli indirizzi delle autorità doganali o statali preposte al rilascio e alla verifica dei certificati di origine, la mancata trasmissione dei facsimili dei timbri utilizzati per autenticare i certificati o il mancato aggiornamento di queste informazioni;

b) carenze sistematiche nella verifica del carattere originario dei prodotti e nell'adempimento degli altri requisiti di cui all'allegato III, nonché nell'identificazione o nella prevenzione della violazione delle norme di origine;

c) il rifiuto sistematico di procedere, su richiesta dell'altra Parte, alla verifica a posteriori della prova dell'origine e di comunicarne tempestivamente i risultati o il fatto di ritardare indebitamente l'operazione;

d) la mancanza sistematica di cooperazione amministrativa nella verifica di comportamenti che costituiscono presumibilmente una frode connessa all'origine. A tal fine, una Parte può presumere che esista una frode anche quando le importazioni di uno o più prodotti nell'ambito del presente accordo superino in misura considerevole i livelli di produzione e la capacità di esportazione normali dell'altra Parte.

4. Prima di applicare la sospensione temporanea di cui al presente articolo, la Parte che ha riscontrato una mancanza sistematica di collaborazione amministrativa o una presunta frode fornisce al Comitato di associazione tutte le informazioni necessarie per un esame approfondito della situazione onde trovare una soluzione accettabile per le Parti, pubblicando nel contempo nella Gazzetta ufficiale un avviso agli importatori per indicare il prodotto o i prodotti per i quali è stata accertata la mancanza sistematica di collaborazione amministrativa o la presunta frode. Le conseguenze giuridiche di questa pubblicazione dipendono dalla legislazione nazionale di ciascuna Parte.

5. Le Parti avviano consultazioni in sede di Comitato di associazione entro dieci giorni dalla notifica delle informazioni di cui al paragrafo 4. Se non si trova una soluzione per evitare l'applicazione della sospensione temporanea del trattamento preferenziale entro trenta giorni dall'avvio delle consultazioni, la Parte interessata può sospendere temporaneamente il trattamento preferenziale per il prodotto o i prodotti in questione.

La sospensione temporanea è limitata al periodo necessario per tutelare gli interessi finanziari della Parte in questione.

6. Le sospensioni temporanee a norma del presente articolo vengono notificate al Comitato di associazione subito dopo l'adozione. La loro durata è limitata a sei mesi rinnovabili. Le Parti si consultano periodicamente in sede di Comitato di associazione in merito a dette sospensioni, in particolare al fine di abolirle non appena la situazione lo permetta.

Sezione 4

Norme, regolamenti tecnici e procedure di valutazione della conformità

Articolo 83

Obiettivo

La presente sezione intende facilitare e incrementare gli scambi di merci eliminando e prevenendo gli ostacoli inutili nel rispetto degli obiettivi legittimi delle Parti e del principio di non discriminazione, ai sensi dell'accordo OMC sugli ostacoli tecnici agli scambi («accordo TBT»).

Articolo 84

Ambito di applicazione e copertura

La presente sezione si applica alle norme, ai regolamenti tecnici e alle procedure di valutazione della conformità definiti nell'accordo TBT, ma non alle misure contemplate dalla sezione 5 del presente capitolo. Le specifiche tecniche definite dagli enti governativi per le commesse pubbliche sono contemplate nel titolo IV della presente parte.

Articolo 85

Definizioni

Ai fini della presente sezione, si applicano le definizioni di cui all'allegato I dell'accordo TBT, nonché la decisione del comitato OMC sugli ostacoli tecnici agli scambi sui «Principi per l'elaborazione delle norme, linee guida e raccomandazioni internazionali» relativamente agli articoli 2 e 5 e all'allegato 3 di detto accordo.

Articolo 86

Diritti e obblighi di base

Le Parti confermano i diritti e gli obblighi che conferisce loro l'accordo TBT e l'impegno di applicarlo pienamente. Articolo 87

Azioni specifiche da svolgere nell'ambito del presente accordo

Per conseguire l'obiettivo della presente sezione:

▼B

1) Le Parti intensificano la cooperazione bilaterale in materia di norme, regolamenti tecnici e valutazione della conformità onde agevolare l'accesso ai rispettivi mercati migliorando la conoscenza reciproca, la comprensione e la compatibilità dei rispettivi sistemi.

2) La cooperazione bilaterale tra le Parti mira ad individuare i meccanismi o le combinazioni di meccanismi più adatti per questioni o settori specifici, tra cui determinati aspetti della cooperazione normativa come la convergenza e/o l'equivalenza dei regolamenti tecnici e delle norme, l'allineamento con le norme internazionali, il ricorso alla dichiarazione di conformità del fornitore e l'uso dell'accreditamento per abilitare gli organismi di valutazione della conformità, nonché gli accordi di reciproco riconoscimento.

3) In funzione dei progressi della cooperazione bilaterale, le Parti decidono quali intese specifiche concludere onde applicare i meccanismi individuati.

4) A tal fine, le Parti si adoperano per:

   a) uniformare le loro posizioni in merito alle buone pratiche normative, tra cui:

      i) la trasparenza nella preparazione, nell'adozione e nell'applicazione dei regolamenti tecnici, delle norme e delle procedure di valutazione della conformità;

      ii) la necessità e la proporzionalità delle misure normative e delle procedure connesse di valutazione della conformità, compreso l'uso della dichiarazione di conformità dei fornitori;

      iii) l'uso delle norme internazionali come base dei regolamenti tecnici, tranne quando dette norme siano inefficaci o inadatte per conseguire gli obiettivi legittimi fissati;

      iv) l'applicazione dei regolamenti tecnici e le attività di sorveglianza del mercato;

      v) le infrastrutture tecniche necessarie per far applicare i regolamenti tecnici (metrologia, standardizzazione, prove, certificazione e accreditamento); e

      vi) i meccanismi e i metodi di revisione dei regolamenti tecnici e delle procedure di valutazione della conformità;

   b) intensificare la cooperazione normativa, anche attraverso scambi di informazioni, di esperienze e di dati, e la cooperazione scientifica e tecnica, per migliorare la qualità e il livello dei rispettivi regolamenti tecnici e utilizzare al meglio le risorse normative;

Articolo 88

Comitato per le norme, i regolamenti tecnici e la valutazione della conformità

1. Le Parti istituiscono un comitato speciale per i regolamenti tecnici, le norme e la valutazione della conformità onde conseguire gli obiettivi di cui alla presente sezione. Il comitato è composto da rappresentanti delle Parti e viene copresieduto da un rappresentante di ciascuna Parte. Il comitato si riunisce almeno una volta all'anno, salvo diverso accordo tra le Parti, e riferisce al Comitato di associazione.

2. Il comitato si può occupare di tutte le questioni connesse all'effettiva applicazione della presente sezione. Esso provvede in particolare a:

a) sorvegliare l'applicazione e la gestione della presente sezione. Il comitato elabora a tal fine un programma di lavoro volto a conseguire gli obiettivi della sezione, in particolare quelli di cui all'articolo 87;

b) costituire una sede di consultazione e di discussione su tutte le questioni inerenti alla presente sezione, in particolare per quanto concerne i sistemi applicati dalle Parti in materia di regolamenti tecnici, norme e procedure di valutazione della conformità, nonché sugli sviluppi nelle organizzazioni internazionali connesse;

c) costituire una sede di consultazione e di soluzione tempestiva delle questioni che costituiscono o possono costituire inutili ostacoli agli scambi tra le Parti, in linea con l'ambito di applicazione e con il contenuto della presente sezione;

Sezione 5

Misure sanitarie e fitosanitarie

Articolo 89

Misure sanitarie e fitosanitarie

1. L'obiettivo della presente sezione è facilitare gli scambi tra le Parti nel settore disciplinato dalla legislazione sanitaria e fitosanitaria e tutelare al tempo stesso la salute dei cittadini, degli animali e delle piante mettendo maggiormente in pratica i principi dell'accordo OMC sull'applicazione delle misure sanitarie e fitosanitarie («accordo SPS OMC»). Si esaminano inoltre le norme applicabili al benessere degli animali.

2. Gli obiettivi della presente sezione vengono perseguiti attraverso «l'accordo sulle misure sanitarie e fitosanitarie applicabili al commercio di animali e prodotti animali, piante, prodotti a base di piante e altre merci e al benessere degli animali», che figura nell'allegato IV.

3. In deroga all'articolo 193, quando si occupa delle misure sanitarie o fitosanitarie il Comitato di associazione è composto da rappresentanti della Comunità e del Cile competenti in materia. In tal caso, si parla di «comitato misto di gestione per le questioni sanitarie e fitosanitarie», le cui funzioni vengono specificate all'articolo 16 dell'allegato IV.

4. Ai fini dell'articolo 184, salvo diversa decisione delle Parti, per «consultazioni a norma dell'articolo 16 dell'allegato IV» si intendono quelle di cui all'articolo 183.

CAPITOLO III

DEROGHE

Articolo 91

Clausola relativa alle deroghe generali

Fermo restando l'obbligo di non applicare i provvedimenti in maniera da causare discriminazioni arbitrarie o ingiustificate tra le Parti quando vigono condizioni analoghe, ovvero restrizioni dissimulate agli scambi di servizi, nessuna disposizione del presente titolo può essere interpretata come un divieto per le Parti di adottare o applicare le misure:

a) necessarie per tutelare la morale pubblica;

b) necessarie per tutelare la vita o la salute delle persone e del mondo animale o vegetale;

c) necessarie per garantire l'osservanza di leggi o regolamenti che non siano incompatibili con le disposizioni del presente accordo, compresi quelli riguardanti l'applicazione della normativa doganale, la tutela dei diritti di proprietà intellettuale e la prevenzione delle pratiche ingannevoli;

d) connesse all'importazione o all'esportazione dell'oro o dell'argento;

e) connesse alla tutela del patrimonio artistico, storico o archeologico nazionale;

f) connesse alla salvaguardia delle risorse naturali esauribili, quando dette misure siano associate a restrizioni alla produzione o al consumo nazionali; o

g) connesse ai prodotti fabbricati nelle prigioni.

Articolo 92

Clausola di salvaguardia

1. Salvo diversamente disposto dal presente articolo, si applicano tra le Parti l'articolo XIX del GATT 1994 e l'accordo OMC sulle misure di salvaguardia. I paragrafi 2-9 del presente articolo si applicano soltanto quanto una Parte abbia un interesse sostanziale come esportatrice del prodotto in questione ai sensi del paragrafo 10.

2. Ciascuna Parte trasmette immediatamente, o comunque entro un termine massimo di sette giorni, al Comitato di associazione una notifica scritta di tutte le informazioni pertinenti sull'avvio di un'inchiesta di salvaguardia e sulle risultanze finali dell'inchiesta.

3. Fra le informazioni di cui al paragrafo 2 figurano in particolare una spiegazione della procedura interna seguita per lo svolgimento dell'inchiesta e l'indicazione del calendario delle audizioni e di tutte le altre possibilità di cui le parti interessate disporranno per esporre le loro

▼B

osservazioni in merito. Ciascuna Parte comunica inoltre anticipatamente, per iscritto, al Comitato di associazione tutte le informazioni pertinenti sulla decisione di applicare misure di salvaguardia provvisorie. Dette informazioni devono pervenire al Comitato almeno sette giorni prima dell'applicazione delle misure.

4. Una volta notificate le risultanze finali dell'inchiesta, e prima di applicare le misure di salvaguardia a norma dell'articolo XIX del GATT 1994 e dell'accordo OMC sulle misure di salvaguardia, la Parte che intende applicare tali misure chiede al Comitato di associazione di procedere ad un esame approfondito della situazione onde trovare una soluzione accettabile per entrambe le Parti. Se la Parte interessata lo chiede, si avviano prima consultazioni in sede di Comitato di associazione onde trovare la soluzione suddetta.

5. Fatto salvo il paragrafo 4, nulla impedisce ad una Parte di applicare misure a norma dell'articolo XIX del GATT 1994 e dell'accordo OMC sulle misure di salvaguardia.

6. Nello scegliere le misure di salvaguardia di cui al presente articolo, le Parti privilegiano quelle che perturbano meno il conseguimento degli obiettivi del presente accordo. Tali misure sono limitate a quanto necessario per ovviare al grave pregiudizio e devono mantenere il livello/margine preferenziale concesso a norma del presente titolo.

7. Le Parti confermano i loro diritti e obblighi di cui all'articolo 8, paragrafi 1 e 2 dell'accordo OMC sulle misure di salvaguardia.

8. Il diritto di sospensione di cui all'articolo 8, paragrafo 2 dell'accordo OMC sulle misure di salvaguardia non viene esercitato tra le Parti per i primi diciotto mesi di applicazione della misura di salvaguardia, purché quest'ultima sia stata adottata in conseguenza di un incremento delle importazioni in termini assoluti e sia conforme alle disposizioni dell'accordo OMC sulle misure di salvaguardia.

9. Al momento dell'applicazione, le misure di salvaguardia vengono notificate immediatamente al Comitato di associazione e sono oggetto di consultazioni annuali in questa sede, in particolare ai fini della loro liberalizzazione o abolizione.

10. Ai fini del presente articolo, si considera che una Parte abbia un interesse sostanziale quando figura tra i primi cinque fornitori del prodotto importato negli ultimi tre anni, in termini di volume o di valore assoluto.

11. Ciascuna Parte informa l'altra dell'eventuale avvio di una procedura di sorveglianza su importazioni di prodotti che possano dar luogo all'applicazione di una misura di salvaguardia ai sensi del presente articolo.

▼B

Articolo 93

Clausola di penuria

1. Qualora l'osservanza delle disposizioni del presente titolo provochi:

a) una penuria grave, o una minaccia di penuria grave, di prodotti alimentari o di altri prodotti essenziali per la Parte esportatrice; oppure

b) una penuria di ingenti quantitativi di materiali nazionali fondamentali per un'industria di trasformazione nazionale in periodi in cui il prezzo interno di detti materiali è tenuto al di sotto del prezzo mondiale nell'ambito di un piano statale di stabilizzazione;

e qualora le circostanze di cui sopra diano luogo o possano dar luogo a gravi difficoltà per la Parte esportatrice, quest'ultima può adottare le misure del caso secondo le condizioni e le procedure di cui al presente articolo.

2. Nello scegliere le misure, si privilegiano quelle che perturbano meno il funzionamento del regime stabilito nel presente accordo. Tali misure non devono essere applicate in modo da costituire un mezzo di discriminazione arbitraria o ingiustificabile, quando esistono condizioni identiche, né una restrizione dissimulata agli scambi. Esse vengono inoltre abolite quando non sussistono più le condizioni che ne giustificano il mantenimento. Le misure adottate a norma del paragrafo 1, lettera b), inoltre, non devono né aumentare le esportazioni o la protezione dell'industria di trasformazione nazionale interessata né discostarsi dalle disposizioni del presente accordo relative alla non discriminazione.

3. Prima di adottare le misure di cui al paragrafo 1 o, nei casi in cui si applica il paragrafo 4, il più rapidamente possibile, la Parte che intende applicare dette misure fornisce al Comitato di associazione tutte le informazioni utili onde cercare una soluzione accettabile per entrambe le Parti. Le Parti possono concordare, in sede di Comitato di associazione, tutti i mezzi atti a porre fine alle difficoltà. Qualora non si giunga a un accordo entro trenta giorni dalla data in cui la questione è stata sottoposta al Comitato di associazione, la Parte esportatrice può applicare le misure previste dal presente articolo alle esportazioni del prodotto in oggetto.

4. Qualora circostanze eccezionali e critiche, che richiedono un intervento immediato, rendano impossibile un'informazione o, a seconda dei casi, un esame preventivo, la Parte che intende adottare le misure può applicare subito le misure precauzionali necessarie per far fronte alla situazione, informandone immediatamente l'altra Parte.

5. Tutte le misure adottate a norma del presente articolo sono immediatamente notificate al Comitato di associazione e sono oggetto di consultazioni periodiche in seno a detto organismo, in particolare al fine di stabilire un calendario per la loro abolizione non appena lo consentano le circostanze.

Le Parti riesaminano le discipline sulle sovvenzioni connesse agli scambi di servizi nell'ambito della revisione del presente capitolo a norma dell'articolo 100, onde inserire le discipline eventualmente concordate a norma dell'articolo XV del GATS.

5. La presente sezione si applica ai servizi di trasporto marittimo internazionale e di telecomunicazione soggetti alle disposizioni delle sezioni 2 e 3.

Articolo 97

Accesso al mercato

1. Per quanto concerne l'accesso al mercato attraverso le modalità di fornitura definite all'articolo 95, ciascuna Parte accorda ai servizi e ai prestatori di servizi dell'altra Parte un trattamento non meno favorevole di quello previsto a norma dei termini, delle limitazioni e delle condizioni concordate e specificate nel suo elenco di cui all'articolo 99.

2. Nei settori oggetto di impegni in materia di accesso al mercato, le misure che una Parte deve astenersi dal mantenere in vigore o dall'adottare, a livello regionale o per l'intero territorio nazionale, salvo quanto diversamente specificato nel suo elenco, sono le seguenti:

f) limitazioni alla partecipazione di capitale estero in termini di limite percentuale massimo alle partecipazioni straniere o di valore totale di investimenti stranieri singoli o complessivi.

Articolo 98

Trattamento nazionale

1. Nei settori inseriti nel suo elenco, e fermi restando eventuali condizioni e requisiti indicati nello stesso, ciascuna Parte concede ai servizi e ai prestatori di servizi dell'altra Parte un trattamento non meno favorevole di quello accordato ad analoghi servizi e fornitori di servizi nazionali ([2]), per quanto riguarda tutte le misure concernenti la fornitura di servizi.

2. Una Parte può adempiere all'obbligo di cui al paragrafo 1 accordando ai servizi e ai fornitori di servizi dell'altra Parte un trattamento formalmente identico o formalmente diverso rispetto a quello accordato ad analoghi servizi e prestatori di servizi nazionali.

3. Un trattamento formalmente identico o formalmente diverso è considerato meno favorevole qualora esso modifichi le condizioni della concorrenza a favore di servizi o fornitori di servizi di una Parte rispetto ad analoghi servizi o prestatori di servizi dell'altra Parte.

([1]) Il paragrafo 2, lettera c) non riguarda le misure adottate da una Parte che limitano i fattori produttivi necessari per la prestazione di servizi.

([2]) Gli impegni specifici assunti a norma del presente articolo non vanno interpretati come l'obbligo per le Parti di compensare eventuali vantaggi di tipo concorrenziale derivanti dal fatto che i servizi o i prestatori pertinenti sono stranieri.

▼B

Articolo 99

Elenchi di impegni specifici

1. Ciascuna Parte indica nell'elenco dell'allegato VII gli impegni specifici assunti ai sensi degli articoli 97 e 98. Per quanto concerne i settori nei quali vengono assunti gli impegni, ciascun elenco deve specificare:

a) termini, limitazioni e condizioni dell'accesso al mercato;

b) condizioni e requisiti per il trattamento nazionale;

c) obblighi relativi a impegni aggiuntivi di cui al paragrafo 3;

d) se del caso, termini per l'attuazione degli impegni e data di entrata in vigore di tali impegni.

2. Le eventuali misure incompatibili con gli articoli 97 e 98 sono inserite nell'elenco relativo all'articolo 97. In tal caso, la voce inserita sarà considerata una condizione o un requisito anche per l'articolo 98.

3. Se una Parte assume impegni specifici in merito a misure riguardanti gli scambi di servizi non soggette ad elenco a norma degli articoli 97 e 98, tali impegni vengono inseriti nel suo elenco come impegni aggiuntivi.

Articolo 100

Riesame

1. Le Parti riesaminano il presente capitolo dopo tre anni dall'entrata in vigore del presente accordo, onde approfondire ulteriormente la liberalizzazione e ridurre o eliminare le restrizioni esistenti, in modo da garantire reciproci vantaggi e un equilibrio globale tra diritti e obblighi.

2. Il Comitato di associazione analizza il funzionamento del presente capitolo ogni tre anni dopo il riesame eseguito a norma del paragrafo 1 e presenta opportune proposte al Consiglio di associazione.

Articolo 101

Nel riesame può rientrare anche la revisione della definizione delle persone fisiche di cui all'articolo 96, lettera g).

▼B

Articolo 102

Regolamentazione interna

1. Nei settori in cui una Parte ha assunto impegni che figurano nel suo elenco, e nell'intento di garantire che le misure relative a requisiti e procedure riguardanti le licenze e la certificazione dei prestatori di servizi dell'altra Parte non costituiscano inutili ostacoli agli scambi, la Parte si adopera affinché tali misure:

a) siano basate su criteri oggettivi e trasparenti, quali, tra l'altro, la competenza e la capacità di fornire il servizio;

b) non siano più restrittive di quanto necessario per garantire il conseguimento di un obiettivo politico legittimo;

c) non costituiscano una restrizione dissimulata alla prestazione di un servizio.

2. Le discipline di cui al paragrafo 1 possono essere rivedute nell'ambito della procedura di cui all'articolo 100 per tener conto delle discipline concordate a norma dell'articolo VI del GATS, da inserire nel presente accordo.

3. Se una Parte riconosce, unilateralmente o previo accordo, la formazione, l'esperienza, le licenze o le certificazioni ottenute nel territorio di un paese terzo, concede all'altra Parte la possibilità di dimostrare che la formazione, l'esperienza, le licenze o i certificati ottenuti nel suo territorio devono anch'essi essere riconosciuti o di concludere un accordo o un'intesa di effetto analogo.

4. Le Parti si consultano periodicamente per determinare se sia possibile abolire i requisiti di cittadinanza o di residenza permanente che ancora si applicano ai rispettivi prestatori di servizi per il rilascio di licenze o di certificati.

Articolo 103

Reciproco riconoscimento

1. Ciascuna Parte si accerta che, entro tempi ragionevoli a decorrere dalla presentazione di una domanda di licenza o di certificato da parte di un prestatore di servizi dell'altra Parte, le sue autorità competenti:

a) prendano una decisione in merito alla domanda, se questa è completa, e ne informino il richiedente;

b) se la domanda non è completa, ne informino senza indugio il richiedente invitandolo a fornire le informazioni supplementari imposte dal diritto nazionale della Parte.

▼B

2. Le Parti incoraggiano gli organismi competenti nei rispettivi territori a formulare raccomandazioni sul reciproco riconoscimento per consentire ai prestatori di servizi di soddisfare, interamente o in parte, i criteri applicati da ciascuna Parte per l'autorizzazione, la concessione di licenze, l'accreditamento, l'attività e la certificazione dei prestatori di servizi, in particolare di servizi professionali.

3. Il Comitato di associazione decide entro un periodo ragionevole, tenendo conto del grado di corrispondenza tra le rispettive normative, se una raccomandazione formulata a norma del paragrafo 2 sia compatibile con il presente capitolo. In caso affermativo, la raccomandazione viene applicata tramite un accordo sul reciproco riconoscimento dei requisiti, sulle qualifiche, sulle licenze e su altri regolamenti che sarà negoziato dalle autorità competenti.

4. Gli accordi di questo tipo devono essere conformi alle disposizioni pertinenti dell'accordo OMC, in particolare con l'articolo VII del GATS.

5. Con l'accordo di entrambe le Parti, ciascuna di esse incoraggia i suoi organismi competenti ad elaborare procedure per il rilascio temporaneo di licenze ai prestatori di servizi professionali dell'altra Parte.

6. Il Comitato di associazione riesamina periodicamente, almeno una volta ogni tre anni, l'applicazione del presente articolo.

Articolo 104

Commercio elettronico [1]

Riconoscendo che il commercio elettronico migliora le possibilità commerciali in un gran numero di settori, le Parti decidono di promuoverlo tra di esse, collaborando in particolare per quanto riguarda l'accesso al mercato e le questioni normative sollevate dal commercio elettronico.

Articolo 105

Trasparenza

Ciascuna Parte fornisce tempestivamente all'altra informazioni specifiche su tutte le sue misure di applicazione generale o sugli accordi internazionali connessi al presente capitolo. Il punto di contatto di cui all'articolo 190 fornisce, su richiesta, ai prestatori di servizi dell'altra Parte informazioni specifiche su tutte le questioni suddette. I punti di contatto non devono essere depositari di leggi e regolamenti.

[1] L'inclusione di questa disposizione nel presente capitolo lascia impregiudicata la posizione cilena sull'opportunità di assimilare o meno il commercio elettronico ad una prestazione di servizi.

▼B

Sezione 2

Trasporto marittimo internazionale

Articolo 106

Ambito di applicazione

1. Fatto salvo l'articolo 95, paragrafo 5, le disposizioni del presente capitolo si applicano anche alle società di navigazione stabilite al di fuori della Comunità o del Cile e controllate da cittadini di uno Stato membro o del Cile, a condizione che le loro navi siano registrate in detto Stato membro o in Cile ai sensi delle rispettive legislazioni e battano bandiera di uno Stato membro o del Cile.

2. Il presente articolo si applica al trasporto marittimo internazionale, inclusi i servizi «porta a porta» e le operazioni di trasporto intermodale comprendenti una tratta marittima.

Articolo 107

Definizioni

Ai fini della presente sezione si applicano le seguenti definizioni:

a) «operazioni di trasporto intermodale»: il diritto di organizzare servizi di trasporto internazionale «porta a porta» di merci stipulando direttamente contratti a tal fine con gli operatori di altri modi di trasporto;

b) «prestatori di servizi marittimi internazionali»: i prestatori di servizi connessi alle merci internazionali per i servizi marittimi, la manipolazione delle merci, i servizi di deposito, di sdoganamento, di stazionamento container e di magazzinaggio, di agenzia e di spedizioniere.

Articolo 108

Accesso al mercato e trattamento nazionale

1. Considerato il grado di liberalizzazione esistente tra le Parti nel trasporto marittimo internazionale:

a) le Parti continuano ad applicare pienamente il principio dell'accesso illimitato al mercato e al traffico marittimi internazionali su basi commerciali e non discriminatorie;

b) ciascuna Parte deve continuare a concedere alle navi gestite da prestatori di servizi dell'altra Parte un trattamento non meno favorevole di quello concesso alle proprie navi per quanto riguarda, tra l'altro, l'accesso ai porti, l'uso delle infrastrutture e dei servizi marittimi ausiliari dei porti e le relative spese e imposte, le strutture doganali e l'assegnazione di attracchi e strutture per il carico e lo scarico.

▼B

2. Nell'applicare i principi di cui al paragrafo 1, le Parti:

a) non introducono clausole di ripartizione del carico nei futuri accordi bilaterali, tranne in circostanze eccezionali in cui ciò sia necessario per offrire alle agenzie marittime di linea della Parte interessata l'effettiva possibilità di operare regolarmente nell'ambito degli scambi con il paese terzo in questione;

b) vietano le intese di ripartizione del carico nei futuri accordi bilaterali relativi agli scambi di merci secche e liquide alla rinfusa;

c) aboliscono, dall'entrata in vigore del presente accordo, tutte le misure unilaterali, nonché gli ostacoli amministrativi, tecnici o di altra natura che potrebbero costituire una restrizione occulta o avere effetti discriminatori rispetto alla libera fornitura di servizi nel trasporto marittimo internazionale.

3. Ciascuna Parte autorizza, alle condizioni indicate nel suo elenco, i prestatori di servizi marittimi internazionali dell'altra parte ad essere commercialmente presenti nel suo territorio applicando, per lo stabilimento e le varie attività, condizioni non meno favorevoli di quelle concesse ai suoi prestatori di servizi o, se migliori, ai prestatori di servizi di un qualsiasi paese terzo.

Sezione 3

Servizi di telecomunicazioni

Articolo 109

Definizioni

Ai fini della presente sezione si applicano le seguenti definizioni:

a) «servizi di telecomunicazioni»: trasmissione di segnali elettromagnetici (suoni, dati, immagini e loro combinazioni), escluse le trasmissioni radiotelevisive ([1]). Gli impegni assunti in questo settore, quindi, non comprendono l'attività economica di trasmissione del contenuto il cui trasporto richiede servizi di telecomunicazioni, oggetto di impegni specifici assunti dalle Parte in altri settori pertinenti;

b) «ente normativo»: uno o più organismi che svolgono i compiti normativi assegnati in rapporto alle questioni menzionate nella presente sezione;

c) «strutture di telecomunicazione di base»: la rete di trasporto e i servizi pubblici nel settore delle telecomunicazioni che:

   i) sono forniti esclusivamente o prevalentemente da un unico fornitore o da un numero limitato di fornitori; e

([1]) Per trasmissioni radiotelevisive si intende la catena ininterrotta di trasmissione necessaria per la diffusione al grande pubblico dei segnali dei programmi radiotelevisivi, ma non i link di contribuzione tra gli operatori.

▼B

ii) non possono verosimilmente essere sostituiti, sul piano economico o tecnico, ai fini della fornitura del servizio.

Articolo 110

Ente normativo

1. Gli enti normativi per i servizi di telecomunicazione sono separati da tutti i prestatori di servizi di telecomunicazione di base, a cui non devono rispondere del loro operato.

2. Le decisioni e la procedure degli enti normativi sono imparziali nei confronti di tutti i partecipanti al mercato.

3. I fornitori hanno il diritto di presentare ricorso avverso la decisione di un ente normativo che li riguardi.

Articolo 111

Prestazione di servizi

1. Nei casi in cui è richiesta una licenza, sono resi pubblici i termini e le condizioni applicabili e il lasso di tempo normalmente richiesto per pervenire a una decisione in merito alla richiesta in questione.

2. Nei casi in cui è necessaria una licenza, sono resi noti al richiedente, se lo desidera, i motivi del mancato rilascio della licenza.

Articolo 112

Fornitori principali

1. Un fornitore principale è un fornitore in grado di influire materialmente sulle modalità di partecipazione (in termini di prezzi e di offerta) in un determinato mercato di servizi di telecomunicazione di base per effetto:

a) di un controllo sulle installazioni fondamentali o

b) dell'uso della propria posizione sul mercato.

2. Si adottano misure appropriate al fine di impedire che i fornitori, i quali costituiscono (da soli o congiuntamente) un fornitore principale, avviino o mantengano in essere pratiche anticoncorrenziali.

3. Le pratiche anticoncorrenziali di cui sopra consistono in particolare:

a) nel concedere sovvenzioni incrociate anticoncorrenziali;

b) nell'utilizzare informazioni ottenute dai concorrenti al fine di produrre risultati anticoncorrenziali; e

▼B

c) nel non mettere a disposizione degli altri fornitori di servizi, al momento opportuno, informazioni tecniche relative alle strutture essenziali e informazioni pertinenti sul piano commerciale necessarie a questi ultimi ai fini della fornitura dei servizi.

Articolo 113

Interconnessione

1. La presente sezione concerne il collegamento con i fornitori che forniscono reti pubbliche di telecomunicazioni o servizi di telecomunicazione a disposizione del pubblico per consentire agli utilizzatori che dipendono da un fornitore di comunicare con gli utilizzatori che dipendono da un altro fornitore e di accedere ai servizi forniti da un altro fornitore.

2. L'interconnessione con un fornitore principale è garantita in corrispondenza di ogni punto tecnicamente praticabile della rete. Tale interconnessione è fornita:

a) secondo modalità, condizioni (in particolare, norme e specificazioni tecniche) e tariffe non discriminatorie ed è caratterizzata da una qualità non meno favorevole di quella che il fornitore principale medesimo eroga ai servizi analoghi, di sua proprietà o di fornitori di servizi da esso non controllati, o alle proprie società controllate o ad altre società controllate;

b) tempestivamente, secondo modalità, condizioni (comprese norme e specificazioni tecniche) e tariffe orientate ai costi, trasparenti, ragionevoli, che tengano conto della fattibilità economica e sufficientemente scorporate, così da consentire al fornitore di non pagare per componenti o strutture di rete di cui esso non ha bisogno per la fornitura del servizio in questione; e

c) su richiesta, in corrispondenza di punti supplementari rispetto ai punti di terminazione di rete offerti alla maggioranza degli utilizzatori, a tariffe che riflettano il costo di allestimento delle strutture aggiuntive necessarie.

4. Le procedure applicabili ai fini dell'interconnessione con un fornitore principale debbono essere rese pubbliche.

5. Per evitare discriminazioni, i fornitori principali mettono a disposizione dei fornitori di servizi delle Parti i propri accordi d'interconnessione e/o pubblicano anticipatamente le offerte d'interconnessione di riferimento, a meno che non siano accessibili al pubblico.

Articolo 114

Risorse limitate

i) «concessioni per lavori pubblici»: un contratto che si distingue dai contratti per gli appalti di lavori pubblici solo per il fatto che la retribuzione per i lavori da eseguire consiste unicamente nel diritto di sfruttare la costruzione o in questo diritto più un pagamento;

j) «compensazioni»: le condizioni imposte o prese in considerazione da un ente prima o durante la procedura d'appalto, tali da favorire lo sviluppo locale o da migliorare la situazione della bilancia dei pagamenti della sua Parte mediante requisiti riguardanti il contenuto locale, il rilascio delle licenze per la tecnologia, gli investimenti, il commercio estero di compensazione o analoghi requisiti;

k) «per iscritto»: le informazioni espresse con parole, numeri o altri simboli, compresi i mezzi elettronici, che possono essere lette, riprodotte e archiviate;

▼B

l) «specifica tecnica»: una specifica che definisce le caratteristiche dei beni o dei servizi da fornire, come la qualità, le prestazioni, la sicurezza e le dimensioni, i simboli, la terminologia, l'imballaggio, la marcatura e l'etichettatura, o i processi e i metodi di produzione e i requisiti riguardanti le procedure di valutazione della conformità imposti dagli enti;

m) «privatizzazione»: processo mediante il quale il controllo statale di un'entità viene effettivamente abolito e trasferito al settore privato;

n) «liberalizzazione»: processo in seguito al quale un'entità non gode di diritti esclusivi o speciali e fornisce beni o servizi solo sui mercati soggetti ad un'effettiva concorrenza.

Articolo 139

Trattamento nazionale e non discriminazione

1. Ciascuna Parte garantisce che gli appalti delle sue entità contemplate dal presente titolo si svolgano in modo trasparente, equilibrato e non discriminatorio, assicurando un pari trattamento a tutti i fornitori di entrambe le Parti e il rispetto del principio di una concorrenza aperta ed effettiva.

2. Per quanto riguarda tutte le disposizioni legislative, regolamentari, le procedure e le pratiche sugli appalti pubblici di cui al presente titolo, ciascuna Parte concede ai beni, ai servizi e ai prestatori di servizi dell'altra Parte un trattamento non meno favorevole di quello accordato ai suoi prodotti, servizi e prestatori di servizi nazionali.

3. Per quanto riguarda tutte le disposizioni legislative, regolamentari, le procedure e le pratiche sugli appalti pubblici di cui al presente titolo, ciascuna Parte si accerta che i suoi enti:

a) non riservino a un fornitore stabilito in loco un trattamento meno favorevole di quello accordato ad un altro fornitore stabilito in loco in funzione del grado di partecipazione straniera o di proprietà di una persona dell'altra Parte;

b) non discriminino i fornitori stabiliti in loco in base al fatto che i beni o i servizi offerti dal fornitore per un particolare appalto sono beni o servizi dell'altra Parte.

4. Il presente articolo non si applica alle misure connesse ai dazi doganali o agli oneri di qualsiasi tipo imposti all'importazione o con essa collegati né al metodo di riscossione di tali dazi e oneri, alle altre normative in materia d'importazione, comprese le restrizioni e le formalità, o alle misure in materia riguardanti gli scambi di servizi diverse dalle misure che disciplinano specificamente le commesse di cui al presente titolo.

▼B

Articolo 140

Divieto delle compensazioni e delle preferenze nazionali

Ciascuna Parte si accerta che i suoi enti non prendano in considerazione né chiedano o impongano compensazioni o condizioni relative alle preferenze nazionali, quali i margini che concedono una preferenza in materia di prezzi, al momento della qualifica e della selezione dei fornitori, dei beni e dei servizi, della valutazione delle offerte o dell'aggiudicazione dei contratti.

Articolo 141

Regole di valutazione

1. Gli enti evitano di suddividere gli appalti e di utilizzare altri metodi di valutazione dei contratti onde eludere l'applicazione del presente titolo nel determinare se ad un contratto si applichino le sue discipline, fatte salve le condizioni di cui agli allegati XI e XII, appendici da 1 a 3.

2. Nel calcolare il valore di un contratto, le entità tengono conto di tutte le forme di retribuzioni ivi previste, quali premi, onorari, commissioni e interessi, nonché dell'importo totale massimo autorizzato, comprese le opzioni.

3. Qualora la natura del contratto non consenta di calcolarne anticipatamente il valore preciso, gli enti stimano tale valore secondo criteri obiettivi.

Articolo 142

Trasparenza

1. Ciascuna Parte pubblica tempestivamente, anche con i mezzi elettronici designati ufficialmente, tutte le leggi, i regolamenti, le sentenze giudiziarie, i provvedimenti amministrativi di applicazione generale e tutte le procedure, comprese le clausole dei contratti standard, riguardanti le commesse pubbliche di cui al presente titolo nelle pubblicazioni di cui all'allegato XIII, appendice 2.

2. Analogamente, ciascuna Parte pubblica tempestivamente tutte le modifiche di tali misure.

Articolo 143

Procedure di gara

1. Gli enti aggiudicano gli appalti pubblici mediante gare aperte o selettive, secondo le loro procedure nazionali e a norma del presente titolo e in modo non discriminatorio.

2. Ai fini del presente titolo valgono le seguenti definizioni:

▼B

a) «gare aperte»: le procedure che consentono a tutti i fornitori interessati di presentare un'offerta;

b) «gare selettive»: le procedure che autorizzano a presentare un'offerta solo i fornitori che soddisfano i requisiti attinenti alle qualifiche del presente titolo, in linea con l'articolo 144 e con le altre disposizioni pertinenti del presente titolo.

3. In casi specifici, e solo alle condizioni di cui all'articolo 145, gli enti possono tuttavia ricorrere ad una procedura diversa dalla gara aperta o selettiva di cui al paragrafo 1 di detto articolo; in tal caso, gli enti scelgono di non pubblicare un avviso di gara d'appalto e possono sia consultare i fornitori da loro scelti sia negoziare con uno o più di essi le modalità del contratto.

4. Gli enti trattano con gli offerenti all'insegna della riservatezza, evitando in particolare di fornire informazioni che aiuterebbero determinati partecipanti ad innalzare le loro offerte al livello degli altri partecipanti.

Articolo 144

Gare selettive

1. Nelle gare selettive, gli enti possono limitare il numero di fornitori qualificati che inviteranno a presentare offerte, fermo restando il buon funzionamento del processo di appalto, purché selezionino il massimo di fornitori nazionali e di fornitori dell'altra Parte, procedendo in modo equo e non discriminatorio e basandosi sui criteri indicati nell'avviso di gara o nei documenti di gara.

2. Gli enti che dispongono di elenchi permanenti di fornitori qualificati possono scegliere tra i fornitori che vi figurano quelli invitati a presentare offerte, alle condizioni di cui all'articolo 146, paragrafo 7. La selezione operata deve dare eque possibilità ai fornitori degli elenchi.

Articolo 145

Altre procedure

1. Purché la procedura di gara non venga utilizzata per evitare al massimo la concorrenza o per tutelare i fornitori nazionali, gli enti possono aggiudicare, se del caso, i contratti d'appalto senza ricorrere a gare aperte o selettive, nelle seguenti circostanze e alle seguenti condizioni:

a) quando non siano state presentate offerte adeguate o richieste di partecipare in seguito ad un appalto precedente, sempreché i requisiti dell'appalto iniziale non subiscano modifiche sostanziali;

▼B

b) quando, per motivi tecnici o artistici o per ragioni connesse alla tutela dei diritti esclusivi, il contratto possa essere eseguito solo da un determinato fornitore, e non esistano alternative ragionevoli;

c) quando, per motivi di estrema urgenza riconducibili ad avvenimenti che l'ente non poteva prevedere, non è stato possibile ottenere in tempo i beni o i servizi mediante gare aperte o selettive;

d) per le forniture supplementari di beni o di servizi da parte del fornitore iniziale, quando un cambiamento di fornitore costringerebbe l'ente a procurarsi attrezzature o servizi non intercambiabili con le attrezzature, il software o i servizi esistenti;

e) quando un ente si procura un prototipo, un primo prodotto o un servizio messi a punto a sua richiesta nel corso e al fine di un contratto particolare per la ricerca, la sperimentazione, lo studio o lo sviluppo iniziale;

f) quando, in seguito a circostanze imprevedibili, i servizi descritti nel contratto iniziale debbano essere completati da servizi supplementari che non vi figuravano, ma che rientrano negli obiettivi del fascicolo di gara iniziale. Il valore totale dei contratti aggiudicati per i servizi supplementari del settore della costruzione non può comunque superare il 50 % dell'importo del contratto principale;

g) per i nuovi servizi che consistono nella ripetizione di servizi analoghi, e per i quali l'ente ha indicato, nell'avviso relativo al servizio iniziale, il possibile ricorso a procedure diverse dalle gare aperte o selettive per l'aggiudicazione dei relativi contratti;

h) nel caso di contratti aggiudicati al vincitore di un concorso di design, purché il concorso sia stato organizzato nel rispetto dei principi del presente titolo; qualora via siano più vincitori, vengono tutti invitati a partecipare ai negoziati; e

i) per le merci quotate acquistate su un mercato dei prodotti e per gli acquisti di merci effettuati a condizioni eccezionalmente vantaggiose, che si verificano solo a brevissima scadenza in caso di smaltimento eccezionale, e non per i normali acquisti dei fornitori regolari.

2. Le Parti garantiscono che, ogniqualvolta debbano ricorrere ad una procedura diversa dalle gare aperte o selettive nelle circostanze di cui al paragrafo 1, gli enti conservino una registrazione o preparino una relazione scritta come giustificazione specifica del contratto aggiudicato a norma del paragrafo suddetto.

▼B

Articolo 146

Qualifica dei fornitori

1. Le condizioni di partecipazione alle gare d'appalto sono limitate a quelle indispensabili per garantire che il fornitore potenziale sia in grado di soddisfare i requisiti dell'appalto e di eseguire il contratto in questione.

2. Nel qualificare i fornitori, gli enti evitano qualsiasi discriminazione tra fornitori nazionali e fornitori dell'altra Parte.

3. Nessuna Parte può riservare la partecipazione ad un appalto ai fornitori cui in precedenza siano stati aggiudicati uno o più contratti da un ente della Parte in questione o che abbiano già un'esperienza lavorativa sul suo territorio.

4. Gli enti riconoscono come fornitori qualificati tutti i fornitori che soddisfano le condizioni di partecipazione ad un appalto specifico. Le decisioni degli enti in materia di qualifica si basano esclusivamente sulle condizioni di partecipazione specificate in precedenza negli avvisi o nel fascicolo di gara.

5. Nessuna disposizione del presente titolo preclude l'esclusione di un fornitore perché è fallito, ha dichiarato il falso o è accusato di un grave delitto quale la partecipazione ad organizzazioni criminali.

6. Gli enti informano tempestivamente delle loro decisioni i fornitori che hanno chiesto di essere qualificati.

Elenchi permanenti di fornitori qualificati

7. Gli enti possono compilare elenchi permanenti di fornitori qualificati purché:

a) garantiscano ai fornitori la possibilità di chiedere in qualsiasi momento di essere qualificati;

b) informino della loro decisione tutti i fornitori che hanno chiesto di diventare fornitori qualificati;

c) consentano ai fornitori che non figurano su un elenco permanente di partecipare ad una determinata gara d'appalto presentando certificati e altre pezze d'appoggio equivalenti a quelli chiesti ai fornitori dell'elenco;

d) se un ente del settore dei servizi pubblici utilizza un avviso di esistenza di un elenco permanente come avviso di appalto, ai sensi dell'articolo 147, paragrafo 7, i fornitori che chiedono di partecipare e non figurano sull'elenco permanente dei fornitori qualificati vengono presi

▼B

in considerazione ai fini della gara, sempreché vi sia abbastanza tempo per portare a termine la procedura di qualifica; in tal caso, l'ente aggiudicatore avvia tempestivamente le procedure di qualifica, evitando di utilizzarne lo svolgimento e la durata per escludere dall'elenco fornitori di entrambe le Parti.

Articolo 147

Pubblicazione degli avvisi

Disposizioni generali

1. Ciascuna Parte si accerta che i suoi enti diano adeguata diffusione alle possibilità di gara offerte dai pertinenti appalti pubblici, comunicando ai fornitori dell'altra Parte tutte le informazioni necessarie per partecipare all'appalto.

2. Per ciascun contratto contemplato dal presente titolo, fatte salve le disposizioni degli articoli 143, paragrafo 3, e 145, gli enti pubblicano anticipatamente un avviso in cui invitano i fornitori interessati a presentare offerte o, se del caso, a chiedere di partecipare all'appalto.

3. Fra le informazioni contenute in ciascun avviso di gara d'appalto devono figurare almeno:

a) il nome, l'indirizzo, il numero di fax e l'indirizzo elettronico dell'entità nonché, qualora sia diverso, l'indirizzo al quale richiedere tutti i documenti relativi all'appalto;

b) la procedura di gara scelta e la forma del contratto;

c) una descrizione dell'appalto e i requisiti principali stipulati nel contratto;

d) tutte le condizioni che i fornitori devono soddisfare per partecipare all'appalto;

e) i termini per la presentazione delle offerte e gli eventuali altri termini;

f) i principali criteri di aggiudicazione dei contratti;

g) possibilmente, le modalità di pagamento e le altre modalità.

Avvisi di appalti programmati

4. Ciascuna Parte incoraggia i suoi enti a pubblicare quanto prima, nel corso di ogni esercizio finanziario, informazioni sui futuri appalti programmati, contenenti l'oggetto dell'appalto e la data prevista per la pubblicazione del relativo avviso.

▼B

5. Gli enti che operano nel settore dei servizi pubblici possono utilizzare gli avvisi di appalto programmato come avvisi di appalto previsto, purché contengano tutte le informazioni disponibili tra quelle di cui al paragrafo 3 e invitino espressamente i fornitori a manifestare all'ente il loro interesse a partecipare.

6. Gli enti che hanno utilizzato gli avvisi di appalto programmato come avvisi di appalto previsto comunicano successivamente a tutti i fornitori che hanno espresso inizialmente interesse ulteriori informazioni, tra cui almeno quelle di cui al paragrafo 1, e chiedono loro di confermare detto interesse su tali basi.

Avviso riguardante gli elenchi permanenti dei fornitori qualificati

7. Gli enti che intendono mantenere elenchi permanenti pubblicano, a norma del paragrafo 2, un avviso che li identifica e indica sia lo scopo dell'elenco permanente, sia la disponibilità delle sue regole di funzionamento, compresi i criteri di qualifica e squalifica, e la sua durata.

8. Se l'elenco permanente vale per più di tre anni, l'avviso viene pubblicato una volta all'anno.

9. Gli enti che operano nel settore dei servizi pubblici possono utilizzare un avviso di elenco permanente dei fornitori qualificati come avviso di appalto previsto. In tal caso, essi forniscono tempestivamente le informazioni necessarie per consentire a tutti coloro che hanno manifestato interesse di valutare il loro interesse a partecipare all'appalto. Tra queste informazioni figurano, se disponibili, gli elementi contenuti nell'avviso di cui al paragrafo 3. Le informazioni trasmesse a un fornitore interessato vengono fornite in modo non discriminatorio agli altri fornitori interessati.

Disposizioni comuni

10. Tutti gli avvisi di cui al presente articolo sono accessibili per l'intero periodo stabilito per la gara d'appalto corrispondente.

11. Gli enti pubblicano gli avvisi in tempo utile, utilizzando i mezzi che offrono l'accesso più ampio possibile, senza discriminazioni, ai fornitori interessati delle Parti. Questi mezzi possono essere consultati gratuitamente attraverso un unico punto di accesso indicato nell'allegato XIII, appendice 2.

Articolo 148

Fascicolo di gara

1. Il fascicolo di gara trasmesso ai fornitori contiene tutte le informazioni di cui hanno bisogno per presentare offerte adeguate.

▼B

2. Qualora non consentano di accedere liberamente e direttamente all'intero fascicolo di gara attraverso i mezzi elettronici, gli enti aggiudicatori lo mettono prontamente a disposizione di qualsiasi fornitore delle Parti che ne faccia richiesta.

3. Gli enti rispondono sollecitamente a tutte le richieste ragionevoli di informazioni inerenti all'appalto previsto, purché tali informazioni non conferiscano al fornitore in questione un vantaggio rispetto ai concorrenti.

Articolo 149

Specifiche tecniche

1. Le specifiche tecniche sono riportate negli avvisi, nei documenti di gara o nei documenti supplementari.

2. Ciascuna Parte si accerta che i suoi enti non preparino, adottino o applichino specifiche tecniche intese a, o che abbiano per effetto di, creare ostacoli inutili agli scambi tra le Parti.

3. Le specifiche tecniche emanate dagli enti

a) sono espresse in termini di prestazioni e di requisiti funzionali anziché in termini di design o di descrizione; e

b) si basano sulle norme internazionali esistenti oppure, in loro assenza, sui regolamenti tecnici nazionali ([1]), sulle norme internazionali riconosciute ([2]) o sulle norme edilizie.

4. Le disposizioni del paragrafo 3 non si applicano se l'entità può dimostrare obiettivamente che l'uso delle specifiche tecniche di cui al suddetto paragrafo sarebbe inefficace e inappropriato per il conseguimento degli obiettivi legittimi fissati.

([1]) Ai fini del presente titolo, un regolamento tecnico è un documento che definisce le caratteristiche di un prodotto o di un servizio o i processi e i metodi di produzione, comprese le disposizioni amministrative applicabili, la cui osservanza è obbligatoria. Esso può contenere, o riguardare esclusivamente, requisiti in materia di terminologia, simboli, imballaggio, marcatura e etichettatura applicati a un prodotto, un servizio, un processo o un metodo di produzione.

([2]) Ai fini del presente titolo, una norma è un documento approvato da un organismo riconosciuto contenente regole, orientamenti o caratteristiche, nonché processi e metodi di produzione la cui osservanza non è obbligatoria, per un uso comune e ripetuto. Esso può contenere, o riguardare esclusivamente, requisiti in materia di terminologia, simboli, imballaggio, marcatura e etichettatura applicati a un prodotto, un servizio, un processo o un metodo di produzione.

▼B

5. Gli enti prendono comunque in considerazione tutte le offerte che, pur non essendo conformi alle specifiche tecniche, soddisfano i requisiti di base ivi contenuti e corrispondono all'obiettivo perseguito. Il riferimento alle specifiche tecniche presente nei documenti di gara deve contenere la dicitura «o equivalente».

6. Possono essere inclusi requisiti o riferimenti riguardanti marchi di fabbrica, denominazioni commerciali, brevetti, disegni o tipi, origini specifiche, produttori o fornitori particolari solo se non esiste un modo sufficientemente preciso o comprensibile di descrivere i requisiti dell'appalto, a condizione che nel fascicolo figuri la dicitura «o equivalente».

7. Spetta all'offerente dimostrare che la sua offerta soddisfa i requisiti di base.

Articolo 150

Termini

1. Tutti i termini fissati dagli enti per il ricevimento delle offerte e delle richieste di partecipazione devono essere tali da consentire ai fornitori dell'altra Parte, nonché ai fornitori nazionali, di preparare e di presentare le offerte nonché, se del caso, le richieste di partecipazione o di qualifica. Nel fissare detti termini, gli enti tengono conto, compatibilmente con le loro ragionevoli esigenze, di fattori quali la complessità dell'appalto previsto e il tempo normalmente richiesto per la trasmissione delle offerte da fonti estere o nazionali.

2. Ciascuna Parte si accerta che i suoi enti tengano debitamente conto dei tempi di pubblicazione nel fissare la data limite per il ricevimento delle offerte o delle richieste di partecipazione o di inserimento nell'elenco dei fornitori.

3. I termini ultimi per il ricevimento delle offerte sono indicati nell'allegato XIII, appendice 3.

Articolo 151

Negoziati

1. Una Parte può incaricare i suoi enti di condurre i negoziati:

a) quando abbia espresso tale intenzione nell'avviso di appalto previsto oppure

b) quando la valutazione dimostri che nessuna offerta è palesemente la più vantaggiosa secondo i criteri di valutazione specifici indicati negli avvisi o nel fascicolo di gara.

2. Lo scopo principale dei negoziati è individuare gli aspetti positivi e negativi delle offerte.

▼B

3. Durante i negoziati, gli enti evitano qualsiasi discriminazione tra i fornitori, accertandosi in particolare che:

a) l'eventuale eliminazione di un partecipante avvenga secondo i criteri indicati negli avvisi o nel fascicolo di gara;

b) tutte le modifiche dei criteri suddetti e dei requisiti tecnici vengano trasmesse per iscritto a tutti gli altri partecipanti ai negoziati; e

c) si dia a tutti i partecipanti la possibilità di presentare, entro un termine comune, nuove offerte o offerte modificate sulla base dei requisiti riveduti e/o al termine dei negoziati.

Articolo 152

Presentazione, ricevimento e apertura delle offerte

1. Le offerte e le richieste di partecipazione alla procedura devono essere presentate per iscritto.

2. Gli enti ricevono e aprono le offerte degli offerenti secondo procedure e condizioni tali da garantire il rispetto dei principi di trasparenza e di non discriminazione.

Articolo 153

Aggiudicazione dei contratti

1. Per poter essere presa in considerazione ai fini dell'appalto, un'offerta deve soddisfare, al momento dell'apertura, i requisiti principali degli avvisi o del fascicolo di gara ed essere presentata da un fornitore che soddisfi le condizioni di partecipazione.

2. Gli enti aggiudicano l'appalto all'offerente con l'offerta più bassa o all'offerta considerata più vantaggiosa secondo i criteri di valutazione specifici indicati precedentemente negli avvisi o nel fascicolo di gara.

Articolo 154

Informazioni sull'aggiudicazione dei contratti

1. Ciascuna Parte si accerta che i suoi enti diano adeguata diffusione ai risultati degli appalti pubblici.

2. Gli enti informano tempestivamente gli offerenti delle decisioni relative all'aggiudicazione degli appalti nonché delle caratteristiche e dei vantaggi relativi dell'offerta selezionata. Su richiesta, gli enti informano gli offerenti eliminati dei motivi per i quali le loro offerte sono state respinte.

▼B

3. Gli enti possono decidere di non comunicare determinate informazioni sull'aggiudicazione dell'appalto per evitare di pregiudicare l'applicazione della legge, il pubblico interesse, gli interessi commerciali legittimi dei fornitori o la concorrenza leale tra di essi.

Articolo 155

Impugnazione delle offerte

1. Gli enti esaminano in modo imparziale e tempestivo i reclami dei fornitori riguardanti una presunta violazione del presente titolo nell'ambito della procedura di appalto.

2. Ciascuna Parte definisce procedure non discriminatorie, rapide, trasparenti ed efficaci che consentano ai fornitori di denunciare le presunte violazioni del presente titolo avvenute nel contesto di gare d'appalto in cui abbiano o abbiano avuto un interesse.

3. Le contestazioni vengono sottoposte ad un'autorità verificatrice imparziale e indipendente. Quando non si tratta di un tribunale, l'autorità verificatrice è soggetta a riesame giudiziario o a garanzie procedurali analoghe a quelle di un tribunale.

4. Le procedure di impugnazione prevedono:

a) misure provvisorie tempestive atte a rimediare alle violazioni del presente titolo e a salvaguardare le opportunità commerciali, che possono dar luogo ad una sospensione della procedura di appalto. Nel decidere se applicare dette misure, tuttavia, si può eventualmente tener conto delle principali conseguenze negative per gli interessi in causa, compresi quelli pubblici; e

b) se del caso, misure atte a rimediare alla violazione del presente titolo oppure, in mancanza di tali misure, il risarcimento delle perdite o dei danni subiti, che potrebbero essere limitati al costo di preparazione dell'offerta o alle spese legali.

Articolo 156

Tecnologie dell'informazione

1. Le Parti si servono per quanto possibile dei mezzi di comunicazione elettronici per un'adeguata divulgazione delle informazioni sulle commesse pubbliche, specie per quanto riguarda le possibilità di partecipazione offerte dagli enti, nel rispetto dei principi di trasparenza e di non discriminazione.

2. Per migliorare l'accesso agli appalti pubblici, ciascuna Parte cerca di instaurare un sistema d'informazione elettronico, il cui uso è obbligatorio per i rispettivi enti.

▼B

3. Le Parti incoraggiano l'uso dei mezzi elettronici per la trasmissione delle offerte.

Articolo 157

Cooperazione e assistenza

Le Parti promuovono la cooperazione tecnica e l'assistenza reciproca attraverso programmi di formazione intesi ad una migliore comprensione dei rispettivi sistemi di commesse pubbliche e delle rispettive statistiche, nonché ad un più agevole accesso ai rispettivi mercati.

Articolo 158

Relazioni statistiche

Se una Parte non garantisce un livello di conformità accettabile ai sensi dell'articolo 147, paragrafo 11, essa raccoglie e fornisce annualmente all'altra Parte statistiche sui suoi appalti contemplati dal presente titolo. Dette relazioni devono contenere le informazioni di cui all'allegato XIII, appendice 4.

Articolo 159

Modifiche dell'ambito di applicazione

1. Le Parti possono modificare l'ambito di applicazione del presente titolo a condizione che:

a) informino l'altra Parte della modifica; e

b) concedano all'altra Parte, entro trenta giorni dalla data della notifica, opportuni adeguamenti compensativi per mantenere un livello di copertura paragonabile a quello che esisteva prima della modifica.

2. Fatto salvo il paragrafo 1, lettera b), non vengono concessi adeguamenti compensativi all'altra Parte se la modifica apportata da una Parte alla sua copertura nell'ambito del presente titolo riguarda:

a) rettifiche meramente formali e modifiche minori degli allegati XI e XII; oppure

b) uno o più enti per i quali il controllo o l'influenza dello Stato sono stati effettivamente eliminati attraverso la privatizzazione o la liberalizzazione.

3. Se del caso, il Comitato di associazione può decidere di modificare l'allegato corrispondente per tener conto della modifica notificata dalla Parte in questione.

▼B

Articolo 160

Negoziati successivi

Qualora una Parte offra ad un terzo vantaggi supplementari, per quanto riguarda l'accesso ai suoi appalti, rispetto a quanto concordato a norma del presente titolo, si avviano negoziati con l'altra Parte per estenderle tali vantaggi su base reciproca mediante una decisione del Comitato di associazione.

Articolo 161

Deroghe

Fermo restando l'obbligo di non applicare i provvedimenti in maniera da causare discriminazioni arbitrarie o ingiustificate tra le Parti, o restrizioni dissimulate agli scambi tra di esse, nessuna disposizione del presente titolo può essere interpretata come un divieto per le Parti di adottare o applicare le misure:

a) necessarie per tutelare la morale pubblica o per mantenere l'ordine pubblico e la pubblica sicurezza;

b) necessarie per tutelare la vita, la salute o la sicurezza delle persone;

c) necessarie per tutelare la vita o la salute del mondo animale o vegetale;

d) necessarie per tutelare la proprietà intellettuale; ovvero

e) riguardanti i beni o i servizi collegati ai disabili, alle opere di beneficenza o al lavoro nelle prigioni.

Articolo 162

Riesame e applicazione

Salvo diverso accordo tra le Parti, il Comitato di associazione riesamina ogni due anni l'applicazione del presente titolo, analizzando tutte le questioni connesse e prendendo opportuni provvedimenti nell'esercizio delle sue funzioni. Esso provvede in particolare a:

a) coordinare gli scambi tra le Parti per lo sviluppo e l'applicazione dei sistemi informatici nel campo delle commesse pubbliche;

b) formulare opportune raccomandazioni riguardanti la cooperazione tra le Parti;

c) prendere decisioni nei casi previsti dal presente titolo.

1. Le Parti si adoperano per liberalizzare i pagamenti correnti e i movimenti di capitali tra di esse, conformemente agli impegni assunti nell'ambito delle istituzioni finanziarie internazionali e tenendo debitamente conto della stabilità monetaria di ciascuna Parte.

2. Il presente titolo si applica a tutti i pagamenti correnti e a tutti i movimenti di capitali tra le Parti.

Articolo 166

Deroghe e misure di salvaguardia

1. Qualora, in circostanze eccezionali, i pagamenti e i movimenti di capitali tra le Parti diano luogo, o possano dar luogo a gravi difficoltà per il funzionamento della politica monetaria o di cambio di una delle Parti, la Parte interessata può applicare ai movimenti di capitali le misure di salvaguardia strettamente necessarie, per un periodo non superiore a un anno. L'applicazione delle misure di salvaguardia può essere prorogata mediante il loro formale ripristino.

2. La Parte che adotta le misure di salvaguardia ne informa immediatamente l'altra Parte e presenta appena possibile un calendario per la loro abolizione.

▼B

Articolo 167

Disposizioni finali

1. Per quanto riguarda il presente titolo, le Parti confermano i rispettivi diritti e obblighi a norma di tutti gli accordi bilaterali o multilaterali di cui sono firmatarie.

2. Le Parti si consultano onde agevolare la circolazione dei capitali tra di esse conformemente agli obiettivi del presente accordo.

Articolo 171

Riesame

Mentre le Parti ribadiscono l'impegno di rispettare gli obblighi derivanti dalle convenzioni multilaterali suddette, il Consiglio di associazione può decidere di inserire nell'articolo 170 altre convenzioni multilaterali in questo settore.

TITOLO VII

CONCORRENZA

Articolo 172

Obiettivi

1. Le Parti si impegnano ad applicare le rispettive norme di concorrenza in modo coerente con questa parte dell'accordo, onde evitare che i benefici derivanti dal processo di liberalizzazione degli scambi di beni e di servizi possano essere ridotti o annullati da comportamenti anticoncorrenziali. A tal fine, le Parti decidono di collaborare e di coordinare le rispettive autorità di concorrenza a norma del presente titolo.

2. Al fine di impedire distorsioni o restrizioni della concorrenza che potrebbero eventualmente pregiudicare gli scambi commerciali tra di esse, le Parti prestano una particolare attenzione agli accordi anticoncorrenziali, alle pratiche concertate e allo sfruttamento abusivo di posizioni dominanti individuali o comuni.

3. Le Parti decidono di collaborare e di coordinarsi per applicare le norme di concorrenza attraverso notifiche, consultazioni, scambi di informazioni non riservate e assistenza tecnica. Le Parti riconoscono l'importanza di attenersi ai principi di concorrenza che entrambe accetterebbero nei consessi internazionali, compresa l'OMC.

Articolo 173

Definizioni

Ai fini del presente titolo, si applicano le seguenti definizioni:

1) «norme di concorrenza»:

▼B

a) per la Comunità, gli articoli 81, 82, 85 e 86 del trattato che istituisce la Comunità europea, il regolamento (CEE) n. 4064/89, i regolamenti di attuazione o le relative modifiche;

b) per il Cile, il Decreto ley n. 211 del 1973 e la ley n. 19.610 del 1999, i loro regolamenti di attuazione o le relative modifiche; e

c) le eventuali modifiche della legislazione suddetta successive all'entrata in vigore del presente accordo;

2) «autorità di concorrenza»:

a) per la Comunità, la Commissione delle Comunità europee; e

b) per il Cile, la Fiscalía Nacional Económica e la Comisión Resolutiva;

3) «provvedimento di applicazione», qualsiasi atto di esecuzione delle norme di concorrenza svolto mediante indagini o procedimenti dall'autorità garante della concorrenza di una Parte, dal quale possano risultare sanzioni o rimedi.

Articolo 174

Notifiche

1. Le autorità di concorrenza delle Parti si notificano reciprocamente un provvedimento di applicazione qualora:

a) possa avere notevoli ripercussioni su interessi rilevanti dell'altra Parte;

b) riguardi restrizioni della concorrenza che potrebbero avere ripercussioni dirette e sostanziali sul territorio dell'altra Parte; oppure

c) riguardi iniziative anticoncorrenziali che si svolgono prevalentemente sul territorio dell'altra Parte.

2. A condizione che questa modalità non sia contraria alle norme in materia di concorrenza delle Parti e non pregiudichi lo svolgimento di eventuali indagini, la notifica si effettua nella fase iniziale della procedura. I pareri ricevuti possono essere presi in considerazione dall'altra autorità di concorrenza al momento di adottare le decisioni.

3. Le notifiche di cui al paragrafo 1 devono essere sufficientemente dettagliate per consentire una valutazione alla luce degli interessi dell'altra Parte.

4. Le Parti si impegnano a fare quanto in loro potere per garantire che le notifiche siano effettuate come specificato più sopra, compatibilmente con le risorse amministrative di cui dispongono.

▼B

Articolo 175

Coordinamento dei provvedimenti di applicazione

L'autorità di concorrenza di una Parte può notificare all'autorità di concorrenza dell'altra Parte la propria disponibilità al coordinamento dei provvedimenti di applicazione in rapporto ad un caso specifico. Tale coordinamento non impedisce alle Parti di prendere decisioni autonome.

Articolo 176

Consultazioni in caso di pregiudizio a interessi rilevanti di una Parte nel territorio dell'altra Parte

1. Ciascuna Parte prende in considerazione, se del caso, in sede di applicazione gli interessi rilevanti dell'altra Parte conformemente alla sua legislazione. Qualora l'autorità di concorrenza di una Parte ritenga che interessi rilevanti di tale Parte possano essere lesi da un'indagine o da un procedimento condotti dall'autorità di concorrenza dell'altra Parte, può esporre il suo punto di vista sulla questione o chiedere consultazioni all'altra autorità di concorrenza. Quest'ultima, fatte salve la continuazione di ogni azione svolta nell'ambito delle sue norme in materia di concorrenza e la sua piena libertà quanto alla decisione finale, deve considerare con la debita attenzione le osservazioni dell'autorità di concorrenza richiedente.

2. Qualora l'autorità di concorrenza di una Parte ritenga che gli interessi di tale Parte siano lesi in modo sostanziale da pratiche anticoncorrenziali di qualsiasi origine che siano o siano state applicate da una o più imprese situate nell'altra Parte, può chiedere consultazioni con l'autorità di concorrenza di quest'ultima, restando inteso che l'avvio delle consultazioni non pregiudica la piena libertà dell'autorità in questione quanto alla decisione finale. L'autorità di concorrenza consultata può adottare, ai sensi delle proprie norme in materia di concorrenza, le misure correttive che ritiene appropriate, fatto salvo il suo potere discrezionale totale in materia di applicazione.

Articolo 177

Scambi di informazioni e riservatezza

1. Le autorità di concorrenza possono scambiarsi informazioni non riservate per agevolare la corretta applicazione delle rispettive norme in materia di concorrenza.

2. Per migliorare la trasparenza, e fatte salve le norme in materia di riservatezza applicabili in ciascuna Parte, le Parti si impegnano a scambiare informazioni sulle sanzioni e sulle misure correttive applicate

▼B

qualora, secondo l'autorità di concorrenza competente, interessi rilevanti dell'altra Parte siano lesi in misura considerevole, nonché a comunicare, su richiesta dell'autorità di concorrenza dell'altra Parte, i motivi che hanno giustificato tali misure.

3. Ciascuna Parte fornisce annualmente all'altra informazioni sugli aiuti di Stato comprendenti l'importo generale degli aiuti e, possibilmente, la suddivisione per settori. Ciascuna Parte può chiedere informazioni sui singoli casi che incidono sugli scambi tra le Parti. La Parte interpellata fa quanto in suo potere per fornire le informazioni non riservate.

4. Tutti gli scambi di informazioni sono soggetti alle norme di riservatezza vigenti in ciascuna delle Parti. Le informazioni riservate la cui divulgazione sia esplicitamente vietata o che, se divulgate, potrebbero nuocere agli interessi delle Parti non possono essere fornite senza l'esplicito consenso della relativa fonte.

5. Ciascuna autorità di concorrenza rispetta la riservatezza delle informazioni fornitele a titolo riservato dall'altra autorità e respinge ogni richiesta di comunicazione di tali informazioni presentata da un terzo senza l'autorizzazione dell'autorità di concorrenza che le ha fornite.

6. In particolare, quando ciò sia previsto dalla legislazione di una Parte, possono essere fornite informazioni riservate ai rispettivi tribunali, che ne garantiscono la riservatezza.

Articolo 178

Assistenza tecnica

Le Parti possono prestarsi reciprocamente assistenza tecnica per avvalersi l'una dell'esperienza dell'altra e per rafforzare l'attuazione delle loro norme e politiche in materia di concorrenza.

Articolo 179

Imprese pubbliche e imprese con diritti speciali o esclusivi, compresi i monopoli designati

1. Nessuna disposizione del presente titolo impedisce a una Parte di designare o di mantenere monopoli pubblici o privati conformemente alla sua legislazione.

2. Per quanto riguarda le imprese pubbliche e le imprese con diritti speciali o esclusivi, il Comitato di associazione si accerta che, a decorrere dall'entrata in vigore del presente accordo, non si adottino né si mantengano in vigore misure tali da distorcere gli scambi di beni o di servizi tra le Parti in misura contraria ai loro interessi, e che le imprese suddette siano soggette alle norme in materia di concorrenza, sempreché tali norme non ostacolino, de jure o de facto, lo svolgimento dei loro compiti specifici.

▼B

Articolo 180

Composizione delle controversie

Nessuna delle due Parti può ricorrere al dispositivo di composizione delle controversie previsto dal presente accordo per le questioni sorte nell'ambito del presente titolo.

TITOLO VIII

COMPOSIZIONE DELLE CONTROVERSIE

CAPITOLO I

OBIETTIVO E AMBITO DI APPLICAZIONE

Articolo 181

Obiettivo

L'obiettivo del presente titolo è evitare e risolvere le controversie tra le Parti in merito all'applicazione in buona fede di questa parte dell'accordo, nonché risolvere in modo reciprocamente soddisfacente tutte le questioni inerenti alla sua applicazione.

Articolo 182

Ambito di applicazione

Salvo diversa disposizione esplicita, le disposizioni del presente titolo si applicano a tutte le questioni inerenti all'interpretazione e all'applicazione della presente parte dell'accordo.

CAPITOLO II

PREVENZIONE DELLE CONTROVERSIE

Articolo 183

Consultazioni

1. Le Parti si adoperano costantemente per concordare l'interpretazione e l'applicazione della presente parte dell'accordo, per evitare e risolvere le controversie tra di esse e per trovare soluzioni reciprocamente soddisfacenti alle questioni che potrebbero comprometterne il funzionamento attraverso la cooperazione e le consultazioni.

2. Ciascuna Parte può chiedere consultazioni all'interno del Comitato di associazione su tutte le misure vigenti o proposte, su tutte le questioni inerenti all'applicazione o all'interpretazione della presente parte dell'accordo o su altre questioni che, a loro parere, potrebbero comprometterne il funzionamento. Ai fini del presente titolo, per «misura» s'intende anche una prassi. Nella richiesta trasmessa da una Parte all'altra devono essere indicate la misura o la questione oggetto della contestazione e le disposizioni del presente accordo considerate applicabili.

▼B

3. Il Comitato di associazione si riunisce entro trenta giorni dalla presentazione della richiesta. Una volta iniziate le consultazioni, le Parti forniscono le informazioni necessarie per valutare in che modo la misura o l'altra questione possa compromettere il funzionamento e l'applicazione della presente parte dell'accordo. Le informazioni scambiate durante le consultazioni hanno carattere riservato. Il Comitato di associazione si adopera per risolvere tempestivamente la controversia mediante una decisione in cui vengono specificate le misure di attuazione che deve adottare la Parte interessata e le relative scadenze.

CAPITOLO III

PROCEDURA DI COMPOSIZIONE DELLE CONTROVERSIE

Articolo 184

Avvio della procedura

1. Le Parti si adoperano costantemente per trovare un accordo reciprocamente soddisfacente in merito alla controversia.

2. Qualora una Parte ritenga che una misura applicata dall'altra Parte violi uno degli obblighi di cui all'articolo 182 e la questione non sia stata risolta entro quindici giorni dalla riunione del Comitato di associazione indetta a norma dell'articolo 183, paragrafo 3 o, se precedente, entro quarantacinque giorni dalla richiesta di consultazioni in sede di Comitato di associazione, può chiedere per iscritto che sia costituito un panel arbitrale.

3. La Parte ricorrente trasmette la domanda, in cui specifica la misura che a suo parere viola la presente parte dell'accordo e le disposizioni del presente accordo che ritiene pertinenti, all'altra Parte e al Comitato di associazione.

Articolo 185

Nomina degli arbitri

1. I panel arbitrali sono composti da tre arbitri.

2. Il Comitato di associazione compila, entro sei mesi dall'entrata in vigore del presente accordo, un elenco di almeno quindici persone che accettino e siano in grado di fungere da arbitri, un terzo delle quali non deve avere la cittadinanza né dell'una né dell'altra Parte, identificate come presidenti di panel arbitrali. Il Comitato di associazione si accerta che l'elenco contenga sempre quindici nominativi. Le persone suddette devono possedere competenze o esperienza specifica in merito alle leggi, al commercio internazionale, ad altre questioni connesse alla presente parte dell'accordo o alla composizione delle controversie derivanti dagli accordi commerciali internazionali, essere indipendenti e operare a titolo personale, non essere associate ad una delle Parti né ricevere istruzioni da una delle Parti e devono rispettare il codice di condotta di cui all'allegato XVI. L'elenco può essere modificato ogni tre anni.

▼B

3. Entro tre giorni dalla richiesta di costituzione del panel arbitrale, il presidente del Comitato di associazione sceglie i tre arbitri tra i nominativi dell'elenco di cui al paragrafo 2, uno tra i nominativi proposti dalla Parte ricorrente, uno tra i nominativi proposti dalla Parte oggetto del reclamo e il presidente tra le persone individuate a tale scopo a norma del paragrafo 2.

4. La data di costituzione del panel arbitrale è quella in cui vengono scelti i tre arbitri.

5. Se una Parte ritiene che un arbitro non soddisfi i requisiti del codice di condotta, le Parti si consultano e sostituiscono, di comune accordo, l'arbitro in questione con uno scelto a norma del paragrafo 6.

6. In caso di impedimento, ritiro o revoca di un arbitro, viene designato un sostituto entro tre giorni seguendo la procedura che era stata applicata per la sua selezione. In tal caso, il termine applicabile alle procedure del panel arbitrale è sospeso per un periodo che inizia alla data dell'impedimento, del ritiro o della revoca dell'arbitro e finisce alla data in cui viene scelto il sostituto.

Articolo 186

Informazioni e consulenza tecnica

Su richiesta di una Parte o di sua iniziativa, il panel può ottenere informazioni e assistenza tecnica dalle persone e dagli organismi che giudica appropriati. Le informazioni ottenute vengono sottoposte alle Parti che possono formulare osservazioni in merito.

Articolo 187

Relazioni del panel arbitrale

1. Di norma, il panel arbitrale presenta alle Parti e al Comitato di associazione una relazione contenente le sue risultanze e conclusioni, entro tre mesi dalla data di costituzione, e comunque non oltre cinque mesi da questa data. La relazione del panel arbitrale si basa sulle osservazioni e sulle comunicazioni delle Parti, nonché su tutte le informazioni ricevute a norma dell'articolo 186. La relazione è definitiva e disponibile al pubblico.

2. La relazione indica le conclusioni fattuali, l'applicabilità delle disposizioni pertinenti del presente accordo e il ragionamento alla base di tutte le risultanze e conclusioni ivi contenute.

▼B

3. I panel arbitrali interpretano le disposizioni del presente accordo secondo le consuete regole d'interpretazione del diritto pubblico internazionale, tenendo debitamente conto del fatto che le Parti devono applicare il presente accordo in buona fede, evitando di eludere i loro obblighi.

4. Se una Parte asserisce che una misura dell'altra Parte è incompatibile con le disposizioni della presente parte dell'accordo, è tenuta a provare tale incompatibilità. Se una Parte asserisce che una misura è oggetto di una deroga ai sensi della presente parte dell'accordo, è tenuta a provare che la deroga è applicabile.

5. Nei casi urgenti, compresi quelli relativi a merci deperibili, il panel arbitrale fa il possibile per presentare la sua decisione alle Parti entro settantacinque giorni dalla data di costituzione. Il termine massimo per presentare la relazione è comunque di quattro mesi da questa data. Nei casi urgenti, il panel arbitrale può formulare conclusioni provvisorie.

6. Tutte le decisioni del panel arbitrale, compresa l'adozione della relazione finale e delle eventuali conclusioni provvisorie, vengono prese a maggioranza.

7. La Parte che ha presentato reclamo può ritirarlo in qualsiasi momento, con il consenso del Comitato di associazione, prima che la relazione venga presentata alle Parti e al Comitato di associazione, senza che ciò pregiudichi il suo diritto di presentare successivamente un altro reclamo con la stessa motivazione.

8. Il panel arbitrale può sospendere i lavori in qualsiasi momento, con il consenso della Parte nei cui confronti è stato presentato il reclamo e su richiesta della Parte ricorrente, per un periodo non superiore a dodici mesi. In tal caso, i termini di cui ai paragrafi 1 e 5 vengono prorogati di una durata equivalente a quella della sospensione. Se i lavori del panel vengono sospesi per più di dodici mesi, decade la facoltà di costituire il panel, fermo restando il diritto per la Parte ricorrente di presentare successivamente un altro reclamo con la stessa motivazione.

Articolo 188

Applicazione delle relazioni del panel

1. Le Parti sono tenute a adottare le misure necessarie per mettere in pratica la relazione del panel arbitrale.

2. Le Parti cercano di giungere a un accordo sulle misure specifiche necessarie per mettere in pratica la relazione finale.

3. La Parte nei cui confronti è proposto il reclamo notifica all'altra Parte, entro trenta giorni dalla trasmissione della relazione alle Parti e al Comitato di associazione:

a) la misura specifica necessaria per mettere in pratica la relazione;

b) il tempo ragionevolmente necessario per farlo; e

▼B

c) una proposta concreta di compensazione temporanea in attesa della piena attuazione delle misure specifiche necessarie per mettere in pratica la relazione.

4. In caso di disaccordo tra le Parti sul contenuto della notifica, la Parte ricorrente chiede al panel arbitrale originale di decidere se le misure proposte di cui al paragrafo 3, lettera a) siano coerenti con questa parte dell'accordo, se il periodo indicato sia ragionevole e se la proposta di compensazione sia palesemente sproporzionata. La decisione viene comunicata entro quarantacinque giorni dalla richiesta.

5. La Parte in causa notifica all'altra Parte e al Comitato di associazione le misure adottate per porre fine all'inosservanza dei suoi obblighi a norma della presente parte dell'accordo prima che scada il periodo ragionevole concordato tra le Parti o fissato a norma del paragrafo 4. Al momento della notifica, l'altra Parte può chiedere al panel arbitrale originale di pronunciarsi sulla conformità di dette misure con la presente parte dell'accordo se queste misure non sono simili a quelle dichiarate coerenti con detta parte dell'accordo dal panel arbitrale a norma del paragrafo 4. Il panel arbitrale si pronuncia entro quarantacinque giorni dalla richiesta.

6. Qualora la Parte in causa non notifichi le misure di applicazione prima dello scadere del periodo ragionevole, o qualora il panel arbitrale decreti l'incompatibilità delle misure notificate dalla Parte in causa con i suoi obblighi a norma della presente parte dell'accordo, se non si giunge ad un accordo sulla compensazione la Parte che ha presentato reclamo ha il diritto di sospendere l'applicazione dei benefici concessi a norma della presente parte dell'accordo in misura equivalente al livello di vanificazione e pregiudizio causato dalla misura che viola la presente parte dell'accordo.

7. Nel considerare quali benefici sospendere, la Parte che ha proposto reclamo dovrebbe chiedere in primo luogo i benefici concessi nello stesso titolo o negli stessi titoli della presente parte dell'accordo interessati dalla misura per la quale il panel ha riscontrato una violazione di detta parte dell'accordo. Qualora tale Parte giudichi impossibile o inefficace sospendere i benefici nello stesso titolo o negli stessi titoli, essa può sospendere i benefici concessi in altri titoli, informando per iscritto l'altra Parte dei motivi che giustificano questa decisione. Nello scegliere i benefici da sospendere, si privilegiano quelli che perturbano meno il funzionamento del presente accordo.

8. La Parte ricorrente notifica all'altra Parte e al Comitato di associazione i benefici che intende sospendere. L'altra Parte può chiedere, entro cinque giorni dalla notifica, al panel arbitrale originale di stabilire se i benefici che la Parte ricorrente intende sospendere sono equivalenti al livello di vanificazione e di pregiudizio causato dalla misura giudicata

▼B

incompatibile con la presente parte dell'accordo e se la sospensione proposta è conforme al paragrafo 7. Il panel arbitrale si pronuncia entro quarantacinque giorni dalla richiesta. I benefici non possono essere sospesi fintantoché il panel arbitrale non si è pronunciato.

9. La sospensione dei benefici è provvisoria e viene applicata dalla Parte ricorrente finché la misura giudicata incompatibile con la presente parte dell'accordo non viene ritirata o modificata onde renderla conforme con detta parte, o finché le Parti non sono giunte a un accordo sulla composizione della controversia.

10. Su richiesta di una delle Parti, il panel arbitrale originale si pronuncia sulla conformità con la presente parte dell'accordo di tutte le misure di applicazione adottate dopo la sospensione dei benefici nonché, in funzione di detta valutazione, sull'opportunità di mantenere o di modificare detta sospensione. Il panel arbitrale si pronuncia entro quarantacinque giorni dalla data della richiesta.

11. Le conclusioni di cui al presente articolo sono definitive e vincolanti, vengono trasmesse al Comitato di associazione e messe a disposizione del pubblico.

d) Una volta avviata la procedura di composizione delle controversie, si utilizza esclusivamente la sede prescelta, sempreché non si sia dichiarata incompetente. Tutte le questioni inerenti alla competenza dei panel arbitrali costituiti a norma del presente titolo devono essere sollevate entro dieci giorni dalla costituzione del panel e risolte mediante una decisione preliminare del panel entro trenta giorni dalla sua costituzione.

Articolo 5

Prodotti sufficientemente lavorati o trasformati

1. Ai fini dell'articolo 2, i prodotti che non sono interamente ottenuti si considerano sufficientemente lavorati o trasformati quando sono soddisfatte le condizioni stabilite nell'elenco dell'appendice II.

Dette condizioni stabiliscono, per tutti i prodotti contemplati dal presente accordo, la lavorazione o la trasformazione cui devono essere sottoposti i materiali non originari impiegati nella fabbricazione, e si applicano solo a detti materiali.

Ne consegue pertanto che, se un prodotto che ha acquisito il carattere originario perché soddisfa le condizioni di cui all'appendice II è impiegato nella fabbricazione di un altro prodotto, le condizioni applicabili al prodotto in cui esso è incorporato non gli si applicano, e non si tiene alcun conto dei materiali non originari eventualmente impiegati nella sua fabbricazione.

2. In deroga al paragrafo 1, i prodotti non interamente ottenuti elencati nell'appendice II(a) si considerano sufficientemente lavorati o trasformati quando sono soddisfatte le condizioni stabilite nell'elenco dell'appendice II(a). Il presente paragrafo si applica per i tre anni successivi all'entrata in vigore del presente accordo.

3. In deroga ai paragrafi 1 e 2, i materiali non originari che, in base alle condizioni indicate nell'appendice II o nell'appendice II(a), non dovrebbero essere utilizzati nella fabbricazione di un prodotto, possono comunque essere utilizzati a condizione che:

a) il loro valore totale non superi il 10 % del prezzo franco fabbrica del prodotto;

b) l'applicazione del presente paragrafo non comporti il superamento di una qualsiasi delle percentuali indicate nell'appendice II o nell'appendice II(a) relative al valore massimo dei materiali non originari.

Fatte salve le note 5 e 6 dell'appendice I, il presente paragrafo non si applica ai prodotti contemplati dai capitoli 50-63 del sistema armonizzato.

4. I paragrafi 1, 2 e 3 si applicano fatte salve le disposizioni dell'articolo 6.

Articolo 6

Lavorazioni o trasformazioni insufficienti

1. Fatto salvo il paragrafo 2, si considerano insufficienti a conferire il carattere di prodotti originari, indipendentemente dal rispetto o meno dei requisiti dell'articolo 5, le seguenti lavorazioni o trasformazioni:

▼B

a) manipolazioni destinate ad assicurare la conservazione in buono stato dei prodotti durante il loro trasporto e magazzinaggio;

b) scomposizione e composizione di confezioni;

c) lavaggio, pulitura, rimozione di polvere, ossido, olio, pittura o altri rivestimenti;

d) stiratura o pressatura dei tessili;

e) semplici operazioni di pittura e lucidatura;

f) mondatura, macinatura parziale o totale, pulitura e brillatura di cereali e riso;

g) operazioni per colorare lo zucchero o formare zollette di zucchero;

h) sbucciatura, snocciolatura, sgusciatura di frutta, frutta a guscio e verdura;

i) affilatura, semplice molatura o semplice taglio;

j) operazioni di spolveratura, vaglio o cernita, selezione, classificazione, assortimento (inclusa la composizione di assortimenti di articoli);

k) semplici operazioni di inserimento in bottiglie, boccette, borse, casse o scatole, o di fissaggio a supporti di cartone, su tavolette ecc., e ogni altra semplice operazione di condizionamento;

l) apposizione di marchi, etichette, loghi o altri analoghi segni distintivi sui prodotti o sui loro imballaggi;

m) semplice miscela di prodotti anche di specie diverse;

n) semplice assemblaggio di parti degli articoli allo scopo di formare un articolo completo o scomposizione dei prodotti in parti;

o) operazioni volte unicamente ad agevolare il carico;

p) cumulo di due o più operazioni di cui nelle lettere da (a) a (o);

q) la macellazione degli animali.

2. Nel determinare se la lavorazione o trasformazione cui è stato sottoposto un determinato prodotto debba essere considerata insufficiente ai sensi del paragrafo 1, si tiene complessivamente conto di tutte le operazioni eseguite nella Comunità o in Cile su quel prodotto.

Articolo 7

Unità da prendere in considerazione

1. L'unità da prendere in considerazione per l'applicazione delle disposizioni del presente allegato è lo specifico prodotto adottato come unità di base per determinare la classificazione secondo la nomenclatura del sistema armonizzato.

▼B

Ne consegue che:

a) quando un prodotto composto da un gruppo o da un insieme di articoli è classificato, secondo il sistema armonizzato, in un'unica voce, l'intero complesso costituisce l'unità da prendere in considerazione;

b) quando una spedizione consiste in un certo numero di prodotti fra loro identici, classificati nella medesima voce del sistema armonizzato, nell'applicare le disposizioni del presente allegato ogni prodotto va considerato singolarmente.

2. Ogniqualvolta, conformemente alla regola generale 5 del sistema armonizzato, si considera che l'imballaggio formi un tutto unico con il prodotto ai fini della classificazione, detto imballaggio viene preso in considerazione anche per la determinazione dell'origine.

Articolo 8

Accessori, pezzi di ricambio e utensili

Gli accessori, i pezzi di ricambio e gli utensili che vengono consegnati con un'attrezzatura, una macchina, un apparecchio o un veicolo:

— che fanno parte del suo normale equipaggiamento e il cui prezzo è compreso nel suo, o

— per i quali non viene emessa una fattura distinta,

si considerano un tutto unico con l'attrezzatura, la macchina, l'apparecchio o il veicolo in questione.

Articolo 9

Assortimenti

Gli assortimenti, definiti ai sensi della regola generale 3 del sistema armonizzato, si considerano originari a condizione che tutti i prodotti che li compongono siano originari. Tuttavia, un assortimento composto di prodotti originari e non originari è considerato originario nel suo insieme a condizione che il valore dei prodotti non originari non superi il 15 % del prezzo franco fabbrica dell'assortimento.

Articolo 10

Elementi neutri

Per determinare se un prodotto è originario, non occorre determinare l'origine dei seguenti elementi eventualmente utilizzati per la sua fabbricazione:

a) energia e combustibile;

b) impianti e attrezzature;

c) macchine e utensili;

d) merci che non entrano, né sono destinate a entrare, nella composizione finale dello stesso.

▼B

TITOLO III

REQUISITI TERRITORIALI

Articolo 11

Principio della territorialità

1. Le condizioni enunciate al titolo II relative all'acquisizione del carattere di prodotto originario devono essere rispettate senza interruzione nella Comunità o in Cile.

2. Le merci originarie esportate dalla Comunità o dal Cile verso un altro paese e successivamente reimportate nella Comunità o in Cile devono essere considerate non originarie, a meno che si fornisca alle autorità doganali la prova soddisfacente:

a) che le merci reimportate sono le stesse merci che erano state esportate; e

b) che esse non sono state sottoposte ad alcuna operazione, oltre a quelle necessarie per conservarle in buono stato durante la loro permanenza nel paese in questione o nel corso dell'esportazione.

▼M12

Articolo 12

Trasporto diretto

1. Il trattamento preferenziale previsto dal presente accordo si applica unicamente ai prodotti che soddisfano i requisiti del presente allegato trasportati direttamente tra l'Unione europea e il Cile. Tuttavia il trasporto dei prodotti può effettuarsi attraversando altri territori mediante trasbordo o deposito temporaneo in tali territori, a condizione che i prodotti rimangano sotto la sorveglianza delle autorità doganali del paese di transito o di deposito e non vi subiscano altre operazioni a parte l'aggiunta o l'apposizione di marchi, etichette o sigilli, lo scarico, il ricarico, il frazionamento delle spedizioni o le operazioni destinate a garantirne la conservazione in buono stato.

2. Le disposizioni del paragrafo 1 si presumono rispettate salvo che le autorità doganali abbiano motivo di ritenere il contrario. In tal caso dette autorità possono imporre all'importatore di fornire le prove del rispetto di tali disposizioni: le prove sono presentate in qualsiasi forma appropriata, quali documenti contrattuali di trasporto, ad esempio polizze di carico, o prove fattuali o concrete basate sulla marcatura o la numerazione dei colli o qualsiasi elemento di prova correlato alle merci stesse.

▼B

Articolo 13

Esposizioni

1. I prodotti originari spediti per un'esposizione in un paese diverso dalla Comunità o dal Cile e venduti, dopo l'esposizione, per essere importati nella Comunità o in Cile beneficiano, all'importazione, delle disposizioni del presente accordo, purché sia fornita alle autorità doganali del paese d'importazione la prova soddisfacente che:

a) un esportatore ha inviato detti prodotti dalla Comunità o dal Cile nel paese dell'esposizione e ve li ha esposti;

b) l'esportatore ha venduto o ceduto i prodotti a un destinatario nella Comunità o in Cile;

▼B

c) i prodotti sono stati consegnati nel corso dell'esposizione o subito dopo, nello stato in cui erano stati inviati all'esposizione;

d) dal momento in cui sono stati inviati all'esposizione, i prodotti non sono stati utilizzati per scopi diversi dalla presentazione all'esposizione stessa; e

e) i prodotti sono rimasti sotto controllo doganale per tutta la durata dell'esposizione.

2. Alle autorità doganali del paese d'importazione deve essere presentata, secondo le normali procedure, una prova dell'origine rilasciata o compilata ai sensi delle disposizioni del titolo V, con indicazione della denominazione e dell'indirizzo dell'esposizione. All'occorrenza, può essere richiesta un'ulteriore prova documentale delle condizioni in cui sono stati esposti i prodotti.

3. Il paragrafo 1 si applica a tutte le esposizioni, fiere o manifestazioni pubbliche analoghe di natura commerciale, industriale, agricola o artigianale, diverse da quelle organizzate a fini privati in negozi o locali commerciali per la vendita di prodotti stranieri.

TITOLO IV

RESTITUZIONE O ESENZIONE

Articolo 19

Rilascio dei certificati di circolazione EUR.1 sulla base di una prova dell'origine rilasciata o compilata in precedenza

Se i prodotti originari sono posti sotto il controllo di un ufficio doganale nella Comunità o in Cile, si può sostituire l'originale della prova dell'origine con uno o più certificati di circolazione EUR.1 al fine di inviare tutti i prodotti, o parte di essi, altrove nella Comunità o in Cile. I certificati di circolazione EUR.1 sostitutivi sono rilasciati dall'ufficio doganale del primo ingresso nella Comunità o in Cile, sotto il cui controllo sono posti i prodotti

Articolo 20

Condizioni per la compilazione di una dichiarazione su fattura

1. La dichiarazione su fattura di cui all'articolo 15, paragrafo 1, lettera b), può essere compilata:

a) da un esportatore autorizzato ai sensi dell'articolo 21, oppure

b) da qualsiasi esportatore per qualsiasi spedizione consistente in uno o più colli contenenti prodotti originari il cui valore totale non superi i 6 000 EUR.

2. La dichiarazione su fattura può essere compilata se i prodotti in questione possono essere considerati prodotti originari della Comunità o del Cile e soddisfano gli altri requisiti del presente allegato.

▼B

3. L'esportatore che compila una dichiarazione su fattura dovrà essere pronto a presentare in qualsiasi momento, su richiesta delle autorità doganali o delle autorità governative competenti del paese d'esportazione, tutti i documenti atti a comprovare il carattere originario dei prodotti in questione e l'osservanza degli altri requisiti di cui al presente allegato.

4. La dichiarazione su fattura dev'essere compilata dall'esportatore a macchina, stampigliando o stampando sulla fattura, sulla bolletta di consegna o su altro documento commerciale la dichiarazione il cui testo figura nell'appendice IV, unitamente ai requisiti specifici per la compilazione della dichiarazione.

5. Le dichiarazioni su fattura recano la firma manoscritta originale dell'esportatore. Un esportatore autorizzato ai sensi dell'articolo 21, tuttavia, non è tenuto a firmare tali dichiarazioni, purché egli consegni alle autorità doganali o alle autorità governative competenti del paese d'esportazione un impegno scritto in cui accetta la piena responsabilità di qualsiasi dichiarazione su fattura che lo identifichi come se questa recasse effettivamente la sua firma manoscritta.

6. La dichiarazione su fattura può essere compilata dall'esportatore al momento dell'esportazione dei prodotti cui si riferisce o successivamente, purché sia presentata alle autorità doganali del paese d'importazione non più tardi di due anni dall'importazione dei prodotti cui si riferisce.

Articolo 21

Esportatore autorizzato

1. Le autorità doganali o le autorità governative competenti del paese d'esportazione possono autorizzare qualsiasi esportatore, in seguito denominato «esportatore autorizzato», che effettui frequenti esportazioni di prodotti ai sensi del presente accordo a compilare dichiarazioni su fattura indipendentemente dal valore dei prodotti in questione. L'esportatore che richiede tale autorizzazione deve offrire alle autorità doganali o alle autorità governative competenti tutte le garanzie necessarie per l'accertamento del carattere originario dei prodotti e per quanto riguarda l'osservanza degli altri requisiti del presente allegato.

2. Le autorità doganali o le autorità governative competenti possono conferire lo status di esportatore autorizzato alle condizioni che esse considerano appropriate.

3. Le autorità doganali o le autorità governative competenti attribuiscono all'esportatore autorizzato un numero di autorizzazione doganale da riportare sulla dichiarazione su fattura.

4. Le autorità doganali o le autorità governative competenti controllano l'uso dell'autorizzazione da parte dell'esportatore autorizzato.

5. Le autorità doganali o le autorità governative competenti possono ritirare l'autorizzazione in qualsiasi momento. Esse lo faranno se l'esportatore autorizzato non offre più le garanzie di cui al paragrafo 1, non soddisfa più le condizioni di cui al paragrafo 2 o fa comunque un uso scorretto dell'autorizzazione.

Articolo 22

Validità della prova dell'origine

1. La prova dell'origine di cui all'articolo 15, paragrafo 1 ha una validità di dieci mesi dalla data di rilascio nel paese di esportazione e dev'essere presentata entro tale termine alle autorità doganali del paese d'importazione.

▼B

2. Le prove dell'origine presentate alle autorità doganali del paese d'importazione dopo la scadenza del termine di presentazione di cui al paragrafo 1 possono essere accettate, ai fini dell'applicazione del trattamento preferenziale, quando la mancata presentazione di detti documenti entro il termine è dovuta a circostanze eccezionali.

3. Negli altri casi di presentazione tardiva, le autorità doganali del paese d'importazione possono accettare le prove dell'origine se i prodotti sono stati presentati prima della scadenza di tale termine.

4. Ai sensi della legislazione interna del paese d'importazione, può essere concesso anche un trattamento preferenziale mediante rimborso dei dazi entro un periodo di almeno due anni dalla data di accettazione della dichiarazione d'importazione, purché sia presentata una prova dell'origine da cui risulti che a quella data le merci importate potevano beneficiare di un trattamento doganale preferenziale.

Articolo 23

Presentazione della prova dell'origine

1. Le prove dell'origine sono presentate alle autorità doganali del paese d'importazione secondo le procedure applicabili in tale paese. Dette autorità possono richiedere una traduzione della prova dell'origine redatta dall'importatore e che la dichiarazione di importazione sia accompagnata da una dichiarazione dell'importatore secondo la quale i prodotti soddisfano le condizioni previste per l'applicazione dell'accordo.

2. I requisiti di cui al paragrafo 1 relativi alla traduzione e alla dichiarazione dell'importatore non vengono applicati sistematicamente, ma solo quando è necessario chiarire le informazioni fornite o garantire che l'importatore si assuma l'intera responsabilità dell'origine dichiarata.

Articolo 24

Importazioni con spedizioni scaglionate

Quando, su richiesta dell'importatore e alle condizioni stabilite dalle autorità doganali del paese d'importazione, vengono importati con spedizioni scaglionate prodotti smontati o non assemblati ai sensi della regola generale 2, lettera a) del sistema armonizzato, di cui alle sezioni XVI e XVII o alle voci nn. 7308 e 9406 del sistema armonizzato, per tali prodotti viene presentata alle autorità doganali un'unica prova dell'origine al momento dell'importazione della prima spedizione parziale.

Articolo 25

Esonero dalla prova dell'origine

1. Sono ammessi come prodotti originari, senza che occorra presentare una prova dell'origine, i prodotti oggetto di piccole spedizioni da privati a privati o contenuti nei bagagli personali dei viaggiatori, purché si tratti di importazioni prive di qualsiasi carattere commerciale e i prodotti siano stati dichiarati rispondenti ai requisiti del presente allegato e laddove non sussistano dubbi circa la veridicità di tale dichiarazione. Nel caso di prodotti spediti per posta, detta dichiarazione può essere effettuata sulla dichiarazione in dogana CN22/CN23, su altri certificati predisposti dall'Unione postale universale o su un foglio allegato a questi documenti.

▼B

2. Si considerano prive di qualsiasi carattere commerciale le importazioni che presentano un carattere occasionale e riguardano esclusivamente prodotti riservati all'uso personale dei destinatari, dei viaggiatori o dei loro familiari quando, per loro natura e quantità, consentano di escludere ogni fine commerciale.

3. Inoltre, il valore complessivo dei prodotti non deve superare i 500 EUR se si tratta di piccole spedizioni da privati a privati, oppure i 1 200 EUR se si tratta del contenuto dei bagagli personali dei viaggiatori

Articolo 26

Documenti giustificativi

I documenti di cui all'articolo 16, paragrafo 3, e all'articolo 20, paragrafo 3, utilizzati per dimostrare che i prodotti coperti da un certificato di circolazione EUR.1 o da una dichiarazione su fattura possono essere considerati prodotti originari della Comunità o del Cile e soddisfano gli altri requisiti del presente allegato possono consistere, tra l'altro, in:

a) una prova diretta dei processi svolti dall'esportatore o dal fornitore per ottenere le merci in questione, contenuta per esempio nella sua contabilità interna;

b) documenti comprovanti il carattere originario dei materiali utilizzati, rilasciati o compilati nella Comunità o in Cile, dove tali documenti sono utilizzati conformemente al diritto interno;

c) documenti comprovanti la lavorazione o la trasformazione di cui sono stati oggetto i materiali nella Comunità o in Cile, rilasciati o compilati nella Comunità o in Cile, dove tali documenti sono utilizzati conformemente al diritto interno;

d) certificati di circolazione EUR.1 o dichiarazioni su fattura comprovanti il carattere originario dei materiali utilizzati, rilasciati o compilati nella Comunità o in Cile ai sensi del presente allegato.

Articolo 27

Conservazione delle prove dell'origine e dei documenti giustificativi

1. L'esportatore che richiede il rilascio di un certificato di circolazione EUR.1 deve conservare per almeno tre anni i documenti di cui all'articolo 16, paragrafo 3.

2. L'esportatore che compila una dichiarazione su fattura deve conservare per almeno tre anni una copia di tale dichiarazione su fattura e i documenti di cui all'articolo 20, paragrafo 3.

3. Le autorità doganali o le autorità governative competenti del paese d'esportazione che rilasciano un certificato di circolazione EUR.1 devono conservare per almeno tre anni il formulario di richiesta di cui all'articolo 16, paragrafo 2.

▼B

4. Le autorità doganali della Comunità devono conservare per almeno tre anni i certificati di circolazione EUR.1 e le dichiarazioni su fattura loro presentati al momento dell'importazione. Le autorità doganali del Cile devono tenere a loro disposizione per cinque anni i certificati di circolazione EUR.1 e le dichiarazioni su fattura presentati loro al momento dell'importazione.

Articolo 28

Discordanze ed errori formali

1. La constatazione di lievi discordanze tra le diciture che figurano sulla prova dell'origine e quelle contenute nei documenti presentati all'ufficio doganale per l'espletamento delle formalità d'importazione dei prodotti non comporta di per sé l'invalidità della prova dell'origine se viene regolarmente accertato che tale documento corrisponde ai prodotti presentati.

2. In caso di errori formali evidenti, come errori di battitura, sulla prova dell'origine, il documento non viene respinto se detti errori non sono tali da destare dubbi sulla correttezza delle indicazioni in esso riportate.

Articolo 29

Importi espressi in euro

1. Ai fini dell'applicazione dell'articolo 20, paragrafo 1, lettera b) e dell'articolo 25, paragrafo 3, nei casi in cui i prodotti vengono fatturati in una moneta diversa dall'euro, gli importi nelle monete nazionali degli Stati membri della Comunità o del Cile equivalenti a quelli espressi in euro sono fissati ogni anno da ciascuno dei paesi interessati.

2. Una spedizione beneficia delle disposizioni dell'articolo 20, paragrafo 1, lettera b) o dell'articolo 25, paragrafo 3 in base alla moneta utilizzata nella fattura, in funzione dell'importo fissato dal paese interessato.

3. Gli importi da utilizzare in una determinata moneta nazionale sono il controvalore in questa moneta nazionale degli importi espressi in euro al primo giorno lavorativo del mese di ottobre. Questi importi vengono comunicati alla Commissione delle Comunità europee entro il 15 ottobre e si applicano dal 1º gennaio dell'anno successivo. La Commissione delle Comunità europee notifica gli importi pertinenti a tutti i paesi interessati.

4. Un paese può arrotondare per eccesso o per difetto l'importo risultante dalla conversione nella moneta nazionale di un importo espresso in euro. L'importo arrotondato non può differire di più del 5 % dal risultato della conversione. Un paese può lasciare invariato il controvalore nella moneta nazionale di un importo espresso in euro se, all'atto dell'adeguamento annuale di cui al paragrafo 3, la conversione dell'importo, prima di qualsiasi arrotondamento, non si traduca in un aumento inferiore al 15 % del controvalore in moneta nazionale. Il controvalore in moneta nazionale può restare invariato se la conversione dà luogo a una diminuzione del controvalore stesso.

5. Gli importi espressi in euro vengono riveduti dal Comitato di associazione su richiesta della Comunità o del Cile. Nel procedere a detta revisione, il Comitato di associazione tiene conto altresì di preservare in termini reali gli effetti dei valori limite stabiliti. A tal fine, esso può decidere di modificare gli importi espressi in euro.

▼B

TITOLO VI

MISURE DI COOPERAZIONE AMMINISTRATIVA

Articolo 30

Assistenza reciproca

1. Le autorità doganali o le autorità governative competenti degli Stati membri della Comunità europea e del Cile si comunicano a vicenda, tramite la Commissione delle Comunità europee, il facsimile dell'impronta dei timbri utilizzati nei loro uffici doganali o dalle autorità governative competenti per il rilascio dei certificati di circolazione EUR.1 e l'indirizzo delle autorità doganali o delle autorità governative competenti per il controllo di detti certificati e delle dichiarazioni su fattura.

2. Al fine di garantire la corretta applicazione del presente allegato, la Comunità e il Cile si prestano reciproca assistenza, mediante le loro rispettive amministrazioni, nel controllo dell'autenticità dei certificati di circolazione EUR.1 o delle dichiarazioni su fattura e della correttezza delle informazioni riportate in tali documenti.

Articolo 31

Controllo delle prove dell'origine

1. Il controllo a posteriori delle prove dell'origine è effettuato per sondaggio o ogniqualvolta le autorità doganali del paese di importazione abbiano validi motivi di dubitare dell'autenticità dei documenti, del carattere originario dei prodotti in questione o dell'osservanza degli altri requisiti del presente allegato.

2. Ai fini dell'applicazione delle disposizioni del paragrafo 1, le autorità doganali del paese d'importazione rispediscono alle autorità doganali o alle autorità governative competenti del paese di esportazione il certificato di circolazione EUR.1 e la fattura, se è stata presentata, la dichiarazione su fattura, ovvero una copia di questi documenti, indicando, se del caso, i motivi che giustificano un'inchiesta. A corredo della richiesta di controllo, devono essere inviati tutti i documenti e le informazioni ottenute che facciano sospettare la presenza di inesattezze nelle informazioni relative alla prova dell'origine.

3. Il controllo viene effettuato dalle autorità doganali o dalle autorità governative competenti del paese di esportazione. A tal fine, esse hanno la facoltà di richiedere qualsiasi prova e di procedere a qualsiasi controllo dei conti dell'esportatore o a tutte le altre verifiche che ritengano opportune.

4. Qualora le autorità doganali del paese d'importazione decidano di sospendere la concessione del trattamento preferenziale ai prodotti in questione in attesa dei risultati del controllo, esse offrono all'importatore la possibilità di ritirare i prodotti, riservandosi di applicare le misure cautelari ritenute necessarie.

5. I risultati del controllo devono essere comunicati al più presto alle autorità doganali che lo hanno richiesto, indicando chiaramente se i documenti sono autentici, se i prodotti in questione possono essere considerati originari della Comunità o del Cile e se soddisfano gli altri requisiti del presente allegato.

▼B

6. Qualora, in caso di ragionevole dubbio, non sia pervenuta alcuna risposta entro dieci mesi dalla data della richiesta di controllo o qualora la risposta non contenga informazioni sufficienti per determinare l'autenticità del documento in questione o l'effettiva origine dei prodotti, le autorità doganali che hanno richiesto il controllo li escludono dal trattamento preferenziale, salvo circostanze eccezionali.

Articolo 32

Composizione delle controversie

Le controversie riguardanti le procedure di controllo di cui all'articolo 31 che non sia possibile dirimere tra le autorità doganali che richiedono il controllo e le autorità doganali o le autorità governative competenti incaricate di effettuarlo e i problemi di interpretazione del presente allegato vengono sottoposti al Comitato speciale per la cooperazione doganale e le norme di origine.

La composizione delle controversie tra l'importatore e le autorità doganali del paese d'importazione è comunque soggetta alla legislazione del suddetto paese.

Articolo 33

Sanzioni

In caso di violazione delle disposizioni del presente allegato, possono essere applicate sanzioni a norma della legislazione interna. In particolare, chiunque compili o faccia compilare un documento contenente dati non rispondenti a verità allo scopo di ottenere un trattamento preferenziale per i prodotti è assoggettato a sanzioni.

Articolo 34

Riservatezza

Conformemente alla legislazione interna vigente, ciascuna Parte considera riservate le informazioni fornite a norma del presente allegato da una persona o da un'autorità dell'altra Parte quando quest'ultima le abbia designate come tali. L'accesso a dette informazioni può pertanto essere negato qualora divulgandole si comprometta la protezione degli interessi commerciali della persona che le ha fornite.

Articolo 35

Zone franche

1. La Comunità e il Cile adottano tutte le misure necessarie per evitare che i prodotti scambiati sotto la scorta di una prova dell'origine che sostano durante il trasporto in una zona franca situata nel loro territorio siano oggetto di sostituzioni o di trasformazioni diverse dalle normali operazioni destinate ad evitarne il deterioramento.

2. In deroga al paragrafo 1, qualora prodotti originari della Comunità o del Cile importati in una zona franca del paese d'esportazione sotto la scorta di una prova dell'origine siano oggetto di lavorazioni o trasformazioni, le autorità competenti rilasciano, su richiesta dell'esportatore, un nuovo certificato di circolazione EUR.1 se la lavorazione o la trasformazione subita è conforme alle disposizioni del presente allegato.

La prima colonna indica la voce o il numero del capitolo del sistema armonizzato, mentre la seconda riporta la designazione delle merci usata in detto sistema per tale voce o capitolo. Ad ogni prodotto menzionato nelle prime due colonne corrisponde una regola nelle colonne 3 o 4. In alcuni casi, la voce che figura nella prima colonna è preceduta da «ex»; ciò significa che le regole delle colonne 3 o 4 si applicano soltanto alla parte di voce o di capitolo descritta nella colonna 2.

2.2. Quando nella colonna 1 compaiono più voci raggruppate insieme, o il numero di un capitolo, e di conseguenza la designazione dei prodotti nella colonna 2 è espressa in termini generali, le corrispondenti regole delle colonne 3 o 4 si applicano a tutti i prodotti che nel sistema armonizzato sono classificati nelle voci del capitolo o in una delle voci raggruppate nella colonna 1.

2.3. Quando nell'elenco compaiono più regole applicabili a diversi prodotti classificati nella stessa voce, ciascun trattino riporta la designazione della parte di voce cui si applicano le corrispondenti regole delle colonne 3 o 4.

2.4. Se a un prodotto menzionato nelle prime due colonne corrisponde una regola sia nella colonna 3, sia nella colonna 4, l'esportatore può scegliere, in alternativa, di applicare la regola della colonna 3 o quella della colonna 4. Se nella colonna 4 non è riportata alcuna regola d'origine, si deve applicare la regola della colonna 3.

Nota 3:

3.1. Le disposizioni dell'articolo 5 del presente allegato relative ai prodotti che hanno acquisito il carattere di prodotto originario utilizzati nella fabbricazione di altri prodotti si applicano indipendentemente dal fatto che tale carattere sia stato acquisito nello stabilimento industriale dove sono utilizzati tali prodotti o in un altro stabilimento nella Comunità o in Cile.

Ad esempio:

Un motore della voce 8407, per il quale la regola d'origine impone che il valore dei materiali non originari incorporati non deve superare il 40 % del prezzo franco fabbrica, è ottenuto da «sbozzi di forgia di altri acciai legati» della voce ex 7224.

Se la forgiatura è stata effettuata nella Comunità a partire da un lingotto non originario, il pezzo forgiato ha già ottenuto il carattere di prodotto originario conformemente alla regola dell'elenco per la voce ex 7224. Pertanto esso si può considerare originario nel calcolo del valore del motore, indipendentemente dal fatto che sia stato ottenuto nello stesso stabilimento industriale o in un altro stabilimento nella Comunità. Nell'addizionare il valore dei materiali non originari utilizzati, quindi, non si tiene conto del valore del lingotto non originario.

3.2. La regola dell'elenco specifica la lavorazione o trasformazione minima richiesta; anche l'esecuzione di lavorazioni o trasformazioni più complesse, quindi, conferisce il carattere di prodotto originario, mentre l'esecuzione di lavorazioni o trasformazioni inferiori non può conferire tale carattere. Pertanto, se una regola autorizza l'impiego di un materiale non originario a un certo stadio di lavorazione, l'impiego di tale materiale negli stadi di lavorazione precedenti è autorizzato, ma l'impiego del materiale in uno stadio successivo non lo è.

▼B

3.3. Fermo restando quanto disposto alla nota 3.2, quando una regola autorizza l'impiego di «materiali di qualsiasi voce», si possono utilizzare anche materiali della stessa voce del prodotto, fatte salve le limitazioni specifiche eventualmente indicate nella regola stessa.

Tuttavia, l'espressione «fabbricazione a partire da materiali di qualsiasi voce, compresi gli altri materiali della voce …» significa che si possono utilizzare materiali classificati nella stessa voce del prodotto solo se corrispondono a una designazione diversa dalla designazione del prodotto riportata nella colonna 2 dell'elenco.

3.4. Quando una regola dell'elenco specifica che un prodotto può essere fabbricato a partire da più materiali, ciò significa che è ammesso l'uso di uno o più materiali. Ovviamente, ciò non significa che tutti questi materiali debbano essere utilizzati simultaneamente.

Ad esempio:

La regola per i tessuti di cui alle voci SA da 5208 a 5212 autorizza l'impiego di fibre naturali nonché tra l'altro, di sostanze chimiche. Ciò non significa che si devono utilizzare le une e le altre, bensì che si possono usare le une, le altre, oppure le une e le altre.

3.5. Se una regola dell'elenco specifica che un prodotto dev'essere fabbricato a partire da un determinato materiale, tale condizione non vieta ovviamente l'impiego di altri materiali che, per loro natura, non possono rispettare questa regola (cfr. anche la nota 6.2. per quanto riguarda i tessili).

Ad esempio:

La regola per le preparazioni alimentari della voce 1904, che esclude specificamente l'uso di cereali e loro derivati, non impedisce l'uso di sali minerali, sostanze chimiche e altri additivi che non sono prodotti a partire da cereali.

Tuttavia, ciò non si applica ai prodotti che, pur non potendo essere ottenuti a partire dal particolare materiale specificato nell'elenco, possono essere prodotti a partire da un materiale della stessa natura ad uno stadio precedente di lavorazione.

Ad esempio:

Nel caso di un indumento dell'ex capitolo 62 fabbricato con materiali non tessuti, se è previsto che questo tipo di articolo possa essere ottenuto unicamente a partire da filati non originari, non è possibile utilizzare «tessuti non tessuti», nemmeno se questi ultimi non possono essere normalmente ottenuti da filati. In tal caso, il materiale di partenza da utilizzare dovrebbe normalmente trovarsi ad uno stadio precedente al filato, cioè allo stadio di fibra.

3.6. Se una regola dell'elenco autorizza l'impiego di materiali non originari, indicando due percentuali del loro tenore massimo, tali percentuali non sono cumulabili. In altri termini, il tenore massimo di tutti i materiali non originari impiegati non può mai eccedere la percentuale più elevata fra quelle indicate. È ovvio che le percentuali specifiche applicabili a prodotti particolari non devono essere superate a causa di queste disposizioni.

▼B

Nota 4:

4.1. Quando viene utilizzata nell'elenco, l'espressione «fibre naturali» definisce le fibre diverse da quelle artificiali o sintetiche e deve essere limitata alle fibre che si trovano in un qualsiasi stadio precedente alla filatura, compresi i cascami; salvo diversa indicazione, inoltre, l'espressione «fibre naturali» comprende le fibre che sono state cardate, pettinate o altrimenti preparate, ma non filate.

4.2. Il termine «fibre naturali» comprende i crini della voce 0503, la seta delle voci 5002 e 5003 nonché le fibre di lana, i peli fini o grossolani di animali delle voci da 5101 a 5105, le fibre di cotone delle voci da 5201 a 5203 e le altre fibre vegetali delle voci da 5301 a 5305.

4.3. Nell'elenco, le espressioni «pasta tessile», «sostanze chimiche» e «materiali per la fabbricazione della carta» designano i materiali che non sono classificati nei capitoli 50-63 e che possono essere utilizzati per fabbricare fibre e filati sintetici o artificiali e filati o fibre di carta.

4.4. Nell'elenco, per «fibre in fiocco sintetiche o artificiali» si intendono i fasci di filamenti, le fibre in fiocco o i cascami sintetici o artificiali delle voci da 5501 a 5507.

Nota 5:

5.1. Se per un dato prodotto dell'elenco si fa riferimento alla presente nota, le condizioni indicate nella colonna 3 non si applicano ad alcun materiale tessile di base utilizzato nella fabbricazione di tale prodotto che rappresenti globalmente non più del 10 % del peso totale di tutti i materiali tessili di base usati (cfr. anche le note 5.3 e 5.4).

5.2. Tuttavia, la tolleranza di cui alla nota 5.1 si applica esclusivamente ai prodotti misti nella cui composizione entrano due o più materiali tessili di base.

Per materiali tessili di base si intendono i seguenti:

— seta;

— lana;

— peli grossolani di animali;

— peli fini di animali;

— crine di cavallo;

— cotone;

— carta e materiali per la fabbricazione della carta;

— lino;

— canapa;

— iuta ed altre fibre tessili liberiane;

— sisal ed altre fibre tessili del genere Agave;

▼B

— cocco, abaca, ramiè ed altre fibre tessili vegetali;

— filamenti sintetici;

— filamenti artificiali;

— fibre sintetiche in fiocco di polipropilene;

— fibre sintetiche in fiocco di poliestere;

— fibre sintetiche in fiocco di poliammide;

— fibre sintetiche in fiocco di poliacrilonitrile;

— fibre sintetiche in fiocco di poliammide;

— fibre sintetiche in fiocco di politetrafluoroetilene;

— fibre sintetiche in fiocco di polisolfuro di fenilene;

— fibre sintetiche in fiocco di cloruro di polivinile;

— altre fibre sintetiche in fiocco;

— fibre artificiali in fiocco di viscosa;

— altre fibre artificiali in fiocco;

— filati di poliuretano segmentato con segmenti flessibili di poliestere, anche rivestiti;

— filati di poliuretano segmentato con segmenti flessibili di poliestere, anche rivestiti;

— prodotti di cui alla voce 5605 (filati metallici e filati metallizzati) nella cui composizione entra un nastro consistente di un'anima di lamina di alluminio, oppure di un'anima di pellicola di materia plastica, anche ricoperta di polvere di alluminio, di larghezza non superiore a 5 mm, inserita mediante incollatura con adesivo trasparente o colorato tra due pellicole di plastica;

— altri prodotti di cui alla voce 5605.

Ad esempio:

Un filato della voce 5205 ottenuto da fibre di cotone della voce 5203 e da fibre sintetiche in fiocco della voce 5506 è un filato misto. La massima percentuale utilizzabile di fibre sintetiche in fiocco non originarie che non soddisfano le norme di origine (che richiedono una fabbricazione a partire da sostanze chimiche o da pasta tessile) corrisponde pertanto al 10 %, in peso, del filato.

Ad esempio:

Un tessuto di lana della voce 5112 ottenuto da filati di lana della voce 5107 e da filati di fibre sintetiche in fiocco della voce 5509 è un tessuto misto. Si possono quindi utilizzare filati sintetici che non soddisfano le norme di origine (che richiedono una fabbricazione a partire da sostanze chimiche o da pasta tessile), o filati di lana che non soddisfano le norme di origine (che richiedono una fabbricazione a partire da fibre naturali, non cardate né pettinate né altrimenti preparate per la filatura), o una combinazione di entrambi, purché il loro peso totale non superi il 10 % del peso del tessuto.

▼B

Ad esempio:

Una superficie tessile «tutfed» della voce 5802 ottenuta da filati di cotone della voce 5205 e da tessuti di cotone della voce 5210 è un prodotto misto solo se il tessuto di cotone è esso stesso un tessuto misto ottenuto da filati classificati in due voci separate, oppure se i filati di cotone usati sono essi stessi misti.

Ad esempio:

Ovviamente, se la stessa superficie tessile «tufted» fosse stata ottenuta da filati di cotone della voce 5205 e da tessuti sintetici della voce 5407, la superficie tessile «tufted» sarebbe un prodotto misto poiché si tratta di due materiali tessili di base diversi.

5.3. Nel caso di prodotti nella cui composizione entrano «filati di poliuretano segmentato con segmenti flessibili di poliestere, anche rivestiti», la tolleranza è del 20 % per tali filati.

5.4. Nel caso di prodotti nella cui composizione entra del «nastro consistente di un'anima di lamina di alluminio, oppure di un'anima di pellicola di materia plastica, anche ricoperta di polvere di alluminio, di larghezza non superiore a 5 mm, inserita mediante incollatura tra due pellicole di plastica,» la tolleranza per tale nastro è del 30 %.

Nota 6:

6.1. Nel caso dei prodotti tessili in corrispondenza dei quali figura nell'elenco una nota a piè di pagina che rinvia alla presente nota, si possono utilizzare materiali tessili, escluse le fodere e le controfodere, che non soddisfano la regola indicata nella colonna 3 per il prodotto finito in questione, purché siano classificati in una voce diversa da quella del prodotto e il loro valore non superi l'8 % del prezzo franco fabbrica del prodotto.

6.2. Fatto salvo quanto disposto alla nota 6.3, i materiali non classificati nei capitoli 50-63, contenenti o meno materiali tessili, possono essere utilizzati liberamente nella fabbricazione di prodotti tessili.

Ad esempio:

Se una regola dell'elenco richiede per un prodotto tessile specifico, come i pantaloni, l'utilizzazione di filati, ciò non vieta l'uso di articoli metallici come i bottoni, poiché questi non sono classificati nei capitoli 50-63, né l'uso di cerniere lampo, anche se normalmente le chiusure lampo contengono tessili.

6.3. Qualora si applichi una regola di percentuale, nel calcolo del valore dei materiali non originari incorporati si deve tener conto del valore dei materiali non classificati nei capitoli 50-63.

Nota 7:

7.1. I «trattamenti specifici» relativi alle voci ex 2707, da 2713 a 2715, ex 2901, ex 2902 ed ex 3403 consistono nelle seguenti operazioni:

Non sono invece considerati trattamenti specifici i trattamenti di rifinitura all'idrogeno di oli lubrificanti della voce ex 2710, aventi in particolare lo scopo di migliorare il colore o la stabilità (ad esempio l'«hydrofinishing» o la decolorazione);

n) solo per gli oli combustibili della voce ex 2710, distillazione atmosferica, purché tali prodotti distillino in volume, comprese le perdite, meno di 30 % a 300 °C, secondo il metodo ASTM D 86;

7.3. Ai sensi delle voci ex 2707, da 2713 a 2715, ex 2901, ex 2902 e ex 3403, le operazioni semplici quali la pulitura, la decantazione, la desalificazione, la disidratazione, il filtraggio, la colorazione, la marcatura, l'ottenimento di un tenore di zolfo mescolando prodotti con tenori di zolfo diversi, qualsiasi combinazione di queste operazioni o di operazioni analoghe non conferiscono l'origine.

7.4. Per ridistillazione mediante un processo di frazionamento molto spinto si intende la distillazione (diversa dalla predistillazione) mediante un processo continuo o discontinuo utilizzata negli impianti industriali che usano i distillati delle sottovoci 2710 00, 2711 11, da 2711 12 a 2711 19, 2711 21 e 2711 29 (diverso dal propano di purezza uguale o superiore al 99 per cento) per ottenere:

1. Idrocarburi isolati a elevata purezza (uguale o superiore al 90 %, nel caso di olefine, o uguale o superiore al 95 %, nel caso degli altri idrocarburi), miscele di isomeri che presentano la stessa composizione organica, considerati idrocarburi isolati;

   Sono ammissibili esclusivamente i processi mediante i quali è possibile ottenere almeno tre diversi prodotti. Tuttavia, se il processo consiste nella separazione di isomeri, tale restrizione non si applica. Nel caso degli xileni, l'etilbenzene è incluso tra gli isomeri dello xilene;

2. Prodotti delle sottovoci da 2707 10 a 2707 30, 2707 50 e da 2710 11 a 2710 99:

   a) senza sovrapposizione tra il punto finale di ebollizione di una frazione e il punto iniziale di ebollizione della frazione successiva e con meno di 60 °C di differenza tra le temperature a cui distillano il 5 e il 90 per cento del loro volume (comprese le perdite) secondo il metodo ASTM D 86-67 (riapprovato nel 1972);

   b) con sovrapposizione tra il punto finale di ebollizione di una frazione e il punto iniziale di ebollizione della frazione successiva e con meno di 30 °C di differenza tra le temperature a cui distillano il 5 e il 90 per cento del loro volume (comprese le perdite) secondo il metodo ASTM D 86-67 (riapprovato nel 1972).

Appendice IV

REGIONALIZZAZIONE

A. **Malattie degli animali e dei pesci**

1. *Malattie animali*

Il riconoscimento dello status di una Parte o di una regione per quanto riguarda le malattie degli animali si basa sul codice zoosanitario internazionale dell'UIE: «Riconoscimento dell'immunità di un paese o di una zona dalle malattie/infezioni e sistemi di sorveglianza epidemiologica».

Le decisioni di regionalizzazione riguardanti una malattia animale si basano sul codice zoosanitario internazionale dell'UIE: «Regionalizzazione».

2. *Malattie connesse all'acquacoltura*

Le decisioni di regionalizzazione riguardanti le malattie connesse all'acquacoltura si basano sul codice sanitario internazionale per gli animali acquatici dell'UIE.

B. **Parassiti**

I criteri applicati per definire una regione immune da determinati parassiti devono conformarsi:

— alla norma internazionale FAO per le misure fitosanitarie n. 4, denominata «Requisiti per lo stabilimento delle zone immuni dai parassiti», e alle definizioni pertinenti contenute nella norma internazionale FAO per le misure fitosanitarie n. 5 denominata «Glossario fitosanitario»; o

— all'articolo 2, paragrafo 1, lettera h) della direttiva 2000/29/CE del Consiglio.

C. **Criteri per il riconoscimento dello status speciale del territorio o di una regione di una Parte per quanto riguarda le malattie degli animali**

1. Se una Parte importatrice ritiene che il proprio territorio o parte del proprio territorio sia immune da una malattia animale non elencata nell'appendice III A, presenta alla Parte esportatrice la documentazione giustificativa appropriata, precisando in particolare:

— la natura della malattia e la cronistoria della sua comparsa sul proprio territorio,

— i risultati dei test di controllo basati su indagini sierologiche, microbiologiche, patologiche o epidemiologiche e sull'obbligo, imposto dalla legge, di notificare la malattia alle autorità competenti,

— il periodo durante il quale è stato effettuato il controllo,

— se del caso, il periodo durante il quale è stata vietata la vaccinazione contro la malattia e la zona geografica oggetto del divieto,

— le modalità che consentono di controllare l'assenza della malattia.

▼B

2. Le garanzie complementari, generali o limitate, che possono essere richieste dalla Parte importatrice non devono superare quelle applicate da quest'ultima a livello nazionale.

3. Le Parti si comunicano tutte le modifiche dei criteri di cui al paragrafo 1 riguardanti la malattia. Le garanzie complementari definite al paragrafo 2 possono essere modificate o ritirate, in funzione delle modifiche suddette, dal comitato di cui all'articolo 16 del presente accordo.

Appendice V

SETTORI O SOTTOSETTORI PRIORITARI PER I QUALI PUÒ ESSERE RICONOSCIUTA L'EQUIVALENZA; CONDIZIONI E DISPOSIZIONI PER L'APPROVAZIONE PROVVISORIA DEGLI STABILIMENTI

A. Settori o sottosettori prioritari per i quali può essere riconosciuta l'equivalenza, per ordine di priorità

Elenco delle priorità di cui all'articolo 7, paragrafo 4, che sarà completato dal comitato di cui all'articolo 16.

B. Condizioni e disposizioni per l'approvazione provvisoria degli stabilimenti

1. Si parla di approvazione provvisoria degli stabilimenti quando la Parte importatrice approva provvisoriamente, a fini di importazione, gli stabilimenti della Parte esportatrice, basandosi su garanzie appropriate fornite da quest'ultima, senza ispezione preliminare dei singoli stabilimenti a norma del paragrafo 4. Le Parti modificano o completano, secondo la stessa procedura e alle stesse condizioni, gli elenchi di cui al paragrafo 2 in funzione delle nuove domande e garanzie ricevute.

   La verifica può far parte della procedura di cui al paragrafo 4, lettera d) solo per l'elenco iniziale degli stabilimenti.

2. L'approvazione provvisoria si limita inizialmente alle seguenti categorie di stabilimenti:

   Macelli per le carni fresche delle specie domestiche (appendice IA.2.I)

   Tutti gli stabilimenti, tranne i macelli, per le carni fresche delle specie domestiche

   Tutti gli stabilimenti per le carni fresche di selvaggina, anche d'allevamento

   Tutti gli stabilimenti per le carni di pollame

   Tutti gli stabilimenti per i prodotti di carne di tutte le specie

   Tutti gli stabilimenti per gli altri prodotti di origine animale destinati all'alimentazione umana (involucri, preparazioni a base di carne, carne macinata)

▼B

3. La Parte importatrice compila gli elenchi degli stabilimenti approvati provvisoriamente e li mette a disposizione del pubblico.

4. Condizioni e procedure di approvazione provvisoria

a) l'importazione dalla Parte esportatrice del prodotto animale deve essere stata autorizzata dalla Parte importatrice; devono inoltre essere stati definiti le condizioni e i requisiti di certificazione per i prodotti in questione;

b) l'autorità competente della Parte esportatrice deve aver fornito alla Parte importatrice garanzie sufficienti relative alla conformità degli stabilimenti ripresi nel suo elenco/nei suoi elenchi con i requisiti sanitari della Parte importatrice e deve aver approvato ufficialmente lo stabilimento che figura sugli elenchi per l'esportazione nella Parte importatrice; e

c) l'autorità competente della Parte esportatrice deve essere realmente abilitata a sospendere le esportazioni nella Parte importatrice da uno stabilimento per il quale detta autorità ha fornito garanzie in caso di inosservanza delle stesse;

d) le verifiche eseguite dalla Parte importatrice a norma dell'articolo 10 dell'accordo possono far parte della procedura di approvazione provvisoria. Tali verifiche riguardano la struttura e l'organizzazione dell'autorità competente responsabile dell'approvazione dello stabilimento, nonché i poteri conferiti a detta autorità e le garanzie che può fornire in merito all'applicazione delle norme della Parte importatrice. Si può procedere in questo ambito anche a ispezioni in loco presso un numero rappresentativo di stabilimenti che figurano sull'elenco o sugli elenchi della Parte esportatrice.

Considerate la struttura specifica e la suddivisione delle competenze nella Comunità, la verifica suddetta può riguardare, nella Comunità, anche i singoli Stati membri.

e) La Parte importatrice può modificare l'elenco degli stabilimenti in base ai risultati della verifica di cui alla lettera d).

Appendice VI

PROCESSO DI DETERMINAZIONE DELL'EQUIVALENZA

1. **Principi**

a) L'equivalenza può essere riconosciuta in relazione ad una o più misure e/o ad uno o più gruppi di misure e/o sistemi applicabili a un determinato prodotto o a determinate categorie di prodotti.

b) L'esame, ad opera della Parte importatrice, dell'equivalenza di una richiesta della Parte esportatrice riguardante il riconoscimento delle sue misure per un prodotto specifico non deve dar luogo a perturbazioni degli scambi o alla sospensione delle importazioni del prodotto in questione dalla Parte esportatrice.

c) La determinazione dell'equivalenza delle misure è un processo interattivo tra la Parte esportatrice e la Parte importatrice. La prima dimostra obiettivamente l'equivalenza delle singole misure e la seconda valuta obiettivamente tale dimostrazione per riconoscere, eventualmente, l'equivalenza.

d) Il riconoscimento finale dell'equivalenza delle misure della Parte esportatrice è di esclusiva competenza della Parte importatrice.

2. **Condizioni preliminari**

a) La Parte esportatrice può avviare il processo di determinazione dell'equivalenza solo se figura sull'elenco dei paesi riconosciuti dalla Parte importatrice ai fini dell'importazione del prodotto per il quale si chiede l'equivalenza. L'elenco viene compilato in base alla situazione sanitaria o allo status per quanto riguarda i parassiti, alla legislazione e all'efficacia del sistema d'ispezione e di controllo del prodotto nella Parte esportatrice. A tal fine, si tiene conto della legislazione vigente nel settore e della struttura dell'autorità competente della Parte esportatrice, delle sue attribuzioni e dei suoi poteri, delle sue procedure operative e delle risorse disponibili, dell'efficienza delle autorità competenti per quanto riguarda i sistemi d'ispezione e di controllo, compreso il suo livello di esecuzione connesso al prodotto, nonché della regolarità e della rapidità delle informazioni fornite dalla Parte importatrice in caso di individuazione di pericoli. Tale riconoscimento può essere sostenuto da documenti, verifiche e precedenti esperienze documentate.

b) Le Parti avviano il processo di determinazione dell'equivalenza in base alle priorità di cui all'appendice V.A.

c) La Parte esportatrice avvia il processo solo se la Parte importatrice non le applica misure di salvaguardia per quanto concerne il prodotto in questione.

3. **Il processo**

a) La Parte esportatrice avvia il processo presentando alla Parte importatrice una domanda di riconoscimento dell'equivalenza di una singola misura e/o gruppi di misure e/o sistemi per un prodotto o una categoria di prodotti di un settore o di un sottosettore.

b) Se del caso, nella domanda si richiede anche la documentazione necessaria perché la Parte importatrice approvi, sulla base dell'equivalenza, tutti i programmi o piani della Parte esportatrice a cui la Parte importatrice subordina l'importazione del prodotto in questione (piano di controllo dei residui, ecc.).

▼B

c) Nel presentare la domanda, la Parte esportatrice:

i) spiega l'importanza del prodotto in questione per il commercio;

ii) individua la o le singole misure a cui può conformarsi tra tutte quelle indicate nelle condizioni d'importazione della Parte importatrice applicabili al prodotto in questione;

iii) individua la o le singole misure per le quali chiede l'equivalenza tra tutte quelle indicate nelle condizioni d'importazione della Parte importatrice applicabili al prodotto in questione.

d) Una volta ricevuta la domanda, la Parte importatrice spiega l'obiettivo globale e individuale nonché la giustificazione della o delle misure, compresa l'identificazione dei rischi.

e) La Parte importatrice informa inoltre la Parte esportatrice del nesso esistente tra le sue misure interne e le condizioni d'importazione per il prodotto in questione.

f) La Parte esportatrice dimostra obiettivamente alla Parte importatrice che le misure identificate sono equivalenti alle condizioni d'importazione per il prodotto in questione.

g) La Parte importatrice valuta obiettivamente la dimostrazione dell'equivalenza della Parte esportatrice.

h) La Parte importatrice decide se sia stata ottenuta l'equivalenza.

i) Su richiesta della Parte esportatrice, la Parte importatrice le fornisce tutte le spiegazioni e i dati che hanno motivano la sua determinazione e la sua decisione.

4. **Dimostrazione dell'equivalenza delle misure ad opera della Parte esportatrice e valutazione di questa dimostrazione ad opera della Parte importatrice**

a) La Parte esportatrice dimostra obiettivamente l'equivalenza per ciascuna delle misure identificate della Parte importatrice conformemente alle condizioni d'importazione. Se del caso, l'equivalenza viene dimostrata obiettivamente per tutti i programmi e piani a cui la Parte importatrice subordina l'importazione del prodotto in questione (piano di controllo dei residui, ecc.).

b) La dimostrazione e la valutazione obiettive eseguite in questo contesto devono basarsi, per quanto possibile:

— su norme riconosciute a livello internazionale e/o

— su norme fondate su solide prove scientifiche e/o

— sulla valutazione dei rischi e/o

— su precedenti esperienze obiettive e documentate,

— sullo status giuridico o sul livello di status amministrativo delle misure, e

— sul livello di applicazione dimostrato, in particolare:

— dai risultati dei programmi di sorveglianza e di monitoraggio,

— dai risultati delle ispezioni della Parte esportatrice,

— dai risultati di analisi effettuate secondo metodi riconosciuti,

▼B

— dai risultati delle verifiche e dei controlli all'importazione della Parte importatrice,

— dall'operato delle autorità competenti della Parte esportatrice e

— da esperienze precedenti.

5. **Decisione della Parte importatrice**

In caso di conclusione negativa, la Parte importatrice la comunica alla Parte esportatrice fornendo le debite spiegazioni.

Appendice VII

ORIENTAMENTI PER LE VERIFICHE

Le verifiche possono consistere in verifiche e/o controlli in loco.

Ai fini della presente appendice si applicano le seguenti definizioni:

a) «verificato»: la Parte oggetto della verifica;

b) «verificatore»: la Parte che esegue la verifica.

1. **Principi generali applicabili alle verifiche**

1.1. Le verifiche devono essere eseguite in collaborazione tra «verificatore» e «verificato» ai sensi delle disposizioni della presente appendice.

1.2. Le verifiche servono ad accertare l'efficacia dei controlli del verificato anziché a respingere singoli animali, gruppi di animali, spedizioni degli stabilimenti alimentari o partite singole di vegetali o di prodotti vegetali. Qualora una verifica evidenzi un grave rischio per la salute degli animali, dei vegetali o delle persone, il verificato adotta immediatamente misure correttive. Il procedimento può comprendere un esame della normativa pertinente e dei metodi di applicazione, una valutazione del risultato finale e del livello di conformità e conseguenti azioni correttive.

1.3. La frequenza delle verifiche dipende dalla conformità accertata. Un basso livello di conformità darà luogo a verifiche più frequenti, e il verificato dovrà adottare misure correttive che soddisfino il verificatore.

1.4. Per le verifiche e le relative decisioni si procede in modo trasparente e coerente.

2. **Principi applicabili al verificatore**

I verificatori devono preparare, possibilmente attenendosi alle norme internazionali riconosciute, un piano che contenga:

2.1. l'oggetto, l'accuratezza e la portata della verifica;

2.2. la data e il luogo della verifica, con un calendario che vada fino alla relazione finale compresa;

2.3. la lingua o le lingue della verifica e della relazione;

2.4. l'identità dei verificatori, compreso il nome del capo qualora si lavori in équipe. Possono essere richieste competenze professionali specifiche per la verifica di sistemi e programmi specializzati;

2.5. un calendario delle riunioni con i funzionari e delle visite agli stabilimenti o alle infrastrutture, senza bisogno di specificare anticipatamente gli stabilimenti o le strutture da visitare;

2.6. fatte salve le disposizioni sulla libertà dell'informazione, il verificatore deve rispettare la riservatezza commerciale. Vanno inoltre evitati i conflitti d'interessi;

▼B

2.7. rispetto delle norme riguardanti la salute e la sicurezza sul posto di lavoro e i diritti dell'operatore. Il piano deve essere esaminato anticipatamente con i rappresentanti del verificato.

3. **Principi applicabili al verificato**

Per agevolare la verifica, il verificato deve attenersi ai seguenti principi:

3.1. Cooperare pienamente con il verificatore e nominare il personale incaricato di queste funzioni. La cooperazione comprende:

— l'accesso a tutti i regolamenti e a tutte le norme,

— l'accesso ai programmi di conformità, nonché a tutti i registri e documenti pertinenti,

— l'accesso alle relazioni sui controlli e sulle ispezioni,

— la documentazione sulle misure correttive e sulle sanzioni,

— l'agevolazione dell'accesso agli stabilimenti.

3.2. Il verificato deve attuare un programma documentato per dimostrare al verificatore che le norme vengono rispettate in modo coerente e uniforme.

4. **Procedure**

4.1. *Riunione di apertura*

Durante la riunione di apertura, a cui partecipano i rappresentanti delle Parti, il verificatore esamina il piano di verifica e conferma la disponibilità delle risorse, della documentazione e degli altri mezzi necessari per la verifica.

4.2. *Esame dei documenti*

L'esame può riguardare i documenti e i registri di cui al paragrafo 3.1, le strutture e i poteri del verificato nonché tutte le modifiche rilevanti apportate ai sistemi di ispezione e di certificazione dopo l'entrata in vigore del presente accordo o dopo la verifica precedente, in particolare l'applicazione dei vari elementi del sistema di ispezione e di certificazione per gli animali, i prodotti animali, i vegetali o i prodotti vegetali che presentano un interesse, compreso l'esame dei registri e dei documenti di ispezione e di certificazione.

4.3. *Controlli in loco*

4.3.1. La decisione di ricorrere a questo tipo di controlli deve essere presa in base ad una valutazione dei rischi, tenendo conto di fattori quali gli animali, i prodotti animali, i vegetali o i prodotti vegetali in questione, la conformità del settore industriale o del paese esportatore con i requisiti, il volume dei prodotti fabbricati e importati/esportati, i cambiamenti infrastrutturali e i sistemi nazionali di ispezione e di certificazione.

4.3.2. I controlli in loco possono comprendere visite agli stabilimenti di produzione e di fabbricazione, dei locali di trattamento o di stoccaggio dei prodotti alimentari e dei laboratori di controllo onde verificare l'esattezza delle informazioni contenute nei documenti di cui al paragrafo 4.2.

▼B

4.4. *Verifica a posteriori*

È probabile che, in caso di verifica a posteriori, basti esaminare i punti per i quali erano state riscontrate carenze a cui occorreva ovviare.

5. **Documenti di lavoro**

I formulari utilizzati per rendere note le risultanze e le conclusioni dei controlli devono essere per quanto possibile standardizzati ai fini di una verifica più uniforme, trasparente ed efficace. Fra i documenti di lavoro può figurare anche l'elenco degli elementi da valutare, tra cui:

— la legislazione,

— la struttura e il funzionamento dei servizi di ispezione e di certificazione,

— informazioni dettagliate e procedure operative dello stabilimento (statistiche sanitarie, piani di campionamento e risultati),

— misure e procedure di conformità,

— procedure di rendicontazione e di reclamo, e

— programmi di formazione.

6. **Riunione di chiusura**

Alla riunione di chiusura partecipano i rappresentanti delle Parti compresi, se del caso, i funzionari responsabili dei programmi nazionali di ispezione e di certificazione. A tale riunione il controllore espone i risultati della verifica in modo chiaro e conciso affinché risultino comprensibili. Il verificato elabora un piano d'azione per ovviare alle carenze individuate, indicando possibilmente le date di completamento.

7. **Relazione**

Il progetto di relazione sulla verifica viene trasmesso al verificato entro venti giorni lavorativi. Il verificato dispone di venticinque giorni lavorativi per fare commenti in proposito. Le sue osservazioni vengono allegate e, se del caso, incorporate alla relazione finale. Quando però durante la verifica sia stato accertato un grave rischio per la salute delle persone, degli animali o delle piante, il verificato viene informato prima possibile e comunque entro dieci giorni lavorativi dalla fine della verifica.

Appendice VIII

CONTROLLI ALL'IMPORTAZIONE E DIRITTI D'ISPEZIONE

A. **Principi dei controlli all'importazione**

I controlli all'importazione consistono in controlli documentari, controlli d'identità e controlli fisici

Per quanto riguarda gli animali e i prodotti animali, i controlli fisici e la loro frequenza vengono decisi in funzione dei rischi associati a tali importazioni.

Nel procedere ai controlli fitosanitari, la Parte importatrice si accerta che i vegetali, i prodotti vegetali, le altre merci e i rispettivi imballaggi vengano ispezionati meticolosamente a livello ufficiale, integralmente o a campione. All'occorrenza, si ispezionano meticolosamente e ufficialmente anche i veicoli che trasportano le merci suddette per accertarsi, nei limiti del possibile, che non siano infestati da parassiti.

Qualora i controlli evidenzino la non conformità con le norme e/o i requisiti pertinenti, la Parte importatrice prende provvedimenti ufficiali commisurati al rischio. Nei limiti del possibile, si dà all'importatore o al suo rappresentante la possibilità di accedere alla spedizione e di fornire tutte le informazioni utili per aiutare la Parte importatrice a prendere la decisione finale, che deve essere commisurata al rischio.

Appendice IX

CERTIFICAZIONE

A. **Principi della certificazione**

Vegetali, prodotti vegetali e altre merci:

Le autorità competenti applicano, per la certificazione dei vegetali, dei prodotti vegetali e delle altre merci, i principi contenuti nelle norme internazionali FAO per le misure fitosanitarie n. 7, «Sistema di certificazione delle esportazioni», e n. 12, «Orientamenti per i certificati fitosanitari».

Animali e prodotti animali

1. Le autorità competenti delle Parti si accertano che i funzionari certificanti abbiano una conoscenza soddisfacente della legislazione veterinaria applicabile agli animali o ai prodotti animali da certificare e, in generale, siano al corrente delle norme da seguire per compilare e rilasciare i certificati nonché, all'occorrenza, della natura e della portata delle indagini, delle prove o degli esami da svolgere prima della certificazione.

2. I funzionari certificanti non devono certificare i dati di cui non abbiano personalmente conoscenza o che non possano verificare.

3. I funzionari certificanti non possono firmare certificati vuoti o incompleti né certificati relativi ad animali o a prodotti animali che non siano stati ispezionati o che siano sfuggiti al loro controllo. Se un certificato viene firmato sulla base di un altro certificato o di un'altra attestazione, il funzionario certificante deve avere il documento in suo possesso prima di firmare.

4. I funzionari certificanti possono certificare i dati che sono stati:

   a) accertati, a norma dei paragrafi da 1 a 3, da un'altra persona autorizzata dall'autorità competente e che agisce sotto il suo controllo, purché l'autorità certificante possa verificare l'esattezza dei dati; oppure

   b) ottenuti, nell'ambito dei programmi di monitoraggio, in riferimento a sistemi di garanzia della qualità ufficialmente riconosciuti o mediante un sistema di sorveglianza epidemiologica autorizzato dalla legislazione veterinaria.

5. Le autorità competenti delle Parti adottano tutte le misure necessarie per garantire l'integrità della certificazione, accertandosi in particolare che i funzionari certificanti da esse designati:

   a) godano di uno status tale da garantirne l'imparzialità e non abbiano interessi commerciali diretti nei confronti degli animali o dei prodotti certificati o delle aziende agricole/degli stabilimenti da cui provengono; e

   b) siano pienamente consapevoli del contenuto di tutti i certificati che firmano.

▼B

6. I certificati vengono redatti in modo da garantire un collegamento con le spedizioni, almeno in una lingua comprensibile per il funzionario certificante e in una delle lingue ufficiali della Parte importatrice, a norma dell'appendice IX C.

7. Ciascuna autorità competente ha la facoltà di collegare i certificati al funzionario certificante e di garantire la disponibilità di una copia di tutti i certificati rilasciati per un periodo da stabilire.

8. Ciascuna Parte predispone tutti i controlli necessari per impedire il rilascio di certificati falsi o fuorvianti e la produzione o l'uso fraudolenti di certificati rilasciati dichiaratamente in conformità della legislazione veterinaria.

9. Fatte salve le azioni giudiziarie o le sanzioni, le autorità competenti svolgono indagini o controlli e adottano le misure adeguate necessarie per penalizzare tutti i casi segnalati di certificati falsi o ingannevoli. Fra tali misure può figurare la sospensione temporanea dei funzionari certificanti fino alla conclusione dell'inchiesta. In particolare, qualora durante i controlli si accerti che:

   a) un funzionario certificante ha rilasciato consapevolmente un certificato fraudolento, l'autorità competente adotta tutte le misure necessarie per impedire che l'interessato reiteri la trasgressione;

   b) una persona o un'azienda ha utilizzato in modo fraudolento o ha modificato un certificato ufficiale, l'autorità competente adotta le misure necessarie per impedire che la persona o l'azienda reiteri la trasgressione. Queste misure possono comportare un successivo rifiuto di rilasciare un certificato ufficiale alla persona o all'azienda interessata.

B. **Certificato di cui all'articolo 8, paragrafo 3**

L'attestazione sanitaria del certificato riflette lo status dell'equivalenza del prodotto in questione. Essa certifica la conformità con le norme di produzione della Parte esportatrice riconosciute come equivalenti dalla Parte importatrice.

C. **Lingue ufficiali per la certificazione**

Importazioni nella Comunità

Vegetali, prodotti vegetali e altre merci:

Il certificato deve essere compilato in almeno una delle lingue ufficiali della Comunità e, preferibilmente, in una delle lingue ufficiali dello Stato membro di destinazione.

Animali e prodotti animali:

Il certificato sanitario deve essere compilato in almeno una delle lingue ufficiali dello Stato membro di destinazione e in una di quelle dello Stato membro in cui vengono eseguiti i controlli all'importazione di cui all'articolo 11.

Importazioni in Cile

Il certificato sanitario può essere compilato in spagnolo o in un'altra lingua, nel qual caso occorre fornire una traduzione in spagnolo.

▼B

TITOLO I

PROTEZIONE RECIPROCA DELLE INDICAZIONI GEOGRAFICHE DELLE DENOMINAZIONI DEI VINI

Articolo 5

Protezione delle indicazioni geografiche

1. Le Parti adottano tutte le misure necessarie a norma del presente accordo per garantire la protezione reciproca delle denominazioni di cui all'articolo 6 utilizzate per descrivere e presentare il vino che, ai sensi dell'articolo 3, è originario delle Parti. A tal fine, ciascuna Parte utilizza i mezzi legali adeguati di cui all'articolo 23 dell'accordo TRIPs dell'OMC per garantire una protezione efficace e impedire l'uso di un'indicazione geografica per descrivere un vino non contemplato da tale indicazione o dicitura.

▼M3

2. Le denominazioni di cui all'articolo 6 sono riservate esclusivamente ai prodotti originari della Parte ai quali si applicano.

▼B

3. La protezione di cui ai paragrafi 1 e 2 prevede in particolare l'esclusione di qualsiasi uso delle denominazioni di cui all'articolo 6 per i vini che non sono originari della zona geografica indicata, anche se:

a) la vera origine del prodotto è indicata;

b) la denominazione in questione è utilizzata come traduzione;

c) tale denominazione è accompagnata da espressioni quali «genere», «tipo», «stile», «imitazione», «metodo» o altre espressioni analoghe.

4. In caso di omonimia tra indicazioni geografiche:

a) se due indicazioni geografiche protette in virtù del presente accordo sono omonime, la protezione è accordata ad entrambe, purché il consumatore non sia tratto in inganno circa la vera origine del vino;

b) se un'indicazione geografica protetta in virtù del presente accordo è identica alla denominazione di una zona geografica situata al di fuori delle Parti, tale denominazione può essere utilizzata per descrivere e presentare un vino della zona geografica a cui si fa riferimento, a condizione che sia stata usata tradizionalmente e costantemente, che il suo uso a tale scopo sia disciplinato dal paese di origine e che il consumatore non sia indotto erroneamente a credere che il vino sia originario del territorio della Parte in questione.

5. Le Parti possono fissare, in caso di necessità, le condizioni pratiche d'uso per distinguere le indicazioni geografiche omonime di cui al paragrafo 4, tenendo conto della necessità di garantire un trattamento equo dei produttori interessati e di fare in modo che i consumatori non siano tratti in inganno.

6. Le disposizioni del presente articolo non devono in alcun caso pregiudicare il diritto di una persona fisica o giuridica di utilizzare, per fini commerciali, il proprio nome o il nome dei propri predecessori nell'attività commerciale, a condizione che tale nome non sia utilizzato in modo tale da trarre in inganno i consumatori. Inoltre, l'articolo 7, paragrafo 1 non si applica ai nomi che sono marchi commerciali registrati alla data di entrata in vigore del presente accordo.

▼B

7. Qualora, nel contesto di negoziati con un paese terzo, una Parte proponga di proteggere un'indicazione geografica relativa al vino di detto paese terzo e tale denominazione sia omonima di un'indicazione geografica dell'altra Parte, quest'ultima viene informata ed ha la possibilità di presentare osservazioni prima che la denominazione diventi protetta.

Articolo 6

Indicazioni geografiche

Le denominazioni seguenti sono quelle di cui all'articolo 5:

a) per quanto concerne il vino originario della Comunità:

i) i riferimenti allo Stato membro di cui il prodotto è originario;

ii) le indicazioni geografiche elencate nell'appendice I;

b) per quanto concerne il vino originario del Cile:

i) i riferimenti al Cile;

▼M3

2. In base al registro cileno dei marchi commerciali istituito il 10 giugno 2002, i marchi commerciali elencati nell'appendice VI.A sono soppressi entro dodici anni per quanto riguarda l'uso sul mercato interno ed entro cinque anni per quanto riguarda l'uso all'esportazione a decorrere dalla data di entrata in vigore del presente accordo.

2 *bis*. In base al registro cileno dei marchi commerciali istituito il 10 giugno 2002, i marchi commerciali elencati nell'appendice VI.B possono essere utilizzati, alle condizioni stabilite nella presente appendice, esclusivamente sul mercato interno e sono soppressi entro dodici anni dalla data di entrata in vigore del presente accordo.

sensi dell'articolo 3, è originario delle Parti. A tal fine, ciascuna Parte utilizza i mezzi legali adeguati per garantire una protezione efficace e per impedire l'uso di diciture tradizionali o di menzioni di qualità complementari per descrivere un vino non contemplato da tali indicazioni o descrizioni.

2. Le diciture tradizionali o le menzioni di qualità complementari di cui all'articolo 9 sono riservate esclusivamente ai prodotti originari della Parte ai quali si applicano e possono essere utilizzate soltanto alle condizioni stabilite dalle disposizioni legislative e regolamentari di detta Parte, fatti salvi i paragrafi 3, 4 e 5.

3. La protezione di una dicitura tradizionale o di una menzione di qualità complementare si applica soltanto alla o alle lingue in cui è scritta nelle appendici III o IV.

4. La protezione di ogni dicitura tradizionale o menzione di qualità complementare si applica soltanto al suo uso per descrivere e presentare la o le categorie di vini per i quali figura nell'appendice III o IV.

5. In caso di omonimia fra diciture tradizionali e menzioni di qualità complementari:

a) se una dicitura tradizionale e una menzione di qualità complementare protette a norma del presente articolo sono omonime, la protezione è concessa ad entrambe, a condizione che il consumatore non sia tratto in inganno circa la vera origine del vino;

▼M3

b) se una dicitura tradizionale o una menzione di qualità complementare di cui all'appendice III o IV è omonima di una denominazione di un vino non originario del territorio delle Parti, quest'ultima denominazione può essere utilizzata per descrivere e presentare un vino soltanto se tale uso è riconosciuto dalla normativa interna del paese d'origine e non costituisce una concorrenza sleale e se il consumatore non è tratto in inganno riguardo all'origine, alla natura o alla qualità del vino;

———————

▼B

6. Le Parti possono fissare, in caso di necessità, le condizioni pratiche d'uso per distinguere le diciture tradizionali e le menzioni di qualità complementari omonime di cui al paragrafo 5, tenuto conto della necessità di garantire un trattamento equo dei produttori interessati e di fare in modo che il consumatore non sia tratto in inganno.

Articolo 9

Diciture tradizionali o menzioni di qualità complementari

Le seguenti diciture tradizionali o menzioni di qualità complementari sono protette ai sensi dell'articolo 8:

▼M3

a) per quanto riguarda il vino originario della Comunità, quelle elencate nell'appendice III,

b) per quanto riguarda il vino originario del Cile, quelle elencate nell'appendice IV.

▼B

▼M3

1. La registrazione in una parte del marchio commerciale di un vino che è identico, simile, o contiene una dicitura tradizionale o una menzione di qualità complementare dell'altra Parte di cui all'appendice III o IV è rifiutata qualora essa riguardi l'uso di tale dicitura tradizionale o menzione di qualità complementare per descrivere o presentare la o le categorie di vino per le quali detta dicitura tradizionale o menzione di qualità complementare figura nell'appendice III o IV.

2. In deroga al paragrafo 1, la registrazione in una Parte del marchio commerciale di un vino che è identico, simile, o contiene una dicitura tradizionale o una menzione di qualità complementare di tale Parte di cui all'appendice III o IV non deve necessariamente essere rifiutata qualora essa riguardi l'uso di tale dicitura tradizionale o menzione di qualità complementare per descrivere o presentare la o le categorie di vino per le quali essa figura nell'appendice III o IV.

_____

▼B

4. In base al registro cileno dei marchi commerciali istituito il 10 giugno 2002, i marchi commerciali elencati nell'appendice VII sono soppressi alla data di entrata in vigore del presente accordo.

5. Per gli scambi di vini tra le Parti un vino originario del Cile può essere descritto o presentato nella Comunità con i seguenti elementi, indipendentemente dal fatto che le condizioni per il suo uso siano regolamentate in Cile:

b) il tipo di prodotto,

c) un particolare colore,

L'articolo 4, paragrafo 1 si applica tenendo conto di tali elementi.

Per quanto riguarda il vino originario di una Parte, qualsiasi denominazione non figurante nelle appendici I, II, III e IV può essere utilizzata liberamente per descrivere e presentare il vino senza bisogno di regolamentazioni sul mercato interno di tale Parte, fatte salve eventuali norme applicate in tale Parte, oppure all'esportazione in paesi terzi e sul loro mercato interno, fatta salva l'eventuale normativa applicata in tali paesi terzi.

▼B

Articolo 11

Marchi commerciali protetti

▼M3

1. In base al registro cileno dei marchi commerciali istituito il 10 giugno 2002, le Parti dichiarano di non essere a conoscenza di marchi commerciali diversi da quelli di cui all'articolo 7, paragrafi 2 e 2 *bis*, e all'articolo 10, paragrafo 4, che siano identici, simili, o contengano le indicazioni geografiche o le diciture tradizionali o le menzioni di qualità complementari di cui agli articoli 6 e 10, rispettivamente.

2. A norma del paragrafo 1, nessuna Parte nega il diritto di usare un marchio commerciale figurante nel registro cileno dei marchi commerciali del 10 giugno 2002, ad eccezione di quelli di cui all'articolo 7, paragrafi 2 e 2 *bis*, e all'articolo 10, paragrafo 4, per il fatto che tale marchio commerciale è identico, simile, o contiene un'indicazione geografica di cui all'appendice I o II o una dicitura tradizionale o una menzione di qualità complementare di cui all'appendice III o IV.

▼B

3. I proprietari di marchi commerciali diversi da quelli di cui agli articoli 7, paragrafo 2, e 10, paragrafo 4, registrati in una sola delle Parti, possono chiedere, entro due anni dall'entrata in vigore del presente accordo, la registrazione di tali marchi commerciali nell'altra Parte. In tale caso, detta Parte non rifiuta la richiesta per il fatto che tale marchio commerciale è identico/simile a o contiene un'indicazione geografica di cui all'appendice I o II o una dicitura tradizionale o una menzione di qualità complementare di cui all'appendice III o IV.

4. I marchi commerciali identici/simili a o che contengono le indicazioni geografiche, le diciture tradizionali o le menzioni di qualità complementari di cui agli articoli 7 e 10 non possono essere invocati contro l'uso delle indicazioni geografiche o delle diciture tradizionali o delle menzioni di qualità complementari per descrivere o presentare i vini che possono utilizzare dette indicazioni geografiche o diciture tradizionali o menzioni di qualità complementari.

Articolo 12

Vini originari

Le Parti adottano tutte le misure necessarie per garantire che, in caso di esportazione e commercializzazione di vini originari di una Parte al di fuori del suo territorio, le denominazioni protette di cui all'articolo 6 e le diciture tradizionali di tale Parte di cui all'articolo 9 non siano utilizzate per descrivere e presentare tali prodotti originari dell'altra Parte.

Articolo 13

Etichettatura

Nessuna Parte consente di etichettare un prodotto come se fosse originario dell'altra Parte se tale prodotto è il risultato della miscela di vini originari dell'altra Parte e di vini originari di quella Parte o di un paese terzo.

▼B

Articolo 14

Estensione della protezione

Nella misura in cui la legislazione pertinente di ciascuna Parte lo consente, il beneficio della protezione conferita dal presente accordo si estende alle persone fisiche e giuridiche nonché alle federazioni, associazioni e organizzazioni di produttori, di commercianti o di consumatori che hanno sede nel territorio dell'altra Parte.

Articolo 15

Indicazioni geografiche non protette nel paese d'origine

Nessuna disposizione del presente accordo obbliga una Parte a proteggere un'indicazione geografica dell'altra Parte che non è protetta nel paese d'origine.

Articolo 16

Applicazione

1. Se l'organismo competente designato a norma dell'articolo 27 viene a conoscenza del fatto che la descrizione o la presentazione di un vino, in particolare sull'etichetta o sui documenti ufficiali o commerciali, oppure nella pubblicità, viola la protezione conferita dal presente accordo, le Parti applicano le misure amministrative necessarie e/o avviano le azioni legali opportune per combattere la concorrenza sleale o impedire qualsiasi altra forma di impiego abusivo di una denominazione di cui agli articoli 6 o 9.

2. Si applicano le misure e si avviano le azioni legali di cui al paragrafo 1 in particolare nei seguenti casi:

a) se la traduzione delle descrizioni previste dalla normativa di una delle Parti nella lingua o nelle lingue dell'altra Parte comporta un termine che potrebbe trarre in inganno quanto all'origine, alla natura o alla qualità del vino così descritto o presentato;

b) se sui contenitori o sull'imballaggio, nella pubblicità o in documenti ufficiali o commerciali relativi a vini le cui denominazioni sono protette a norma del presente accordo figurano descrizioni, marchi commerciali, denominazioni, iscrizioni o illustrazioni che danno direttamente o indirettamente un'informazione errata o tale da trarre in inganno sulla provenienza, l'origine, la natura, la varietà di vite o le qualità materiali del vino;

c) se viene utilizzato, per il confezionamento, un recipiente tale da trarre in inganno quanto all'origine del vino.

3. L'applicazione dei paragrafi 1 e 2 non pregiudica la facoltà per le autorità e gli organismi di cui all'articolo 27 di adottare misure appropriate nelle Parti, compreso il ricorso a un organo giurisdizionale.

TITOLO II

PRATICHE E TRATTAMENTI ENOLOGICI E SPECIFICHE DEI PRODOTTI

Articolo 17

Riconoscimento di pratiche enologiche

1. La Comunità autorizza l'importazione e la commercializzazione, per il consumo umano diretto, di tutti i vini originari del Cile prodotti conformemente a una o più pratiche o trattamenti enologici ed alle specifiche dei prodotti di cui al paragrafo 1 dell'appendice V e all'appendice VIII (protocollo).

2. Il Cile autorizza l'importazione e la commercializzazione, per il consumo umano diretto, di tutti i vini originari della Comunità prodotti conformemente a una o più pratiche o trattamenti enologici ed alle specifiche dei prodotti di cui al paragrafo 2 dell'appendice V e all'appendice VIII (protocollo).

Articolo 18

Nuove pratiche enologiche

1. Ciascuna Parte si adopera per informare appena possibile l'altra Parte, secondo le procedure di cui all'articolo 29, degli sviluppi che potrebbero portare, per quanto riguarda il vino prodotto in tale Parte, ad autorizzare una pratica enologica o un trattamento enologico non figurante per tale Parte nell'appendice V, al fine di concordare un approccio comune.

2. Una Parte informa l'altra Parte qualora, per quanto riguarda il vino prodotto in tale Parte, abbia autorizzato una pratica enologica o un trattamento enologico non figurante per tale Parte nell'appendice V.

3. La notifica comprende:

a) una descrizione della pratica enologica o del trattamento enologico non figurante per tale Parte nell'appendice V; e

b) un fascicolo tecnico che giustifica l'autorizzazione della pratica enologica o del trattamento enologico, in particolare per quanto riguarda i requisiti di cui all'articolo 19.

4. Per un periodo di dodici mesi che inizia un mese dopo la notifica di cui al paragrafo 2 e fatti salvi gli articoli 20, paragrafo 3, e 21, paragrafo 2, lettera b), l'altra Parte autorizza provvisoriamente l'importazione e la commercializzazione di vini originari della Parte notificante, prodotti conformemente con la pratica o il trattamento enologico in questione.

Articolo 19

Standard di qualità

Le pratiche e i trattamenti enologici diversi da quelli di cui all'appendice V alla data di entrata in vigore del presente accordo, usati per produrre vino, rispettano i requisiti seguenti:

a) la protezione della salute umana, basata su principi scientifici e non sostenuta senza sufficienti prove scientifiche;

▼B

b) la protezione dei consumatori nei confronti delle pratiche ingannevoli; e

c) il rispetto delle buone pratiche enologiche, in particolare l'esigenza che la vinificazione, i trattamenti e le tecniche autorizzati dalle disposizioni legislative e regolamentari di ciascuna Parte non comportino un cambiamento inaccettabile nella composizione del prodotto trattato e garantiscano la conservazione delle caratteristiche organolettiche del vino migliorandone nel contempo la qualità.

Articolo 20

Salvaguardia

1. Entro dodici mesi dalla notifica di una Parte di cui all'articolo 18, paragrafo 2, l'altra Parte può opporsi all'accettabilità della pratica o del trattamento enologico notificato adducendone la mancata conformità con uno o più dei requisiti di cui all'articolo 19. Può inoltre invocare la procedura di risoluzione delle controversie di cui all'articolo 23.

2. Gli arbitri di cui all'articolo 23 decidono se la pratica o il trattamento enologico rispetta i requisiti di cui all'articolo 19.

3. Le Parti fanno sì che la decisione relativa alla conformità della pratica o del trattamento enologico notificato con i requisiti di cui all'articolo 19 sia adottata al fine di, o col risultato di, non creare inutili ostacoli al commercio dei vini.

4. Fermo restando l'articolo 21, paragrafo 2, lettera a), l'autorizzazione provvisoria per importare e commercializzare vini originari della Parte notificante prodotti conformemente alla pratica o al trattamento enologico in questione prosegue fino a quando non viene presa la decisione di cui al paragrafo 2.

Articolo 21

Modifica dell'appendice V

1. Le Parti modificano il pertinente paragrafo dell'appendice V per aggiungere la pratica o il trattamento enologico prima della fine del periodo di cui all'articolo 18, paragrafo 4.

2. In deroga al paragrafo 1, qualora una Parte abbia fatto ricorso alla salvaguardia di cui all'articolo 20:

a) se gli arbitri decidono che la pratica o il trattamento enologico notificato rispetta i requisiti di cui all'articolo 19, le Parti modificano il pertinente paragrafo dell'appendice V per aggiungere la pratica o il trattamento enologico entro tre mesi dalla data della decisione. L'autorizzazione provvisoria per l'importazione e la commercializzazione di vini originari della Parte notificante prodotti conformemente alla pratica o al trattamento enologico in questione prosegue fino al momento della modifica;

b) se però gli arbitri decidono che la pratica o il trattamento enologico autorizzato o modificato non rispetta i requisiti di cui all'articolo 19, l'autorizzazione provvisoria per l'importazione e la commercializzazione di vini originari della Parte notificante prodotti conformemente alla pratica o al trattamento enologico in questione, di cui all'articolo 18, paragrafo 4, cessa quattordici giorni dopo la data della decisione. Tale cessazione non pregiudica l'applicazione dell'articolo 17, paragrafi 1 e 2 per quanto riguarda il vino importato nelle Parti prima della data della decisione.

▼B

Articolo 22

Modifica di pratiche e trattamenti enologici

Gli articoli da 18 a 21 si applicano anche nel caso in cui una Parte autorizzi una modifica di una pratica o trattamento enologico di cui al pertinente paragrafo dell'appendice V.

Articolo 23

Procedura di arbitrato sulle pratiche e i trattamenti enologici

1. Le eventuali controversie relative all'interpretazione e all'applicazione delle disposizioni del presente titolo vengono risolte ai sensi delle disposizioni del titolo VIII dell'accordo di associazione, se non disposto diversamente nel presente articolo.

2. Il Comitato di associazione compila, entro sei mesi dall'entrata in vigore del presente accordo, un elenco di almeno quindici persone che accettino e siano in grado di fungere da arbitri enologici, un terzo dei quali non devono avere la cittadinanza né dell'una né dell'altra Parte e devono essere identificati come presidenti di panel arbitrali. Il Comitato di associazione si accerta che l'elenco contenga sempre quindici nominativi. Le persone selezionate per fungere da presidenti di panel arbitrali devono possedere competenze o esperienza in merito alle leggi o al commercio internazionale o alla risoluzione di controversie derivanti da accordi commerciali internazionali. Dieci persone devono avere esperienza e conoscenze di pratiche enologiche, essere indipendenti, operare a titolo personale, non essere associate ad una delle Parti né ricevere istruzioni da una delle Parti o da organizzazioni e rispettare il codice di condotta di cui all'allegato XVI dell'accordo di associazione. L'elenco può essere modificato ogni tre anni.

3. Entro tre giorni dalla richiesta di procedura di arbitrato enologico ai sensi dell'articolo 20, paragrafo 1, i tre arbitri vengono estratti a sorte dal presidente del Comitato di associazione tra i nominativi dell'elenco di cui al paragrafo 2, uno tra le persone proposte al Comitato di associazione dalla Parte ricorrente, uno tra le persone proposte al Comitato di associazione dall'altra Parte e il presidente tra le persone individuate a tal fine ai sensi del paragrafo 2.

4. Il compito del panel arbitrale enologico consiste nel determinare se la nuova pratica enologica sottopostagli nella richiesta presentata a norma dell'articolo 20, paragrafo 2 soddisfa i requisiti di cui all'articolo 19.

5. La decisione del panel arbitrale viene resa entro tre mesi dalla data della richiesta ai sensi dell'articolo 20, paragrafo 1. Essa è definitiva e pubblica.

TITOLO III

REQUISITI IN MATERIA DI CERTIFICAZIONE PER L'IMPORTAZIONE

Articolo 24

Certificati e bollettini d'analisi

1. Ciascuna Parte autorizza l'importazione di vini conformemente alle norme in materia di certificazione all'importazione e bollettini d'analisi previste dall'appendice VIII (protocollo).

▼B

2. Fatto salvo l'articolo 25, ciascuna Parte accetta di non sottoporre l'importazione di vini originari del territorio dell'altra Parte a requisiti in materia di certificati d'importazione più restrittivi di quelli previsti dal presente accordo.

Articolo 25

Disposizioni di salvaguardia

1. Le Parti si riservano il diritto di esigere temporaneamente requisiti supplementari di certificazione all'importazione per poter affrontare problemi legittimi di carattere pubblico, quali la protezione della salute pubblica o dei consumatori, o per combattere le frodi. In tal caso, l'altra Parte viene informata adeguatamente e tempestivamente per consentirle di soddisfare detti requisiti supplementari.

2. Le Parti concordano che tali requisiti non saranno richiesti al di là del periodo necessario per far fronte al problema legittimo di carattere pubblico per il quale sono stati introdotti.

TITOLO IV

MISURE SANITARIE E FITOSANITARIE

Articolo 26

Misure sanitarie e fitosanitarie

1. Le disposizioni del presente accordo non pregiudicano il diritto delle Parti di applicare le misure sanitarie e fitosanitarie necessarie per la protezione della vita e della salute umana, animale o vegetale, a condizione che tali misure siano compatibili con le disposizioni dell'accordo SPS dell'OMC e dell'accordo sulle misure sanitarie e fitosanitarie applicabili agli scambi di animali e prodotti di origine animale, vegetali, prodotti vegetali e altre merci e sul benessere degli animali di cui all'allegato IV dell'accordo di associazione.

2. Fatto salvo il paragrafo 1, ciascuna Parte si adopera per informare quanto prima l'altra Parte secondo le procedure di cui all'articolo 29, sugli sviluppi che potrebbero portare, per quanto riguarda il vino commercializzato in tale Parte, all'adozione di dette misure, in particolare quelle riguardanti la fissazione di limiti specifici sui contaminanti e i residui, al fine di concordare un approccio comune.

TITOLO V

ASSISTENZA RECIPROCA TRA LE AUTORITÀ DI CONTROLLO

Articolo 27

Autorità responsabili dell'applicazione

1. Ciascuna Parte designa gli organismi responsabili dell'applicazione del presente accordo. Se una Parte designa più di un organismo competente, garantisce il coordinamento delle attività di tali organismi. A tale scopo, viene designata un'unica autorità di collegamento.

2. Entro due mesi dall'entrata in vigore del presente accordo, le Parti si notificano reciprocamente i nomi e gli indirizzi degli organismi e delle autorità di cui al paragrafo 1. Detti organismi cooperano strettamente e direttamente.

▼B

3. Gli organismi e le autorità di cui al paragrafo 1 esplorano le possibilità di migliorare l'assistenza reciproca nell'applicazione del presente accordo e nella lotta contro le pratiche fraudolente, conformemente alla loro legislazione.

Articolo 28

Misure di applicazione

1. Se uno degli organismi o delle autorità designati a norma dell'articolo 27 ha fondati motivi per sospettare che:

a) un vino che è o è stato oggetto di scambi tra le Parti non sia o non sia stato conforme al presente accordo o alle disposizioni legislative e regolamentari di una Parte, e

b) tale inosservanza rivesta particolare interesse per l'altra Parte e possa comportare il ricorso a misure amministrative o ad azioni giudiziarie,

ne informa immediatamente gli organismi competenti e l'autorità di collegamento dell'altra Parte.

2. Le informazioni da fornire a norma del paragrafo 1 devono essere corredate di documenti ufficiali o commerciali o di altri documenti appropriati. Occorre altresì indicare le eventuali misure amministrative o azioni legali da intraprendere. Le informazioni includono in particolare i seguenti dati relativi al vino interessato:

a) il nome del produttore e della persona fisica o giuridica che può disporre del vino;

b) la composizione e le caratteristiche organolettiche del vino;

c) la descrizione e la presentazione del vino; e

d) informazioni dettagliate sulla violazione delle norme di produzione e di commercializzazione.

TITOLO VI

GESTIONE DELL'ACCORDO

Articolo 29

Compiti delle Parti

1. Le Parti si tengono in contatto, direttamente o tramite il Comitato congiunto istituito a norma dell'articolo 30, per quanto riguarda tutte le questioni relative all'applicazione e al funzionamento del presente accordo.

2. In particolare, le Parti:

a) modificano le appendici in funzione di eventuali modifiche delle disposizioni legislative e regolamentari delle Parti stesse;

b) stabiliscono le condizioni pratiche di cui agli articoli 5, paragrafo 5, e 8, paragrafo 6;

c) modificano le appendici I o VIII ai sensi delle disposizioni di cui al titolo II;

▼B

d) stabiliscono nell'appendice VIII (protocollo) le modalità specifiche di cui all'articolo 17;

e) modificano l'appendice VIII (protocollo) per determinare i requisiti in materia di composizione e le altre specifiche dei prodotti di cui all'articolo 17;

f) si comunicano reciprocamente l'intenzione di decidere nuovi regolamenti o modifiche ai regolamenti vigenti d'interesse per il settore vinicolo, quali la protezione della salute o dei consumatori, che hanno implicazioni per il settore vinicolo; e

g) si comunicano reciprocamente le misure legislative e amministrative e le decisioni giudiziarie relative all'applicazione del presente accordo, nonché le misure adottate in base a tali decisioni.

Articolo 30

Comitato congiunto

1. È istituito un comitato congiunto composto da rappresentanti delle Parti. Il comitato si riunisce su richiesta di una delle Parti e secondo le necessità inerenti all'applicazione del presente accordo. Il comitato si riunisce a turno nella Comunità e in Cile, ad una data e in un luogo fissati di comune accordo dalle Parti.

2. Il comitato congiunto garantisce il corretto funzionamento del presente accordo ed esamina tutte le questioni inerenti alla sua applicazione.

▼M3

3. In particolare, il comitato congiunto può formulare raccomandazioni per il raggiungimento degli obiettivi del presente accordo. Esso è gestito secondo il regolamento interno dei comitati speciali.

▼B

4. Favorisce i contatti e lo scambio di informazioni per un funzionamento ottimale del presente accordo.

5. Presenta proposte su problemi di reciproco interesse nel settore vinicolo.

TITOLO VII

DISPOSIZIONI GENERALI

Articolo 31

Transito — piccoli quantitativi

I titoli I, II e III non si applicano ai vini:

a) in transito attraverso una Parte, o

b) originari di una Parte e spediti in piccoli quantitativi fra le Parti secondo i termini e le condizioni conformi alle procedure di cui all'appendice VIII (protocollo).

▼B

Articolo 32

Consultazioni

1. Se una Parte ritiene che l'altra Parte non abbia osservato un obbligo previsto dal presente accordo, le presenta una notifica scritta a tale proposito. Nella notifica può chiedere all'altra Parte di avviare consultazioni entro un periodo determinato.

2. La Parte che chiede le consultazioni comunica all'altra Parte tutte le informazioni necessarie per un esame particolareggiato del caso in questione.

3. Qualora un ritardo dovesse comportare un rischio per la salute umana o compromettere l'efficacia delle misure di repressione delle frodi, possono essere adottate in via provvisoria opportune misure protettive senza ricorrere alle consultazioni, a condizione che le consultazioni intervengano quanto prima possibile dopo l'adozione delle misure.

4. Se in seguito alle consultazioni di cui ai paragrafi 1 e 3 le Parti non raggiungono un accordo:

a) la Parte che ha chiesto le consultazioni o che ha adottato le misure di cui al paragrafo 3 può adottare opportune misure protettive per consentire la corretta applicazione del presente accordo;

b) ciascuna Parte può ricorrere alla procedura di risoluzione delle controversie di cui all'articolo 33.

Articolo 33

Risoluzione delle controversie

2. In deroga all'articolo 184 dell'accordo di associazione, qualora le Parti abbiano tenuto consultazioni a norma dell'articolo 23, la Parte ricorrente può chiedere direttamente l'istituzione di un panel arbitrale.

Articolo 34

Commercializzazione di scorte preesistenti

1. I vini che, alla data in cui entra in vigore il presente accordo o prima di tale data, sono stati prodotti, descritti e presentati conformemente alle disposizioni legislative e regolamentari interne della rispettiva Parte, ma secondo modalità vietate dal presente accordo, possono essere commercializzati alle condizioni seguenti:

a) il vino prodotto secondo una o più pratiche o trattamenti enologici non elencati nelle appendici V o VIII (protocollo) può essere commercializzato fino ad esaurimento delle scorte;

b) i prodotti descritti ed etichettati utilizzando indicazioni geografiche protette dal presente accordo possono continuare ad essere commercializzati:

▼B

i) da grossisti o produttori, per un periodo di tre anni;

ii) da dettaglianti, sino ad esaurimento delle scorte.

2. I vini prodotti, descritti e presentati a norma del presente accordo e la cui descrizione o presentazione non è più conforme all'accordo stesso in seguito a una modifica del medesimo possono essere commercializzati fino ad esaurimento delle scorte salvo convenzione contraria delle Parti.

Articolo 35

k) «accordo di associazione», l'accordo che crea un'associazione tra le Parti, al quale è allegato il presente accordo;

l) «comitato di associazione», il comitato di cui all'articolo 193 dell'accordo di associazione.

Articolo 4

Norme generali in materia di importazione e commercializzazione

1. Fatte salve disposizioni contrarie del presente accordo, gli scambi e la commercializzazione di bevande alcoliche e di bevande aromatizzate sono effettuati nel rispetto delle disposizioni legislative e regolamentari della Parte interessata.

2. Il presente accordo non pregiudica le norme applicate in Cile e nella Comunità in materia di imposizione o altre misure di controllo pertinenti.

TITOLO I

PROTEZIONE RECIPROCA DELLE DESIGNAZIONI PROTETTE PER LE BEVANDE ALCOLICHE E LE BEVANDE AROMATIZZATE

Articolo 5

Protezione delle designazioni protette

1. Le Parti adottano tutte le misure necessarie a norma del presente accordo per garantire la protezione reciproca delle denominazioni di cui all'articolo 6 utilizzate per descrivere e presentare le bevande alcoliche e le bevande aromatizzate che, ai sensi dell'articolo 3, sono originarie delle Parti. A tal fine, ciascuna Parte utilizza i mezzi legali adeguati di cui all'articolo 23 dell'accordo TRIPs dell'OMC per garantire una protezione efficace e per impedire l'uso di una designazione protetta per descrivere una bevanda alcolica o una bevanda aromatizzata non contemplata da tale indicazione o descrizione.

▼M4

2. Le denominazioni di cui all'articolo 6 sono riservate esclusivamente ai prodotti originari della parte ai quali si applicano.

▼B

3. La protezione di cui ai paragrafi 1 e 2 prevede in particolare l'esclusione di qualsiasi uso delle denominazioni di cui all'articolo 6 per le bevande alcoliche e le bevande aromatizzate che non sono originarie della zona geografica indicata, anche se:

i) la vera origine del prodotto è indicata;

ii) la denominazione in questione è utilizzata come traduzione; e

iii) tale denominazione è accompagnata da espressioni quali «genere», «tipo», «stile», «imitazione», «metodo» o altre espressioni analoghe.

4. In caso di omonimia tra designazioni protette:

a) se due designazioni protette tutelate in virtù del presente accordo sono omonime, la protezione è accordata ad entrambe; il consumatore non deve però essere tratto in inganno circa la vera origine delle bevande alcoliche o delle bevande aromatizzate;

b) se una designazione protetta tutelata in virtù del presente accordo è omonima della denominazione di una zona geografica situata al di fuori delle Parti, tale denominazione può essere utilizzata per descrivere e presentare una bevanda alcolica o una bevanda aromatizzata della zona geografica a cui si fa riferimento, a condizione che sia stata usata tradizionalmente e costantemente, che il suo uso a tale scopo sia disciplinato dal paese d'origine e che il consumatore non sia indotto erroneamente a credere che la bevanda alcolica o la bevanda aromatizzata sia originaria del territorio della Parte in questione.

5. Le Parti possono fissare, in caso di necessità, le condizioni pratiche d'uso per distinguere le designazioni protette omonime di cui al paragrafo 4, tenendo conto della necessità di garantire un trattamento equo dei produttori interessati e di fare in modo che i consumatori non siano tratti in inganno.

6. Le disposizioni del presente articolo non devono in alcun caso pregiudicare il diritto di una persona fisica o giuridica di utilizzare, per fini commerciali, il proprio nome o il nome dei propri predecessori nell'attività commerciale, a condizione che tale nome non sia utilizzato in modo tale da trarre in inganno i consumatori. Inoltre, l'articolo 7, paragrafo 1 non si applica ai nomi che sono marchi commerciali registrati alla data di entrata in vigore del presente accordo.

7. Qualora, nel contesto di negoziati con un paese terzo, una Parte proponga di proteggere una designazione protetta relativa a una bevanda alcolica o a una bevanda aromatizzata di detto paese terzo e tale denominazione sia omonima di una designazione protetta dell'altra Parte, quest'ultima viene informata ed ha la possibilità di presentare osservazioni prima che la denominazione diventi protetta.

▼B

Articolo 6

Designazioni protette

Le denominazioni seguenti sono quelle di cui all'articolo 5:

a) per quanto concerne le bevande alcoliche e le bevande aromatizzate originarie della Comunità:

   i) i riferimenti allo Stato membro di cui il prodotto è originario;

   ii) le designazioni protette elencate nell'appendice I;

b) per quanto concerne le bevande alcoliche e le bevande aromatizzate originarie del Cile:

   i) i riferimenti al Cile;

   ii) le designazioni protette elencate nell'appendice I.

Articolo 7

Designazioni protette e marchi commerciali

1. La registrazione di un marchio commerciale per una bevanda alcolica o una bevanda aromatizzata ai sensi dell'articolo 3 identico/simile a o contenente una designazione protetta tutelata a norma dell'articolo 5 è rifiutata.

▼M4

2. In base al registro cileno dei marchi commerciali, istituito il 10 giugno 2002, i marchi commerciali elencati nell'appendice II A sono soppressi entro dodici anni per quanto riguarda l'uso sul mercato interno ed entro cinque anni per quanto riguarda l'uso all'esportazione a decorrere dalla data di entrata in vigore del presente accordo.

2 *bis* In base al registro cileno dei marchi commerciali, istituito il 10 giugno 2002, i marchi commerciali elencati nell'appendice II B possono essere utilizzati, alle condizioni stabilite nella presente appendice, esclusivamente sul mercato interno e sono soppressi entro dodici anni dalla data di entrata in vigore del presente accordo.

▼B

3. I marchi commerciali elencati nell'appendice II per le bevande alcoliche e le bevande aromatizzate di cui sono state esportate in media meno di 1 000 casse da 9 litri nel periodo 1999-2001 sono soppressi alla data di entrata in vigore del presente accordo.

Articolo 8

Marchi commerciali protetti

▼M4

1. In base al registro cileno dei marchi commerciali, istituito il 10 giugno 2002, le parti dichiarano di non essere a conoscenza di marchi commerciali diversi da quelli di cui all'articolo 7, paragrafi 2 e 2 *bis*, che siano identici/simili a o contengano una designazione protetta di cui all'articolo 6.

▼M4

2. A norma del paragrafo 1, le parti non negano il diritto di usare un marchio commerciale figurante nel registro cileno dei marchi commerciali istituito il 10 giugno 2002, ad eccezione di quelli di cui all'articolo 7, paragrafi 2 e 2 *bis*, per il fatto che tale marchio commerciale è identico, simile, o contiene una designazione protetta di cui all'appendice I.

▼B

3. I proprietari di marchi commerciali diversi da quelli di cui all'articolo 7, paragrafo 2, registrati in una Parte ma non registrati nell'altra Parte, possono chiedere, entro due anni dalla data di entrata in vigore del presente accordo, la registrazione di tali marchi commerciali nell'altra Parte. In tale caso, detta Parte non rifiuta la richiesta per il fatto che tale marchio commerciale è identico/simile a o contiene una designazione protetta di cui all'appendice I.

4. I marchi commerciali identici/simili a o che contengono le designazioni protette di cui all'articolo 7 non possono essere invocati contro l'uso delle designazioni protette per descrivere o presentare le bevande alcoliche o le bevande aromatizzate che possono utilizzare dette designazioni protette.

Articolo 9

Bevande alcoliche originarie

Le Parti adottano tutte le misure necessarie per garantire che, in caso di esportazione e commercializzazione di bevande alcoliche e bevande aromatizzate originarie di una Parte al di fuori del suo territorio, le denominazioni protette di tale Parte di cui all'articolo 6 non siano utilizzate per descrivere e presentare tali prodotti originari dell'altra Parte.

Articolo 10

Estensione della protezione

Nella misura in cui la legislazione pertinente di ciascuna Parte lo consente, il beneficio della protezione conferita dal presente accordo si estende alle persone fisiche e giuridiche nonché alle federazioni, associazioni e organizzazioni di produttori, di commercianti o di consumatori che hanno sede nel territorio dell'altra Parte.

Articolo 11

Designazioni protette non protette nel paese d'origine

Nessuna disposizione del presente accordo obbliga una Parte a proteggere una designazione protetta dell'altra Parte che non è protetta nel paese d'origine.

Articolo 12

Applicazione

1. Se l'organismo competente designato a norma dell'articolo 14 viene a conoscenza del fatto che la descrizione o la presentazione di una bevanda alcolica o di una bevanda aromatizzata, in particolare sull'etichetta o sui documenti ufficiali o commerciali, oppure nella pubblicità, viola la protezione conferita dal presente

▼B

accordo, le Parti applicano le misure amministrative necessarie e/o avviano le azioni legali opportune per combattere la concorrenza sleale o impedire qualsiasi altra forma di impiego abusivo di una denominazione di cui all'articolo 6.

2. Si applicano le misure e si avviano le azioni legali di cui al paragrafo 1 in particolare nei seguenti casi:

a) se la traduzione delle descrizioni previste dalla normativa comunitaria o cilena nella lingua o nelle lingue dell'altra Parte comporta un termine che potrebbe trarre in inganno quanto all'origine, alla natura o alla qualità delle bevande alcoliche o delle bevande aromatizzate così descritte o presentate;

b) se sui contenitori o sull'imballaggio, nella pubblicità o in documenti ufficiali o commerciali relativi a bevande alcoliche e a bevande aromatizzate le cui denominazioni sono protette a norma del presente accordo figurano descrizioni, marchi commerciali, denominazioni, iscrizioni o illustrazioni che danno direttamente o indirettamente un'informazione errata o tale da trarre in inganno sulla provenienza, l'origine, la natura, la varietà di vite o le qualità materiali di una bevanda alcolica o di una bevanda aromatizzata;

c) se viene utilizzato, per il confezionamento, un recipiente tale da trarre in inganno quanto all'origine delle bevande alcoliche o delle bevande aromatizzate.

3. L'applicazione dei paragrafi 1 e 2 non pregiudica la facoltà per le autorità e gli organismi di cui all'articolo 14 di adottare misure appropriate nelle Parti, compreso il ricorso a un organo giurisdizionale.

TITOLO II

MISURE SANITARIE E FITOSANITARIE

Articolo 13

Misure sanitarie e fitosanitarie

1. Le disposizioni del presente accordo non pregiudicano il diritto delle Parti di applicare le misure sanitarie e fitosanitarie necessarie per la protezione della vita e della salute umana, animale o vegetale, a condizione che tali misure siano compatibili con le disposizioni dell'accordo SPS dell'OMC e dell'accordo sulle misure sanitarie e fitosanitarie applicabili agli scambi di animali e prodotti di origine animale, vegetali, prodotti vegetali e altre merci e sul benessere degli animali di cui all'allegato IV dell'accordo di associazione.

2. Fatto salvo il paragrafo 1, ciascuna Parte si adopera per informare quanto prima l'altra Parte, secondo le procedure di cui all'articolo 19, sugli sviluppi che potrebbero portare, per quanto riguarda le bevande alcoliche e le bevande aromatizzate commercializzate in tale Parte, all'adozione di dette misure, in particolare quelle riguardanti la fissazione di limiti specifici sui contaminanti e i residui, al fine di concordare un approccio comune.

▼B

TITOLO III

ASSISTENZA RECIPROCA TRA LE AUTORITÀ DI CONTROLLO

Articolo 14

Autorità responsabili dell'applicazione

1. Ciascuna Parte designa gli organismi responsabili dell'applicazione del presente accordo. Se una Parte designa più di un organismo competente, garantisce il coordinamento delle attività di tali organismi. A tale scopo, viene designata un'unica autorità di collegamento.

2. Entro due mesi dall'entrata in vigore del presente accordo, le Parti si notificano reciprocamente i nomi e gli indirizzi degli organismi e delle autorità di cui al paragrafo 1. Detti organismi cooperano strettamente e direttamente.

3. Gli organismi e le autorità di cui al paragrafo 1 esplorano le possibilità di migliorare l'assistenza reciproca nell'applicazione del presente accordo e nella lotta contro le pratiche fraudolente, conformemente alla loro legislazione.

Articolo 15

Misure di applicazione

1. Se uno degli organismi o delle autorità designati a norma dell'articolo 14 ha fondati motivi per sospettare che:

a) una bevanda alcolica o una bevanda aromatizzata che è o è stata oggetto di scambi tra le Parti non sia o non sia stata conforme al presente accordo o alle disposizioni legislative e regolamentari di una Parte, e

b) tale inosservanza rivesta particolare interesse per l'altra Parte e possa comportare il ricorso a misure amministrative o ad azioni giudiziarie,

ne informa immediatamente gli organismi competenti e l'autorità di collegamento dell'altra Parte.

2. Le informazioni da fornire a norma del paragrafo 1 devono essere corredate di documenti ufficiali o commerciali o di altri documenti appropriati. Occorre altresì indicare le eventuali misure amministrative o azioni legali da intraprendere. Le informazioni includono in particolare i seguenti dati relativi alle bevande alcoliche o alle bevande aromatizzate interessate:

2. La Parte che chiede le consultazioni comunica all'altra Parte tutte le informazioni necessarie per un esame particolareggiato del caso in questione.

4. Se in seguito alle consultazioni di cui ai paragrafi 1 e 3 le Parti non raggiungono un accordo:

3. Un glossario dei termini utilizzati dai singoli Stati membri figura in allegato al presente elenco.

Per «consociata» di una persona giuridica s'intende una persona giuridica effettivamente controllata da un'altra persona giuridica.

Per «filiale» di una persona giuridica s'intende un centro di attività economica senza capacità giuridica, apparentemente permanente, come l'estensione di una casa madre, che dispone di una direzione e delle infrastrutture necessarie per negoziare con terzi cosicché questi ultimi, pur sapendo che, all'occorrenza, vi sarà un rapporto giuridico con la casa madre la cui sede centrale si trova in un altro paese, non devono trattare direttamente con detta casa madre ma possono concludere transazioni nel centro di attività economica che ne costituisce l'estensione.

	3) In tutti gli Stati membri [1] i servizi considerati servizi pubblici a livello nazionale o locale possono essere soggetti a monopoli statali o a diritti esclusivi concessi a operatori privati [2].	3) a) Il trattamento concesso alle consociate (di società cilene) costituite a norma delle leggi di uno Stato membro che abbiano la sede legale, l'amministrazione centrale o il principale centro degli affari nella Comunità non si estende alle filiali o agenzie aperte in uno Stato membro da una società cilena. Gli Stati membri possono comunque estendere questo trattamento alle filiali o alle agenzie stabilite in un altro Stato membro da una società o da un'impresa cilena per quanto riguarda la loro attività nel territorio del primo Stato membro, a meno che tale estensione non sia esplicitamente vietata dal diritto comunitario. b) Può essere concesso un trattamento meno favorevole alle consociate (di società cilene) costituite a norma delle leggi di uno Stato membro che abbiano solo la sede legale o l'amministrazione centrale nel territorio della Comunità, sempre che non si possa dimostrare che hanno un collegamento effettivo e permanente con l'economia di uno degli Stati membri. Costituzione di una persona giuridica 3) RO: l'amministratore unico o il presidente del consiglio d'amministrazione e metà del numero totale di amministratori di una società commerciale sono cittadini rumeni, salvo diversamente stipulato nell'atto costitutivo o nello statuto della società. La maggioranza dei revisori dei conti della società commerciale e dei loro supplenti ha la cittadinanza rumena.	

[1] Nel caso dell'Austria, della Finlandia e della Svezia non si applicano riserve orizzontali per i servizi considerati servizi pubblici.

[2] Nota esplicativa: i servizi pubblici esistono in settori quali le consulenze scientifiche e tecniche, i servizi di R&S; per le scienze sociali e umane, i servizi tecnici di prova e analisi, i servizi ambientali, i servizi sanitari, i servizi di trasporto e i servizi connessi a tutte le modalità di trasporto. Gli operatori privati beneficiano spesso di diritti esclusivi su questi servizi, ad esempio mediante concessioni dei pubblici poteri, fatti salvi obblighi specifici. Dato che i servizi pubblici esistono spesso anche a livello decentrato, è praticamente impossibile stilare un elenco dettagliato ed esauriente per i singoli settori.

vi) Trattamento della posta senza indirizzo

2) C Servizi di telecomunicazione			

Per «servizi di telecomunicazione» s'intende il trasporto di segnali elettromagnetici (suoni, dati, immagini e loro combinazioni) escluse le trasmissioni radiotelevisive ([3]). Gli impegni assunti in questo settore, quindi, non comprendono l'attività economica di fornitura di contenuti il cui trasporto richiede servizi di telecomunicazioni, oggetto di impegni specifici assunti dalla Comunità e dai suoi Stati membri in altri settori pertinenti.

BG: misure applicabili a tutti i settori dei servizi di comunicazione:

1. la creazione di reti di telecomunicazione pubbliche o private è soggetta a licenza. Tutti i servizi devono essere prestati tramite reti autorizzate o linee affittate nell'ambito di reti autorizzate. Un ente bulgaro abilitato rilascia direttamente le licenze ai richiedenti. Le licenze non sono trasferibili a terzi. La semplice rivendita di servizi di telecomunicazione è vietata;

2. è autorizzata la connessione a una rete pubblica conformemente alle condizioni in materia di licenza applicabili alla rete pubblica e in funzione delle possibilità tecniche. Le apparecchiature terminali per la connessione diretta o indiretta a una rete di telecomunicazione pubblica o privata possono essere collegate a un punto terminale della rete se risultano conformi ai requisiti di base;

3. le persone fisiche e giuridiche che svolgono un'attività statistica e creano sistemi informatici devono riprendere i concetti, le nomenclature e le classificazioni dell'Istituto statistico nazionale.

([1]) Oltre ad essere più rapidi e affidabili, i servizi di consegna per espresso possono comportare un valore aggiunto in termini di ritiro al punto di origine, consegna direttamente al destinatario, tracing e tracking, possibilità di cambiare la destinazione e il destinatario durante il transito, conferma dell'avvenuta ricezione.

([2]) Fornitura dei mezzi necessari, quali locali adatti, e trasporto da parte di terzi ai fini della consegna diretta mediante scambio reciproco di invii postali tra utenti abbonati a questo servizio. Il termine «invio postale» si riferisce agli invii trattati da tutti gli operatori commerciali, pubblici o privati.

([3]) Per trasmissioni radiotelevisive si intende la catena ininterrotta di trasmissione necessaria per la diffusione al grande pubblico dei segnali dei programmi radiotelevisivi, ma non i collegamenti di contribuzione tra gli operatori.

Definizioni relative al trasporto marittimo

1. Fatta salva la portata delle attività che possono rientrare nella definizione del «cabotaggio» a norma della legislazione nazionale pertinente, il presente elenco non comprende i «servizi di cabotaggio marittimo» riguardanti il trasporto di passeggeri o di merci tra un porto situato in uno Stato membro e un altro porto situato nello stesso Stato membro nonché il traffico proveniente da e destinato allo stesso porto situato in uno Stato membro, purché detto traffico rimanga entro le acque territoriali dello Stato membro in questione.

2. Per «altre forme di presenza commerciale per la prestazione di servizi di trasporto marittimo internazionale» s'intende la capacità dei prestatori di servizi internazionali di trasporto marittimo dell'altra parte di svolgere in loco tutte le attività necessarie per fornire ai loro clienti un servizio di trasporto parzialmente o pienamente integrato, di cui il trasporto marittimo costituisce un elemento sostanziale (tale impegno, tuttavia, non può essere interpretato come una limitazione degli altri impegni assunti in merito alla modalità di consegna transfrontaliera).

   Queste attività comprendono, tra l'altro:

   a) commercializzazione e vendita, dal preventivo alla fatturazione, di servizi di trasporto marittimo e di servizi connessi mediante contatto diretto con i clienti, indipendentemente dal fatto che detti servizi siano gestiti o offerti dal fornitore stesso o da fornitori di servizi con i quali il venditore di servizi ha concluso accordi commerciali permanenti;

   b) acquisto in proprio o a nome dei loro clienti (e rivendita a questi ultimi) di tutti i servizi di trasporto e connessi, compresi i servizi di trasporto interno di qualsiasi tipo, segnatamente il trasporto fluviale, ferroviario e stradale, necessari per la fornitura di servizi integrati;

   c) preparazione dei documenti di trasporto, dei documenti doganali o di altri documenti inerenti all'origine e alla natura delle merci trasportate;

   d) fornitura di informazioni commerciali di qualsiasi tipo, anche attraverso i sistemi di informazione computerizzati e lo scambio elettronico di dati (fatte salve le disposizioni del presente accordo);

   e) conclusione di accordi commerciali (compresa la partecipazione al capitale azionario della società) e nomina del personale selezionato in loco (oppure, per il personale straniero, in base all'impegno orizzontale sulla circolazione del personale) con qualsiasi agenzia di spedizione stabilita in loco;

   f) rappresentanza delle compagnie, organizzazione dello scalo o, se necessario, presa in carico delle merci.

3. Per «operatore del trasporto multimodale» s'intende la persona a cui sono intestati la polizza di carico, il documento di trasporto multimodale o qualsiasi altro documento attestante un contratto per il trasporto multimodale di merci e che è responsabile del trasporto in forza di tale contratto.

SERVIZI DI TELECOMUNICAZIONE DI BASE ([1]):			
Per «servizi di telecomunicazione» s'intende il trasporto di segnali elettromagnetici (suoni, dati, immagini e loro combinazioni), indipendentemente dal tipo di tecnologia utilizzato. Questa definizione non comprende l'attività economica che consiste nel prestare un servizio il cui contenuto deve essere trasportato mediante servizi di telecomunicazione, soggetti alle modalità e condizioni indicate nell'elenco di impegni specifici assunti dal Cile per il settore, il sottosettore o l'attività in questione. Le telecomunicazioni locali di base non rientrano nell'elenco degli impegni. Tale elenco comprende solo le telecomunicazioni di base a lunga distanza nazionali e internazionali:	La prestazione di servizi privati destinati a soddisfare un'esigenza specifica in materia di telecomunicazioni di determinate società, entità o persone mediante accordo preliminare non dà accesso al traffico da o verso gli utenti delle reti di telecomunicazioni pubbliche.

Per «consociata» di una persona giuridica s'intende una persona giuridica effettivamente controllata da un'altra persona giuridica.

Per «filiale» di una persona giuridica s'intende un centro di attività economica senza capacità giuridica, apparentemente permanente, come l'estensione di una casa madre, che dispone di una direzione e delle infrastrutture necessarie per negoziare con terzi cosicché questi ultimi, pur sapendo che, all'occorrenza, vi sarà un rapporto giuridico con la casa madre la cui sede centrale si trova in un altro paese, non devono trattare direttamente con detta casa madre ma possono concludere transazioni nel centro di attività economica che ne costituisce l'estensione.

I. **IMPEGNI ORIZZONTALI**			
TUTTI I SETTORI DEL PRESENTE ELENCO			
	3) In tutti gli Stati membri [1] i servizi considerati servizi pubblici a livello nazionale o locale possono essere soggetti a monopoli statali o a diritti esclusivi concessi a operatori privati [2].	3) a) Il trattamento concesso alle consociate (di società cilene) costituite a norma delle leggi di uno Stato membro che abbiano la sede legale, l'amministrazione centrale o il principale centro degli affari nella Comunità non si estende alle filiali o agenzie aperte in uno Stato membro da una società cilena. Gli Stati membri possono comunque estendere questo trattamento alle filiali o alle agenzie stabilite in un altro Stato membro da una società o da un'impresa cilena per quanto riguarda la loro attività nel territorio del primo Stato membro, a meno che tale estensione non sia esplicitamente vietata dal diritto comunitario. b) Può essere concesso un trattamento meno favorevole alle consociate (di società cilene) costituite a norma delle leggi di uno Stato membro che abbiano solo la sede legale o l'amministrazione centrale nel territorio della Comunità, sempre che non si possa dimostrare che hanno un collegamento effettivo e permanente con l'economia di uno degli Stati membri. Costituzione di una persona giuridica 3) RO: l'amministratore unico o il presidente del consiglio d'amministrazione e metà del numero totale di amministratori delle società commerciali devono essere cittadini rumeni, salvo diversamente stipulato nell'atto costitutivo o nello statuto della società. La maggioranza dei revisori dei conti delle società commerciali e dei loro supplenti deve avere la cittadinanza rumena.	

[1] Nel caso dell'Austria, della Finlandia e della Svezia non si applicano riserve orizzontali per i servizi considerati servizi pubblici.

[2] Nota esplicativa: i servizi pubblici esistono in settori quali le consulenze scientifiche e tecniche, i servizi di R&S; per le scienze sociali e umane, i servizi tecnici di prova e analisi, i servizi ambientali, i servizi sanitari, i servizi di trasporto e i servizi connessi a tutte le modalità di trasporto. Gli operatori privati beneficiano spesso di diritti esclusivi su questi servizi, ad esempio mediante concessioni dei pubblici poteri, fatti salvi obblighi specifici. Dato che i servizi pubblici esistono spesso anche a livello decentrato, è praticamente impossibile stilare un elenco dettagliato ed esauriente per i singoli settori.

I. **IMPEGNI SPECIFICI RELATIVI AI SERVIZI FINANZIARI (prima parte)** ([2])

1. Una parte della CE (AT, BE, BG, CZ, DK, DE, ES, FI, FR, EL, HU, IE, IT, LU, NL, PT, SK, SE, UK) assume impegni relativi ai servizi finanziari conformemente alle disposizioni dell'«Intesa sugli impegni relativi ai servizi finanziari» («l'intesa») qui allegata. Tali impegni figurano nella presente sezione. Gli impegni relativi ai servizi finanziari assunti dall'altra parte della CE (CY, EE, HR, LV, LT, MT, PL, RO, SI) non si basano sull'intesa e figurano nella seconda sezione.
2. Questi impegni sono soggetti alle restrizioni all'accesso al mercato e al trattamento nazionale indicate nella sezione «tutti i settori» del presente elenco e a quelle relative ai sottosettori elencati più avanti.

([1]) Per attività commerciali, industriali o artigianali si intendono quelle connesse, ad esempio, agli altri servizi alle imprese, all'edilizia, alla distribuzione e al turismo. I servizi di telecomunicazione e quelli finanziari non rientrano in questa definizione.

([2]) Contrariamente alle consociate straniere, le filiali stabilite direttamente in uno Stato membro da un istituto finanziario cileno non sono soggette, a parte qualche eccezione, alla normativa prudenziale armonizzata a livello comunitario che offre a tali consociate maggiori possibilità per l'apertura di nuove sedi e la prestazione di servizi transfrontalieri in tutta la Comunità. Queste filiali, pertanto, vengono autorizzate a operare sul territorio di uno Stato membro a condizioni equivalenti a quelle applicate agli istituti finanziari nazionali dello Stato membro in questione e, talvolta, con l'obbligo di soddisfare un certo numero di requisiti prudenziali specifici quali: a) per quanto riguarda il settore bancario e il mercato mobiliare, un capitale sociale distinto e altre condizioni di solvibilità, nonché l'obbligo di comunicazione e pubblicazione dei conti; b) per quanto riguarda le assicurazioni, obblighi specifici in materia di garanzie e depositi, un capitale sociale distinto e la presenza, nello Stato membro in questione, di attività corrispondenti alle riserve tecniche e di almeno un terzo del margine di solvibilità. Gli Stati membri possono applicare le restrizioni contemplate nel presente elenco solo per quanto riguarda lo stabilimento diretto di una presenza commerciale cilena o la prestazione di servizi transfrontalieri dal Cile; uno Stato membro non può pertanto applicare dette restrizioni, comprese quelle relative allo stabilimento, a consociate cilene stabilite in altri Stati membri della Comunità, salvo nel caso in cui tali restrizioni possano essere applicate anche alle persone fisiche o giuridiche degli altri Stati membri a norma del diritto comunitario.

INTESA SUGLI IMPEGNI RELATIVI AI SERVIZI FINANZIARI

La Comunità è stata autorizzata ad assumere, nell'ambito del presente accordo, impegni specifici connessi ai servizi finanziari secondo un'impostazione diversa da quella contenuta nelle disposizioni generali della parte IV, capitolo II (Servizi finanziari). Si è deciso che tale impostazione potrà essere applicata purché:

i) non sia incompatibile con le disposizioni del presente accordo;

ii) non pregiudichi il grado di liberalizzazione che una parte si impegna a raggiungere a norma del presente accordo.

Al termine dei negoziati, e fatte salve le condizioni e le qualifiche specificate, la Comunità ha inserito nel suo elenco impegni specifici secondo l'impostazione sotto precisata.

A. Accesso al mercato

i) alla spedizione marittima, all'aviazione commerciale, ai lanci spaziali e al nolo (compresi i satelliti) in modo che l'assicurazione copra uno o tutti i seguenti elementi: le merci trasportate, il veicolo che le trasporta e ogni responsabilità che ne deriva; e

ii) alle merci in transito internazionale;

b) riassicurazione, retrocessione e servizi accessori del settore assicurativo di cui al punto iv) dell'articolo 117, paragrafo 9;

▼**M13**

2. La Comunità autorizza i suoi residenti ad acquistare nel territorio del Cile i servizi finanziari di cui:

   a) al paragrafo 1, lettera a);

   b) al paragrafo 1, lettera b); e

   c) ai punti da v) a xvi) dell'articolo 117, paragrafo 9.

Presenza commerciale

3. La Comunità concede ai prestatori di servizi finanziari del Cile il diritto di stabilire o di espandere una presenza commerciale sul suo territorio, anche mediante l'acquisizione di imprese esistenti.

4. La Comunità può imporre le modalità, le condizioni e le procedure di autorizzazione per lo stabilimento e l'espansione di una presenza commerciale purché non eludano l'obbligo di cui al paragrafo 3 e siano coerenti con gli altri obblighi previsti dal presente accordo.

Ingresso temporaneo del personale

5. a) La Comunità autorizza l'ingresso temporaneo nel suo territorio del seguente personale di un prestatore di un servizio finanziario cileno che sta stabilendo o ha stabilito una presenza commerciale nel territorio della Comunità:

      i) alti dirigenti in possesso di informazioni riservate indispensabili per lo stabilimento, il controllo e l'attività del prestatore di servizi finanziari; e

      ii) esperti assunti dal prestatore del servizio finanziario.

   b) In funzione della disponibilità di personale qualificato nel suo territorio, la Comunità autorizza l'ingresso temporaneo nel suo territorio del seguente personale associato alla presenza commerciale di un prestatore di servizi finanziari cileno:

      i) informatici, esperti in telecomunicazioni ed esperti contabili del prestatore di servizi finanziari; e

      ii) attuari e giuristi.

Misure non discriminatorie

6. La Comunità si adopera per eliminare o limitare tutte le ripercussioni negative per i prestatori di servizi finanziari cileni:

   a) delle misure non discriminatorie che impediscono ai prestatori di servizi finanziari di offrire nel territorio della Comunità, nella forma stabilita da quest'ultima, tutti i servizi finanziari autorizzati dalla Comunità;

   b) delle misure non discriminatorie che limitano l'espansione delle attività dei prestatori di servizi finanziari nell'intero territorio della Comunità;

   c) delle misure comunitarie, quando applica le stesse misure alla prestazione di servizi bancari e mobiliari e quando un prestatore di servizi finanziari cileno concentra le sue attività nel campo mobiliare; e

   d) delle altre misure che, pur rispettando le disposizioni del presente accordo, compromettono le possibilità dei prestatori di servizi finanziari cileni di operare, essere concorrenziali o entrare nel mercato comunitario,

   purché tutte le iniziative prese a norma del presente paragrafo non diano luogo a discriminazioni ingiuste nei confronti dei prestatori di servizi finanziari della parte che le prende.

▼**M13**

7. Per quanto riguarda le misure non discriminatorie di cui al paragrafo 6, lettere a) e b), la Comunità evita, per quanto possibile, di limitare gli attuali sbocchi commerciali e i vantaggi di cui gode attualmente la categoria dei prestatori di servizi finanziari cileni nel suo territorio, purché questo impegno non dia luogo a discriminazioni ingiuste nei confronti dei prestatori di servizi finanziari della Comunità.

B. Trattamento nazionale

1. La Comunità concede ai prestatori di servizi finanziari cileni stabiliti nel suo territorio, secondo le modalità e le condizioni a cui è subordinato il trattamento nazionale, l'accesso ai sistemi di pagamento e di compensazione gestiti da soggetti pubblici, nonché ai finanziamenti ufficiali e agli strumenti di rifinanziamento disponibili nel corso di normali operazioni commerciali. Il presente paragrafo non conferisce l'accesso al prestatore di ultima istanza della Comunità.

2. Quando richiede l'adesione, la partecipazione o l'accesso a un organismo autoregolamentato, alla borsa valori, al mercato mobiliare o al mercato a termine, ad un organismo di compensazione o a un'altra organizzazione/associazione per consentire ai prestatori di servizi finanziari cileni di prestare servizi finanziari su un piano di parità rispetto ai prestatori di servizi finanziari della Comunità, o quando conferisce, direttamente o indirettamente, privilegi o vantaggi a questi soggetti per la prestazione di servizi finanziari, la Comunità si accerta che i soggetti in questione concedano il trattamento nazionale ai prestatori di servizi finanziari cileni residenti nel suo territorio.

C. Definizioni

Si applicano le seguenti definizioni:

1. un prestatore non residente di servizi finanziari è un prestatore cileno che fornisce un servizio finanziario nel territorio della Comunità da uno stabilimento situato in territorio cileno, indipendentemente dal fatto che abbia o meno una presenza commerciale nel territorio della Comunità;

2. per «presenza commerciale» s'intende un'impresa che presta servizi finanziari nel territorio della Comunità e che comprende consociate parzialmente o interamente controllate, joint venture, società, imprese individuali, operazioni di franchising, filiali, agenzie, uffici di rappresentanza o altre organizzazioni.

ELENCO DEGLI IMPEGNI NEL SETTORE DEI SERVIZI FINANZIARI

Modalità e condizioni riguardanti l'accesso al mercato e il trattamento nazionale per quanto riguarda gli impegni specifici del Cile nel settore dei servizi finanziari.

1. Fatte salve le disposizioni specifiche del presente allegato, al presente elenco si applicano tutte le condizioni cui sono soggetti i settori dei servizi in generale, di cui alla parte B dell'allegato VII (Servizi).

2. Il decreto legge 600 del 1974, Statuto degli investimenti esteri, è uno speciale regime volontario d'investimenti

   In alternativa al regime d'ingresso dei capitali in Cile, gli investitori potenziali possono chiedere al Comitato per gli investimenti esteri che sia applicato il regime di cui al decreto legge 600.

   Gli obblighi e gli impegni contenuti nel presente capitolo e nel presente allegato non si applicano al decreto legge 600 (Statuto degli investimenti esteri), alla legge 18.657 (legge sul fondo per gli investimenti di capitale esteri), al proseguimento o al rinnovo tempestivo di dette leggi, alle loro modifiche e a qualsiasi regime speciale volontario d'investimenti adottato in futuro dal Cile.

   Per maggior sicurezza, rimane inteso che il Comitato cileno per gli investimenti esteri ha il diritto di respingere le domande di investimenti a norma del decreto legge 600 e della legge 18.657, e quindi non è tenuto a concludere contratti d'investimento. Il Comitato ha inoltre il diritto di disciplinare le modalità e le condizioni di tutti i contratti d'investimento a norma del decreto legge 600 e della legge 18.657.

3. Il settore cileno dei servizi finanziari in Cile è parzialmente segmentato, nel senso che le entità nazionali e straniere autorizzate a operare come banche non possono interferire direttamente nella compravendita di assicurazioni o valori, e viceversa. Le banche nazionali e straniere che operano in Cile, tuttavia, possono aprire succursali con capitale proprio, previa autorizzazione della Superintendencia de Bancos e Instituciones Financieras (SBIF), per prestare determinati servizi finanziari complementari all'attività principale della banca, che consiste nel ricevere denaro dal pubblico nella forma consueta e nel concedere prestiti in denaro sotto forma di valori mobiliari, di effetti commerciali o di qualsiasi altro titolo di credito

4. I sottosettori e i servizi del presente elenco sono definiti conformemente alla legislazione cilena pertinente.

5. I pagamenti correnti e i movimenti di capitali effettuati a norma del presente capitolo possono essere assoggettati al paragrafo 3 dell'allegato XIV.

I prestatori di servizi sono ammessi temporaneamente per un periodo di due anni, che può essere prorogato di una durata equivalente. Il personale ammesso a queste condizioni è soggetto alle disposizioni del diritto del lavoro e del diritto previdenziale in vigore.

10. Gli impegni del Cile relativi ai piani di risparmio previsionale volontario entrano in vigore a decorrere dal 1º marzo 2005.

b) Servizi di assicurazione e di riassicurazione:

1. Il settore assicurativo cileno è suddiviso in due gruppi di imprese: 1) le società che assicurano i rischi di perdita o deterioramento degli oggetti o del patrimonio; 2) le società che coprono i rischi delle persone o che garantiscono loro, a termine, un capitale, una polizza interamente pagata o una rendita per l'assicurato o per i suoi beneficiari. I rischi corrispondenti alle due categorie non possono essere coperti dalla stessa società.

2. Anche quando fanno parte della prima categoria, le società di assicurazione-credito devono costituirsi come società per azioni il cui unico oggetto sia coprire questo tipo di rischio, cioè la perdita o il deterioramento del patrimonio dell'assicurato in seguito al mancato pagamento di un'obbligazione in denaro o di un credito di denaro, e che possono coprire anche i rischi di garanzia e fedeltà.

Per «consociata» di una persona giuridica s'intende una persona giuridica effettivamente controllata da un'altra persona giuridica.

Per «filiale» di una persona giuridica s'intende un centro di attività economica senza capacità giuridica, apparentemente permanente, come l'estensione di una casa madre, che dispone di una direzione e delle infrastrutture necessarie per negoziare con terzi cosicché questi ultimi, pur sapendo che, all'occorrenza, vi sarà un rapporto giuridico con la casa madre la cui sede centrale si trova in un altro paese, non devono trattare direttamente con detta casa madre ma possono concludere transazioni nel centro di attività economica che ne costituisce l'estensione.

Settore o sottosettore	Restrizioni al trattamento nazionale per quanto riguarda lo stabilimento
1. **IMPEGNI ORIZZONTALI**	
TUTTI I SETTORI DEL PRESENTE ELENCO	
	a) Il trattamento concesso alle consociate (di società cilene) costituite a norma delle leggi di uno Stato membro che abbiano la sede legale, l'amministrazione centrale o il principale centro degli affari nella Comunità non si estende alle filiali o agenzie aperte in uno Stato membro da una società cilena. Gli Stati membri possono comunque estendere questo trattamento alle filiali o alle agenzie stabilite in un altro Stato membro da una società o da un'impresa cilena per quanto riguarda la loro attività nel territorio del primo Stato membro, a meno che tale estensione non sia esplicitamente vietata dal diritto comunitario.
	b) Può essere concesso un trattamento meno favorevole alle consociate (di società cilene) costituite a norma delle leggi di uno Stato membro che abbiano solo la sede legale o l'amministrazione centrale nel territorio della Comunità, sempre che non si possa dimostrare che hanno un collegamento effettivo e permanente con l'economia di uno degli Stati membri.
	Costituzione di una persona giuridica AT: fatti salvi i trattati in vigore, le persone fisiche straniere possono svolgere un'attività commerciale a parità di condizioni con i cittadini austriaci, purché dimostrino all'autorità competente che le persone fisiche austriache non sono assolutamente discriminate per l'esercizio dell'attività in questione nel paese di origine dello straniero. Se tali prove non possono essere fornite, la persona fisica straniera deve chiedere ufficialmente uno status equivalente a quello dei cittadini austriaci. Se il titolare di una licenza commerciale non ha la residenza permanente in Austria, occorre nominare un rappresentante professionale («gewerberechtlicher Geschäftsführer») che risieda permanentemente in Austria. Per ottenere una licenza commerciale, le persone giuridiche o le società di persone straniere devono creare uno stabilimento e nominare un rappresentante professionale che risieda permanentemente in Austria. Fatti salvi i trattati in vigore, un rappresentante professionale straniero deve chiedere uno status equivalente a quello dei cittadini austriaci.

Settore o sottosettore	Restrizioni al trattamento nazionale per quanto riguarda lo stabilimento
	FI: almeno metà dei fondatori di una società a responsabilità limitata devono essere persone fisiche residenti nel SEE (Spazio economico europeo) o persone giuridiche domiciliate in uno dei paesi SEE, salvo deroga concessa dal ministero del Commercio e dell'industria.
	SE: uno o più fondatori possono costituire una società a responsabilità limitata (società per azioni). I fondatori devono risiedere all'interno del SEE (Spazio economico europeo) o essere una persona giuridica del SEE. Le società di persone possono essere fondatori solo se tutti i partner risiedono nel SEE ([1]). L'amministratore delegato e almeno il 50 per cento dei membri del consiglio di amministrazione devono risiedere all'interno del SEE (Spazio economico europeo). Si applicano le condizioni corrispondenti per lo stabilimento di tutti gli altri tipi di persona giuridica.
	CZ: le persone fisiche straniere possono svolgere un'attività commerciale a parità di condizioni con i cittadini cechi. Tuttavia, per svolgere un'attività indipendente o creare e gestire un'impresa esse sono tenute ad iscriverla nel registro delle imprese, a meno che la persona in questione non risieda all'interno del SEE (Spazio economico europeo). Se non ha la residenza/sede permanente all'interno del SEE, la persona fisica o giuridica deve depositare presso il registro delle imprese i dati o un documento riguardanti i carichi ipotecari sulle attività dell'impresa in un paese straniero, se la validità di un titolo è legata alla loro pubblicazione, nonché altri dati aggiuntivi. Prima di iscriversi nel registro delle imprese, le persone giuridiche straniere devono creare un'azienda nella Repubblica ceca e nominare un rappresentante professionista che abbia la residenza permanente nella Repubblica ceca.
	MT: le richieste da parte dei non residenti per l'emissione, l'acquisto, la vendita e il riacquisto di titoli di società locali stabilite, o che verranno stabilite a Malta, non quotati alla borsa di Malta devono essere approvate dal registro delle imprese presso l'autorità maltese per i servizi finanziari (MFSA). Tale procedura non si applica alle società definite nell'articolo 2 della legge riguardante l'imposta sul reddito (ossia le holding/società commerciali internazionali) e alle società che possiedono una nave registrata ai sensi della legge sulla marina mercantile, e in cui la partecipazione di soggetti residenti non supera il 20 %.
	PL: i soggetti stranieri che sono stati autorizzati a risiedere in territorio polacco o cui è stato concesso in Polonia il soggiorno tollerato o lo status di profughi, o che godono di una protezione temporanea in territorio polacco, possono intraprendere e svolgere un'attività economica in territorio polacco alle stesse condizioni applicate ai cittadini polacchi. In base ai requisiti di reciprocità, se gli accordi internazionali ratificati non prevedono altrimenti, i soggetti stranieri possono intraprendere e svolgere un'attività economica in territorio polacco alle stesse condizioni applicate agli imprenditori aventi la propria sede in Polonia. Laddove non vige la reciprocità, i soggetti stranieri possono intraprendere e svolgere un'attività economica in territorio polacco soltanto sotto forma di società in accomandita semplice, società a responsabilità limitata e società per azioni; essi hanno inoltre il diritto di unire tali società e di rilevare o acquistare le rispettive azioni.
	RO: l'amministratore unico o il presidente del consiglio di amministrazione e metà del numero totale di amministratori delle società commerciali devono essere cittadini rumeni, salvo diversamente stipulato nell'atto costitutivo o nello statuto della società. La maggioranza dei revisori dei conti delle società commerciali e dei loro supplenti deve avere la cittadinanza rumena.

([1]) Possono essere concesse deroghe a questi requisiti se è dimostrabile che la residenza non è necessaria.

Settore o sottosettore	Restrizioni al trattamento nazionale per quanto riguarda lo stabilimento
	Legislazione sulle filiali delle società straniere SE: una società straniera (che non abbia stabilito una persona giuridica in Svezia) svolge le sue operazioni commerciali attraverso una filiale, stabilita in Svezia, con una gestione indipendente e una contabilità separata. L'obbligo di aprire una filiale o di nominare un rappresentante residente non si applica ai progetti edilizi di durata inferiore a un anno. SE: l'amministratore delegato di una filiale risiede nel SEE (Spazio economico europeo) ([1]). SE: i cittadini stranieri o svedesi non residenti in Svezia che intendono svolgere operazioni commerciali in questo paese nominano e registrano presso l'autorità locale un rappresentante residente responsabile di tali attività. LT: almeno un rappresentante della filiale della società straniera deve essere residente in Lituania.
	PL: Filiali: per svolgere un'attività economica in territorio polacco, gli imprenditori stranieri possono creare delle filiali, sulla base delle norme di reciprocità, se gli accordi internazionali ratificati non prevedono altrimenti. L'attività economica della filiale deve essere analoga a quella svolta dall'imprenditore straniero. È inoltre opportuno che venga nominata la persona autorizzata a rappresentare l'imprenditore straniero. L'agenzia dev'essere legalmente costituita e deve gestire una contabilità separata. Agenzie: gli imprenditori stranieri possono creare agenzie. L'attività economica dell'agenzia è limitata soltanto alla promozione e alla pubblicizzazione dell'imprenditore straniero. L'agenzia dev'essere legalmente costituita e deve gestire una contabilità separata.
	SI: lo stabilimento di filali di società straniere è subordinato all'iscrizione della casa madre in un registro del tribunale nel paese di origine per almeno un anno.
	Persone giuridiche AT: solo i cittadini austriaci o le persone giuridiche e le imprese con sede in Austria possono essere azionisti della Oesterreichische Nationalbank (Banca nazionale austriaca). I dirigenti devono essere cittadini austriaci. BG: lo stabilimento di fornitori stranieri di servizi, comprese le joint venture, può assumere unicamente la forma di una società a responsabilità limitata o di una società per azioni con almeno due azionisti. Lo stabilimento di filiali è subordinato ad autorizzazione. Nessun impegno (unbound) per gli uffici di rappresentanza. Gli uffici di rappresentanza non possono svolgere attività economiche.
	FI: almeno metà dei membri del consiglio di amministrazione e l'amministratore delegato devono risiedere nel SEE (Spazio economico europeo), a meno che la società non benefici di una deroga concessa dal ministero del Commercio e dell'industria.
	FI: quando l'acquisizione di azioni da parte di stranieri conferisce loro più di un terzo dei diritti di voto di una grossa società o impresa commerciale finlandese (con oltre 1 000 dipendenti, un fatturato superiore a 167 milioni di euro o un bilancio patrimoniale totale di oltre 167 milioni di euro) è indispensabile una conferma da parte delle autorità finlandesi, che la negano solo qualora risultino compromessi importanti interessi nazionali. Uno straniero che viva al di fuori dello Spazio economico europeo e svolga un'attività commerciale come imprenditore privato o come socio di una società a responsabilità limitata o di una società semplice finlandese deve ottenere una licenza commerciale. Un'organizzazione o una fondazione straniera costituita a norma delle leggi di un paese del SEE e avente la propria sede legale in tale paese non necessita di una licenza per svolgere un'attività commerciale se apre una filiale in Finlandia.

([1]) Possono essere concesse deroghe a questi requisiti se è dimostrabile che la residenza non è necessaria.

(di cui all'articolo articolo 150)

TERMINI

Termine generale minimo

►C1 1. Fatte salve le disposizioni dei paragrafi 2 e 3, gli enti devono lasciar passare ◄ almeno 40 giorni tra la data di pubblicazione dell'appalto previsto e la data limite per la presentazione delle offerte.

Termini applicabili alla procedura di gara selettiva

2. Quando chiede ai fornitori di soddisfare requisiti di qualità per poter partecipare ad un appalto, l'ente lascia passare almeno 25 giorni tra la data di pubblicazione dell'appalto previsto e la data limite per la presentazione delle domande di partecipazione, e almeno 40 giorni tra la data di pubblicazione dell'invito a presentare offerte e la data limite per la presentazione delle stesse.

Possibilità di ridurre i termini generali

3. Nelle circostanze descritte in appresso, gli enti possono fissare un termine per la presentazione delle offerte inferiore ai periodi di cui ai paragrafi 1 e 2, sempreché tale termine permetta ai fornitori di preparare e presentare offerte valide e non sia comunque inferiore a 10 giorni prima della data limite per la presentazione delle offerte:

(a) quando un avviso di appalto programmato è stato pubblicato con un anticipo compreso tra 40 giorni e 12 mesi;

(b) qualora vi siano state una seconda pubblicazione o pubblicazioni successive riguardanti contratti ricorrenti;

(c) quando l'ente appalta beni o servizi standardizzati (beni o servizi con le stesse specifiche tecniche di quelli venduti o offerti a e abitualmente acquistati da acquirenti non pubblici per scopi non pubblici); l'ente non abbrevia il termine per tale motivo se chiede ai fornitori potenziali di qualificarsi per la partecipazione all'appalto prima di presentare le offerte;

(d) qualora, per motivi di urgenza la cui fondatezza è debitamente dimostrata dall'ente appaltante, sia impossibile attenersi ai periodi di cui ai paragrafi 1 e 2;

(e) quando il termine per la presentazione delle offerte di cui al paragrafo 2 nel caso di appalti degli enti indicati agli allegati XI e XII, appendice 3, è fissato di comune accordo tra l'ente e i fornitori selezionati. In caso di disaccordo, l'ente può fissare periodi sufficientemente lunghi da consentire la presentazione di offerte valide;

(f) quando un ente pubblica un avviso di appalto previsto a norma dell'articolo 147 con uno dei mezzi elettronici di cui all'appendice 2 del presente allegato e la documentazione completa di gara è disponibile per via elettronica sin dall'inizio della pubblicazione dell'avviso.

VALORE DELLE SOGLIE

Ciascuna Parte pubblica il valore delle soglie a norma del presente titolo esprimendolo in euro e/o nella moneta nazionale corrispondente.

5. Tutte le notifiche sono effettuate, rispettivamente, al Cile e alla Comunità.

6. Gli errori materiali di scarsa importanza contenuti in richieste, avvisi, comunicazioni scritte o altri documenti relativi al procedimento del panel arbitrale possono essere corretti mediante trasmissione di un nuovo documento in cui siano chiaramente indicate le modifiche.

7. Qualora il termine ultimo per la trasmissione di un documento coincida con una festa nazionale del Cile o della Comunità, il documento può essere trasmesso il giorno lavorativo successivo.

Avvio del procedimento arbitrale

8. Salvo diverso accordo tra di esse, le Parti si riuniscono con il panel arbitrale entro sette giorni dalla data di costituzione dello stesso al fine di individuare le questioni considerate appropriate dalle Parti o dal panel arbitrale, comprese le retribuzioni e il rimborso spese degli arbitri, che in genere vengono stabiliti secondo le norme dell'OMC.

▼B

9. (a) Salvo diverso accordo tra le Parti, al panel arbitrale viene conferito il seguente mandato:

«Esaminare, in funzione delle disposizioni pertinenti dell'accordo, la questione sottoposta al Comitato di associazione, decidere in merito alla compatibilità delle misure in causa con la parte IV dell'accordo e presentare la relazione di cui all'articolo 187 dell'accordo.»

(b) I panel arbitrali interpretano le disposizioni del presente accordo secondo le consuete regole di interpretazione del diritto pubblico internazionale, tenendo debitamente conto del fatto che le Parti devono applicare il presente accordo in buona fede ed evitare di eludere i rispettivi obblighi.

(c) Le Parti trasmettono tempestivamente al panel arbitrale tutti i mandati decisi di comune accordo.

Comunicazioni iniziali

10. La Parte ricorrente trasmette le sue comunicazioni scritte iniziali entro venti giorni dalla data di costituzione del panel arbitrale. La Parte oggetto del reclamo trasmette la sua replica scritta entro venti giorni dalla data in cui è stata trasmessa la comunicazione scritta iniziale

Funzionamento dei panel arbitrali

11. Il presidente del panel arbitrale presiede tutte le riunioni. Un panel arbitrale può delegare il presidente a prendere le decisioni di carattere amministrativo e procedurale.

12. Salvo diverse disposizioni del presente regolamento interno, il panel arbitrale può svolgere la sua attività tramite qualsiasi mezzo di comunicazione, in particolare per telefono, fax o collegamento informatico.

13. Soltanto gli arbitri possono partecipare alle discussioni del panel arbitrale, ma quest'ultimo può autorizzare i loro assistenti a presenziare alle discussioni.

14. La stesura delle decisioni e delle relazioni è di esclusiva competenza del panel arbitrale.

15. Qualora sorga una questione procedurale non contemplata dal presente regolamento, il panel arbitrale può adottare una procedura appropriata non incompatibile con la parte IV del presente accordo.

16. Qualora il panel arbitrale ritenga necessario modificare un termine applicabile nell'ambito del procedimento o introdurre nel procedimento qualsiasi altro adeguamento di carattere procedurale o amministrativo, comunica per iscritto alle Parti le ragioni che giustificano la modifica o l'adeguamento, indicando il termine o l'adeguamento necessario.

Audizioni

17. Il presidente fissa la data e l'ora dell'audizione, d'intesa con le Parti e con gli altri membri del panel arbitrale, e notifica per iscritto alle Parti la data, l'ora e il luogo dell'audizione. Quando l'audizione è pubblica, queste informazioni vengono messe a disposizione di tutti dalla Parte incaricata degli aspetti logistici del procedimento. Salvo disaccordo tra le Parti, il panel arbitrale può decidere di non organizzare un'audizione.

▼B

18. A meno che le Parti non convengano diversamente, l'audizione ha luogo a Bruxelles se la Parte ricorrente è il Cile e a Santiago se la Parte ricorrente è la Comunità, o la Comunità e i suoi Stati membri.

19. Il panel arbitrale può organizzare altre audizioni con il consenso delle Parti.

20. Tutti gli arbitri presenziano alle audizioni.

21. Possono presenziare ad un'audizione le persone seguenti:

(a) i rappresentanti di una Parte;

(b) i consulenti di una Parte;

(c) il personale amministrativo, gli interpreti, i traduttori e gli stenografi; e

(d) gli assistenti degli arbitri.

Solo il rappresentante e il consulente di una Parte possono rivolgersi al panel arbitrale.

22. Al più tardi cinque giorni prima della data dell'audizione ciascuna Parte trasmette l'elenco dei nomi delle persone che procederanno a presentazioni o argomentazioni orali per suo conto e degli altri rappresentanti o consulenti che presenzieranno all'audizione.

23. A meno che le Parti non decidano diversamente, le audizioni dei panel arbitrali si svolgono a porte chiuse. Anche quando le Parti decidono di aprirle al pubblico, il panel arbitrale può decidere per motivi gravi, su richiesta delle Parti, che una parte delle audizioni si svolga a porte chiuse. In particolare, il panel arbitrale si riunisce a porte chiuse quando le comunicazioni e le argomentazioni di una Parte contengono informazioni commerciali riservate.

24. Il panel arbitrale conduce l'audizione nel modo sottoindicato, assicurando un tempo equivalente alla Parte ricorrente e alla Parte oggetto del reclamo:

Argomentazione

a) argomentazione della Parte ricorrente;

b) argomentazione della Parte oggetto del reclamo.

Confutazione

a) a)replica della Parte ricorrente;

b) controreplica della Parte oggetto del reclamo.

25. Il panel arbitrale può rivolgere domande alle Parti in qualsiasi momento dell'audizione.

26. Il panel arbitrale predispone la stesura del verbale di ciascuna audizione, che fa trasmettere per iscritto appena possibile alle Parti.

27. Entro dieci giorni dalla data dell'audizione, ciascuna Parte può comunicare osservazioni scritte supplementari in merito a qualsiasi questione sorta durante l'audizione.

▼B

Domande scritte

28. Il panel arbitrale può rivolgere per iscritto domande a una o a entrambe le Parti in qualsiasi momento di un procedimento. Esso trasmette le domande scritte alla Parte o alle Parti cui sono rivolte.

29. Una Parte alla quale il panel arbitrale pone domande scritte trasmette una copia delle risposte scritte all'altra Parte e al panel arbitrale. A ciascuna Parte viene data la possibilità di inviare osservazioni scritte sulle risposte entro i cinque giorni successivi alla data in cui queste sono state comunicate.

Riservatezza

30. Le Parti rispettano il carattere riservato delle audizioni del panel che si svolgono a porte chiuse a norma del paragrafo 23. Le Parti evitano di divulgare le informazioni comunicate in via riservata dall'altra Parte al panel arbitrale. Se una Parte coinvolta in una controversia fa pervenire al panel una versione riservata delle sue comunicazioni scritte, su richiesta dell'altra Parte fornisce anche un riassunto non riservato delle informazioni contenute nelle comunicazioni, che possa essere reso accessibile a tutti, entro quindici giorni dalla data della richiesta o, se successiva, della comunicazione. Nessuna disposizione del presente regolamento interno vieta ad una Parte di divulgare la propria posizione.

Contatti unilaterali

31. Il panel arbitrale non si incontra né si mette in contatto con una Parte in assenza dell'altra Parte.

32. Nessun arbitro può discutere un aspetto della questione oggetto del procedimento con una delle Parti o con entrambe in assenza degli altri arbitri.

Ruolo degli esperti

33. Su richiesta di una Parte o di propria iniziativa, il panel arbitrale può chiedere informazioni e consulenze tecniche alle persone o agli organismi che ritenga appropriati. Queste informazioni vengono comunicate alle Parti affinché possano fare commenti in proposito.

34. Qualora venga chiesta una relazione scritta di un esperto, qualsiasi termine applicabile nell'ambito del procedimento arbitrale è sospeso per un periodo che va dalla data di presentazione della richiesta alla data di presentazione della relazione al panel arbitrale.

Comunicazioni amicus curiae

35. A meno che le Parti non decidano diversamente entro tre giorni dalla costituzione del panel arbitrale, quest'ultimo può ricevere comunicazioni scritte non richieste, purché vengano presentate entro dieci giorni dalla costituzione del panel arbitrale, siano concise e comunque non superiori a quindici cartelle dattiloscritte, compresi gli eventuali allegati, e riguardino direttamente la questione de facto e de jure esaminata dal panel arbitrale.

▼B

36. La comunicazione deve contenere una descrizione della persona fisica o giuridica che la presenta, comprese la natura delle sue attività e le sue fonti di finanziamento, e precisare l'interesse della persona nei confronti del procedimento arbitrale. La comunicazione è redatta nelle lingue scelte dalle Parti a norma del paragrafo 39.

37. Nella relazione del panel arbitrale vengono elencate tutte le comunicazioni ricevute che risultano conformi alle disposizioni di cui sopra. Il panel arbitrale non è tenuto ad esaminare nella relazione le argomentazioni de facto o de jure contenute nelle comunicazioni suddette. Le comunicazioni di questo tipo ricevute dal panel arbitrale vengono sottoposte alle Parti affinché possano fare osservazioni in merito.

Casi urgenti

38. Nei casi urgenti di cui all'articolo 187, paragrafo 5 del presente accordo, il panel arbitrale adegua opportunamente i termini di cui al presente regolamento.

Traduzione e interpretazione

39. Prima di trasmettere la sua comunicazione scritta iniziale nell'ambito di un procedimento arbitrale, ciascuna Parte provvede, entro un termine ragionevole, ad informare per iscritto l'altra Parte e il panel arbitrale della lingua in cui saranno formulate le sue comunicazioni scritte e orali.

40. Ciascuna delle Parti provvede, sostenendo i relativi costi, alla traduzione delle sue comunicazioni scritte nella lingua scelta dall'altra Parte.

41. La Parte oggetto del reclamo provvede alla traduzione simultanea delle comunicazioni orali nelle lingue scelte dalle Parti.

42. Le relazioni del panel arbitrale sono presentate nella lingua o nelle lingue scelte dalle Parti.

43. I costi relativi alla traduzione di una relazione arbitrale sono sostenuti dalle Parti in proporzioni equivalenti.

44. Le Parti possono formulare osservazioni sul testo tradotto di un documento elaborato a norma del presente regolamento.

Calcolo dei termini

45. Quando il presente accordo, il presente regolamento o il panel arbitrale prescrivono che un'azione sia compiuta entro un certo numero di giorni dopo, prima o a decorrere da una data o un evento specificati, la data specificata o quella in cui avviene l'evento specificato non sono comprese nel conteggio del numero di giorni indicato.

46. Quando, in applicazione del paragrafo 7, una Parte riceve un documento in una data diversa da quella in cui lo stesso documento è ricevuto dall'altra Parte, qualsiasi termine la cui determinazione dipenda dalla ricezione del documento si calcola dalla data di ricezione più recente.

Altri procedimenti

47. Il presente regolamento si applica ai procedimenti avviati a norma dell'articolo 188, paragrafi 4, 5, 8 e 10 del presente accordo, salvo che:

▼B

a) la Parte che presenta una richiesta ai sensi dell'articolo 188, paragrafo 4, trasmetta la sua comunicazione scritta iniziale entro dieci giorni dalla data di presentazione della richiesta e la Parte chiamata a rispondere trasmetta la sua comunicazione scritta entro dieci giorni dalla data in cui è stata trasmessa la comunicazione scritta iniziale;

b) la Parte che presenta una richiesta ai sensi dell'articolo 188, paragrafo 5, trasmetta la sua comunicazione scritta iniziale entro dieci giorni dalla data di presentazione della richiesta e la Parte chiamata a rispondere trasmetta la sua comunicazione scritta entro dieci giorni dalla data in cui è stata trasmessa la comunicazione scritta iniziale;

c) la Parte che presenta una richiesta ai sensi dell'articolo 188, paragrafo 8, trasmette la sua comunicazione scritta iniziale entro dieci giorni dalla data di presentazione della richiesta e la Parte chiamata a rispondere trasmette la sua comunicazione scritta entro dieci giorni dalla data in cui è stata trasmessa la comunicazione scritta iniziale;

d) la Parte che presenta una richiesta ai sensi dell'articolo 188, paragrafo 10, trasmette la sua comunicazione scritta iniziale entro dieci giorni dalla data di presentazione della richiesta e la Parte chiamata a rispondere trasmette la sua comunicazione scritta entro dieci giorni dalla data in cui è stata trasmessa la comunicazione scritta iniziale.

48. Se necessario, il panel arbitrale fissa il termine per la presentazione di altre eventuali comunicazioni scritte, comprese le repliche scritte, in modo da dare a ciascuna Parte la possibilità di presentare lo stesso numero di comunicazioni scritte, nel rispetto dei termini previsti in relazione ai procedimenti arbitrali dall'articolo 188 del presente accordo e dal presente regolamento.
